REFERENCE LIBRARY.

A complete list of Rules and Regulations can be
seen on application.

- (*Extract from Rules and Regulations*)

The Reference Library shall be available to literate members of the public resident in Colombo and over the age of 14 years and shall be open daily from 8 a.m. to 6 p.m., and shall be closed on, Sundays (after 11 a.m.) on Wednesdays and on Wesak day, Christmas day, New year's day and Good Friday and the following Saturday and Sunday (Easter Sunday) and at such other times as the Committee may deem necessary for stock-taking or other purposes, due notice of which shall be posted in the Library.

Persons desirous of using the Reference Library must on each occasion, before entering, inform the Librarian and obtain his permission and on such permission being granted sign the Reference Library Readers' Signature Book in which he shall enter his full name, age, occupation and address (both private and official) and such signature will be taken and considered to signify assent to these Rules and Regulations.

Readers will not be permitted to take down from the shelves the books they wish to consult but they will be handed to them on application to the Librarian. All books consulted, including those referred to in the next succeeding rule, must be returned to the Librarian.

Any book in the Lending Library, except works of Fiction, may be obtained for use in the Reference Library on application to the Librarian, but it must be given up if and when required for lending out.

PHENOMENA.

In the year 1861 there will be three Eclipses of the Sun, one of the Moon, and a transit of Mercury over the Sun's disc. Of these there will be partly visible in Ceylon--

I. An annular Eclipse of the Sun, beginning July 8th, 4h. 37m., A.M., meantime at Colombo; and ending at 10h. 20m., A.M.

II. The transit of Mercury, November 12. Ingress 10h. 35m., A.M., meantime at Colombo. Egress 2h. 37m., P.M., meantime.

COLOMBO TIME.

Ceylon being so far towards the East or Sun-rising, it is already mid-day here when it is morning in England. The day here is farther advanced than at Greenwich 5 hours 19 minutes and 33 seconds, which must therefore be added to the time in England to give the time here.

The quantities given under the head "Sun's Declination" are to the nearest minute, and those under "Equation of Time" to the nearest second. By these data, with the use of a pocket sextant, the time may be readily obtained to within four seconds. Those whose objects require greater accuracy will most probably be provided with a Nautical Almanac.

THE WEATHER.

COLOMBO.—The along-shore wind (a strong parching wind from the N. E.) often continues to blow the greater part of this month night and day. It carries off the moisture of the ground and the skin rapidly, and gives rheumatism, &c., to those who expose themselves incautiously to it. Therm. Max. 89. Min. 72.1. Mean 79.8.

TRINCOMALIE.—Fine weather throughout, wind N. E. but more moderate. Occasional land wind after midnight and very cold. Therm. Max. 83. Min. 72. Mean 79.

THE WEATHER.

COLOMBO.—The dry earth now receives far more heat from the sun than it parts with by evaporation or terrestrial radiation. The weather is becoming very warm. Notwithstanding the alternate sea breezes by day and land winds by night, the heat is oppressive compared with that of the rest of the year. Therm. Max. 88.1. Min. 74. Mean 81.8.

TRINCOMALIE.—Fine weather throughout, wind more moderate and veers round to E. N. E. and East with morning land wind. Towards the end of the month the weather becomes warm. Therm. Max. 86. Min. 72. Mean 81.

Account of the Calendar.

THE JULIAN OR COMMON CIVIL YEAR* is that which is employed in chronology. This is in effect a solar year, commonly containing a certain number of whole days, the odd hours and minutes being set aside to render the computation of time in the common concerns of life more easy, and consists of 365 days or 13 months, 1 day; or 52 weeks, 1 day, for three years together: but every fourth year a day (or in the four years 6 hours for each year) being added to February, it then contains 366 days; this is called *bissextile* or *leap year*, consequently the mean Julian year, will be 365 days, 6 hours.

THE MEAN SOLAR, ASTRONOMICAL, TROPICAL, NATURAL, OR EQUINOCTIAL YEAR is the true standard of time, and is the period of time in which the earth performs a revolution about the sun, or passes from the first point of *Aries* to the same first point of *Aries* again; and has been assumed, according to Bessel (see *Connnaissance des Temps*, 1831. Additions, p. 154.), equal to 365.242218 mean solar days = 365d. 45m. 47.0352s.

Although the Julian method of intercalation is perhaps the most convenient that could be adopted; yet, as the science of astronomy advanced, the length of the astronomical year was found to be shorter than the Julian correction supposes by 11m. 12.3648s., it could not, without correction, very long answer the purpose for which it was devised, namely, that of preserving always the same interval of time between the commencement of the year and the equinox, and thus would a degree of confusion be introduced into the relative divisions of the year, and be productive of great inconvenience: at length it was discovered that an error of one day too much would take place in 129 years (for as 11m. 12.3648s. : 1 year :: 1d. : x; but in the time of Cæsar the length of the year was an astronomical element not very well determined. In the course of a few centuries, however, the equinox sensibly retrograded towards the beginning of the year in consequence of the precession of the equinoxes. When the Julian calendar was introduced, the equinox fell on the 25th of March; at the time of the Council of Nice, which was held *Anno Domini* 325, it fell on the 21st of March. This imperfection of the calendar was noticed as early as the time of the Venerable Bede; but the reformation of it did not take place, till many centuries after: *Petrus ab Alliaco* and *Cusa*, two learned Cardinals, not only pointed out these imperfections to the Councils of Constance and Lateran, but suggested the means for its correction; and in A. D. 1474, *Pope Sixtus the 10th* engaged *Regiomontanus*, an eminent mathematician, in this task of reform, though from the circumstance of the death of *Regiomontanus* the project was not carried into effect. And when the reformation was made, in 1582, the equinox had retrograded to the 11th of March; therefore, in order to make the calendar more correct, *Pope Gregory the 13th* invited *Clavius* and *Cicciotius*, the most celebrated astronomers and mathematicians of the age, with others, to superintend the reconstruction of the calendar: they having found that by the introduction of the bissextile days, a difference had arisen of ten days between the calendar and actual time, owing to the odd minutes and seconds which the bissextile year occasioned, the calendar to exceed the true period of the sun's progress, the *Pope* then issued a brief, in the month of March 1582, in which he abolished the use of the ancient calendar. And in order to restore the commencement of the year to the same place in the seasons that it had occupied at the time of the Council of Nice, Gregory directed the day following the feast of St. Francis, that is to say, the 5th of October, to be reckoned the 15th of that month. By this regulation the vernal equinox, which now happened on the 11th of March, was restored to the 21st. This last amendment of the calendar having taken place under the direction of *Pope Gregory the 13th*, was, out of respect to him, called the *Gregorian* or *New Style*, in opposition to the *Julian* or *Old Style*, and has been adopted by almost every Christian nation. The *Gregorian Style* was immediately acceded to by all those parts of Europe which were under the papal authority, but the Protestants adhered to the *Julian Style* with obstinate pertinacity; and the Protestants of Germany have the credit of having first rectified such inconsistency, by throwing eleven days out of their calendar in 1700; while it is worthy of remark, that the Russians, regardless of

* The first Julian year commenced with the first of January of the 46th before the birth of Christ, and 706 from the foundation of the city of Rome.

propriety, still adhere to the Julian style, and therefore, by another centurial leap-year having occurred, viz. in the year 1800, they now differ from us 12 days in their date of time. Now as the error of the Julian intercalation was found to amount to three days in 400 years, he ordered intercalations to be omitted on all the centenary years, excepting those which are multiples of 400. According to the Gregorian rule of intercalation, therefore, to know when it is *bissextile* or *leap year*, divide the year by 4, and the remainder shews how long it is after leap year; if nothing remains it is leap year, excepting the centurial years, which are only leap years when divisible by 4 after suppressing the two zeros. Thus 1600 and 2000 are leap years, because 16 and 20 are divisible by 4; but 1700, 1800, and 1900 are common years, and so on, because 17, 18, and 19 are not divisible by 4, but these would have been leap years by the Julian calendar. As the Gregorian method of intercalation has been adopted in all Christian countries, Russia excepted, it becomes interesting to examine with what degree of accuracy it reconciles the civil with the solar year; therefore the only thing in the correction of the calendar that requires a high degree of mathematical science is the determination of the length of the astronomical year; yet this has never been perfectly ascertained. Had the mean astronomical year been more accurately determined in the time of Julius Cæsar, the Julian correction would, probably, have superseded the necessity of the Gregorian. Although the Gregorian calendar is far preferable to the Julian, yet it is not without its defects (perhaps, as *Tycho Brahe* and *Cassini* imagine, it is impossible ever to bring the calendar to a perfect justness). According to the latest determinations of modern astronomy, the *mean solar year* consists of 365 *d.* 5 *h.* 48 *m.* 47.6352 *s.*, or 365.242218 *d.* Now the Gregorian rule gives 97 intercalations in 400 years; 400 years therefore contain $365 \times 400 + 97 = 146097$ days, and consequently one year contains 365.2425 days or 365 *d.* 5 *h.* 49 *m.* 12 *s.* This exceeds the true solar year by 243648 seconds, which amount to a day in 3546 years; for as $243648 \text{ s.} : 1 \text{ year} :: 1 \text{ d.} : x$. It is perhaps unnecessary to make any formal provision against an error which can only happen after so long a period of time; but as 3546 differs little from 4000, it has been proposed to correct the Gregorian rule by making the year 4000 and all its multiples common years. With this correction the rule of intercalation is as follows:—Every year, the number of which is divisible by 4, is a leap year, excepting the last year of each century, which is a leap year only when the number of the century is divisible by 4; but 4000, and its multiples, 5000, 12000, 16000, &c., are common years. Thus the uniformity of the intercalation by continuing to depend on the number 4, is preserved; and by adopting the last correction the commencement would not vary more than a day from its present place in 31250 years. For as the Gregorian intercalation gives 97 days in 400 years, consequently in 4000 years 970 days would be intercalated; but one day is now omitted at the end of every 4000 years, therefore only 969 days are intercalated, consequently the civil year will be $365 \text{ d.} + \frac{969}{4000} = 365.24225 \text{ d.} = 365 \text{ d.} 5 \text{ h.} 48 \text{ m.} 50.4 \text{ s.}$; but this exceeds the mean solar year by 27648 seconds, and it would require 31250 years to make the beginning of the civil and tropical year be a day apart, for as $27648 \text{ s.} : 1 \text{ year} :: 1 \text{ d.} : x$.

From the year 1582 to 1700 the difference between the old and new style continued to be ten days; but 1700 being a leap year in the Julian calendar, and a common year in the Gregorian, the difference of the styles during the eighteenth century was 11 days. The year 1800 was also common in the new calendar, and consequently the difference in the present century is twelve days, and so will continue till the year 1900, and from 1900 to 2100 will be thirteen days, and at every centesimal year, which is not exactly divisible by 4, will be an increase of one day more, excepting 4000 and its multiples. In Great Britain the alteration from the old to the new style was for a long time successfully opposed by popular prejudice, but the inconvenience had been so generally felt in matters of history and chronology, that at length, in 1751, an Act of Parliament was passed for the adoption of the new style in the year following, in all public and legal transactions under the crown. The difference of the two styles, which then amounted to eleven days, was removed by ordering the day following the 2nd of September of the year 1752 to be accounted the 14th of that month, whereby that month consisted of only nineteen days; and in order to preserve uniformity in future, the Gregorian rule of intercalation respecting the secular years was adopted.

THE *SIDEREAL* OR *ASTRAL YEAR* is the time elapsed from the sun's quitting a particular fixed star to its return to the same fixed star again, and it exceeds the solar year by 20 *m.* 19.9561 *s.*, making the sidereal year 365 *d.* 6 *h.* 9 *m.* 7.5913 *s.*; this difference is called the precession or retrograde motion of the equinoxes, by which

TRINITY SUNDAY.—This is the Sunday following Whit Sunday: and on this day, the Christian Church more particularly calls to mind the doctrine of the Holy Trinity.

ADVENT SUNDAY;—commences the season set apart by the Church as preparatory to the festival of Christmas. On this season we are not only called upon to contemplate the inestimable blessings conferred on mankind by the coming of our Lord to “take away the sin of the world,” but also to prepare for that second coming, when He will appear to “judge the world in righteousness.”

CHRISTMAS DAY, OR THE FESTIVAL OF THE NATIVITY.—commemorates the birth of our blessed Saviour—God manifest in the flesh—“to whom be glory and majesty dominion and power, both now and ever. AMEN.”

Principal Native Festivals.

SINGHALESE.

- 1.—**AWURUDU-MANGALLE**, the feast of the New Year, April 11.
- 2.—The day of anointing the head with oil after the New Year. This day is fixed by the Astrologer, and is generally celebrated a few days after the New Year.
- 3.—Full moon day of the month *Wesak* (April—May) The ordination of Buddhist Priests at the Establishments of Kandy and other places generally takes place on this day; as well as pilgrimages to the Buddhist Temples at Kalany and other sacred places in the Island.
- 4.—**PERAHARRA**, or *the Procession*, formerly celebrated exclusively in honor of the Indian deities Natha, Vishnu, Kotagami, and Pattini; but incorporated with the worship of Budha in the year 1775. It is held in Kandy and sundry other places in Udunuwera, Yatinuwera, Harispattoo Udupalata, Hewahetta, Matale, Four Korles, Salfregam, Ouwah and Seven Korles; commencing usually from the New and lasting to the Full moon in the month of July.
- 5.—**KAARTKA-MANGALLE**, the *Festival of Lamps*, celebrated in honor of Maha-Bali, the great mythological hero of India, and consisting of a general illumination for one night. This is a Kandyan Festival, and is not observed in the Maritime Provinces.
- 6.—**ALOOTSAL MANGALLE**, the *Festival of New Rice*. This is also a Kandyan Festival, celebrated in the month of January.
- 7.—Pious Buddhists also regard the Full, New, and First and Last Quarters of the Moon as holidays, and in general devote them to religious and devotional purposes.

Weights and Measures.

1. MEASURE OF LENGTH.

12 Inches	=	1 Foot
3 Feet	=	1 Yard
5½ Yards	=	1 Rod or Pole
40 Poles	=	1 Furlong
8 Furlongs	=	1 Mile
69 1-9 Miles	=	1 Degree of a Great Circle of the Earth.

An inch is the smallest lineal measure to which a name is given, but subdivisions are used for many purposes. Among mechanics the inch is commonly divided into *eighths*. By the Officers of the revenue, and by scientific persons, it is divided into *tenths*, *hundredths*, &c. Formerly it was made to consist of 12 parts called *lines*.

Particular Measures of Length.

A Nail	=	2¼ Inches	} Used for measuring cloth of all kinds.
Quarter	=	4 Nails	
Yard	=	4 Quarters	
Ell	=	5 Quarters	
Palm	=	3 Inches	
Hand	=	4 Inches—Used for height of horses	
Span	=	9 Inches	
Cubit	=	1 Foot 6 Inches	
Military Pace	=	2 Feet 6 Inches	
Geometrical Pace	=	5 Feet	
Fathom	=	6 Feet—Used in measuring depths	
Link	=	7 Inches 92 hds.	} Used in Land Measure to facilitate computation of the content, 10 square chains being equal to an acre.
Chain	=	100 Links	
Mile	=	80 Chains	

2. MEASURE OF SURFACE.

	144 sq. Inches	=	1 sq. Foot
1296 sq. Inches	=	9 sq. Feet	= 1 sq. Yard
272¼ sq. Feet	=	30¼ sq. Yards	= 1 Perch or Rod.
4356 sq. Feet	=	16 Perches	= 1 sq. Chain
10890 sq. Feet	=	2½ sq. Chains	= 1 Rood
43560 sq. Feet	=	4 Roods	= 1 Acre
3097600 sq. Yards	=	640 Acres	= 1 Mile

Particular Superficial Measures.

Square of flooring, &c.	=	100 sq. Feet
Rod of Brick-work	=	272¼ sq. Feet
Load of Inch boards	=	600 sq. Feet
Yard of Land	=	3½ Acres
Slide of do.	=	100 Acres

In some places it is customary to allow 324 Sq. Feet to a Rod; sometimes a Rod=21 Feet long and 3 Feet high = 63 Sq. Feet.

3. NAUTICAL MEASURES.

6082.66 Feet	=	1 Nautical Mile
3 Miles	=	1 League
20 Leagues	=	1 Degree
360 Degrees	=	The circumference of the Earth.

A Degree of the Meridian in the latitude of England at the medium of 52° was found by Colonel Mudge in 1800, to equal 69.114 English Miles. A sea league is therefore 3.457 English miles in the same latitude.

4. MEASURES OF SOLIDITY AND CAPACITY.

DIVISION I.—SOLIDITY.

1728 Cubic Inches	=	1 Cubic Foot
27 Cubic Feet	=	1 Cubic Yard
10648000 Cubic Yards	=	1 Cubic Rod Pole or Perch
64000 Cubic Rods	=	1 Cubic Furlong
512 Cubic Furlongs	=	1 Cubic Mile

Particular Cubic Measures.

A Load of rough Timber	=	40	Cubic feet
Load of Squared Timber	=	60	do.
Ton of Shipping	=	40	do.
Barrel bulk	=	5	do.
Floor of earth	=	324	do.

A Cord of wood=8 ft. long 4 ft. broad. and 4 ft. deep, 128 cubic feet; a stack of wood 12 ft. long, 3 ft. broad, and 3 ft. deep=108 cubic feet; a solid yard of earth=1 load. A cubic foot of water weighs 1000 ounces avoirdupois, or 911 oz. 9 dwts. 4 grs., troy.

DIVISION II.—CAPACITY.

4 Gills = 1 Pint	=	34 $\frac{1}{2}$	—cub. ins., nearly.
2 Pints = 1 Quart	=	60 $\frac{1}{2}$	
4 Qts. = 1 Gallon	=	277 $\frac{1}{2}$	
2 Gall. = 1 Peck	=	554 $\frac{1}{2}$	
8 Gall. = 1 Bushel	=	2218 $\frac{1}{2}$	
8 Bush. = 1 Quarter	=	10 $\frac{1}{2}$	cub. feet nearly.
5 Qrs. = 1 Load	=	51 $\frac{1}{2}$	

The four last denominations are used for dry goods only. For liquids several denominations have been heretofore adopted, viz:—For Beer the Firkin of 9 Gallons, the Kilderkin of 18, the Barrel of 36, the Hogshead of 54, and the Butt of 108 Gallons. These will probably continue to be used in practice. For Wine, and Spirits, there are the Anker, 10, Runlet 18, Barrel, 21 $\frac{1}{2}$, Tierce 42, Hogshead 63, Puncheon, 84, Pipe or Butt, 126, and Tun, 252 Gallons; but these may be considered rather as the names of the casks in which such commodities are imported than as expressing any definite number of Gallons: a Pipe of Claret containing 126; Port 138; Sherry, 139; Lisbon, 140; Bucellas, 140; Madeira, 110; and Vidonia, 120 Gallons. It is the practice to gauge all such vessels and to charge them according to their actual contents.

Flour is sold nominally by measure, but actually by weight, reckoned at 7lbs. Avoirdupois to a Gallon.

A load of corn=5 bushels; a cart load of corn=40 bushels, and 7922 wheat or barley-corns are supposed to fill a pint measure.

5. MEASURE OF WEIGHT.

DIVISION I.—Avoirdupois Weight.

27 $\frac{1}{2}$ Grains	=	1 Dram	=	27 $\frac{1}{2}$ gr. Troy.
16 Drams	=	1 Ounce	=	437 $\frac{1}{2}$ --
16 Ounces	=	1 Pound (lb.)	=	7000
28 Pounds	=	1 Quarter (qr.)		
4 Quarters	=	1 Hundredweight (cwt.)		
20 Cwt.	=	1 Ton.		

This weight is used in almost all commercial transactions, and in the common dealings of life.

The particular weights belonging to this Division are as follows:—

7 Pounds	=	1 Clove	cwt. qr. lb.	
2 Cloves	=	1 Stone	=	0 0 14
2 Stones	=	1 Tod	=	0 1 0
6 $\frac{1}{2}$ Tods	=	1 Wey	=	1 2 14
2 Weys	=	1 Sack	=	3 1 0
12 Sacks	=	1 Last	=	39 0 0

Used in the Wool Trade.

Several sorts of Silk are weighed by the Great Pound of 24 oz.

Particular Weights.

A Firkin of Butter	=	56 lbs.
„ ——— Soap	=	64 „
„ Barrel of Raisins.	=	112 „
„ ——— Soap	=	256 „
Puncheon of Prunes	=	1120 „
Barrel of Anchovies	=	30 „
Fodder of Lead		
„ London and Hull	=	19 $\frac{1}{2}$ cwt.
„ Stockton	=	22 „
„ Bawtry	=	21 $\frac{1}{2}$ „
„ Chester	=	20 „
„ Derby	=	22 $\frac{1}{2}$ „
„ Newcastle	=	21 „

The cwt. of Lead at Hull and Chester	=	120	lbs.
Stone of Iron or shot	=	14	"
Butcher's meat in London	=	8	"
in Country	=	14	"
Clove of Butter or Cheese	=	8	"
Suffolk way, 32 Cloves	=	256	"
Essex way, 42 Cloves	=	336	"
Imperial Gallon of Train oil	=	9	"
Truss of Straw	=	36	"
New hay	=	60 to 64	"
Old hay	=	56	"
Load	=	36	trusses.

DIVISION II.—TROY WEIGHT.

24 Grains	=	1	Pennyweight	=	24	gr.
20 Pennywts.	=	1	Ounce	=	480	—
12 Ounces	=	1	Pound	=	5760	—

These are the denominations of Troy weight, when used for weighing gold, silver, and precious stones (except diamonds.)

For scientific purposes the grain only is used; and sets of weights are constructed in decimal progressions from 10,000 grains downwards to 1-100 of a grain.

By comparing the number of grains in the Avoirdupois and Troy pound and ounce respectively, it appears that the Troy pound is less than the Avoirdupois in the proportion of 14 to 17 nearly; but the Troy ounce is greater than the Avoirdupois, in the proportion of 72 to 79 nearly.

The *carat* used for weighing diamonds, is 3 1-6 grains. The term, however, when used to express the fineness of gold, has a relative meaning only. Every mass of alloyed gold is supposed to be divided into 24 equal parts; thus the standard for coin is 22 carats fine, that is, it consists of 22 parts of pure gold, and 2 parts of alloy. What is called the *new standard*, used for watch-cases, &c., is 18 carats fine.

DIVISION III.—APOTHECARIES WEIGHT.

20 Grains	=	1	Scruple	=	20	gr.
3 Scruples	=	1	Dram	=	60	—
8 Drams	=	1	Ounce	=	480	—
12 Ounces	=	1	Pound	=	5760	—

6. FLUID MEASURE, used by Apothecaries.

2 Drams Avoird.	=	60	Minims	}	=	54 11-16	grs. Troy
60 Minims	=	1	Fluid dram				
8 Drams	=	1	Ounce		=	437½	"
20 Ounces	=	1	Pint		=	8750	"
8 Pints	=	1	Gallon		=	70000	"

Irregular Measures.

A table spoonful, *cochlearium magnum*, of syrup, ½ oz.

_____ of distilled waters, 3½ dr. to ½ oz.

_____ of spirits and tinctures, 2 dr. to 3 dr.

A dessert-spoonful, *cochlearium medicere*, of water, 2 dr.

A tea-spoonful, *cochlearium parvum*, of syrup, 1 dr. to 2 dr.

_____ of distilled waters, 1½ sc. to 2 sc.

_____ of spirits and tinctures, 1 sc. to 1½ sc.

_____ of light powder, as magnesia, ½ sc. to 1 sc.

_____ of a heavy powder, as sulphur, 1½ sc. to 2 sc.

_____ of a metallic oxide, 1 dr. to 4 sc.

A thimble-full, *clipeola metallicæ protigiti*, is usually the same as a tea-spoonful.

A tea-cup, *vasculum pro thea*, 3 oz. to 4 oz.

A wine-glass, *scyphus pro vino*, *cyathus*, 1½ oz.

7. ANGULAR MEASURE;

OR, DIVISIONS OF THE CIRCLE.

60 Seconds	= 1 Minute	= 4 Seconds of Diurnal motion of the Earth reduced to time.
60 Minutes	= 1 Degree	= 4 Minutes
15 Degrees	= $\frac{1}{4}$ Sign of the Zodiac	= 1 Hour
30 Degrees	= 1 Sign	= 2 Hours
90 Degrees	= 1 Quadrant	= 6 Hours
360 Degrees, or 12 Signs	= 1 Circumference	= 24 Hours.

Formerly, the subdivisions were carried on by sixties; thus the second was divided into 60 thirds, the third into 60 fourths, &c. At present the second is more generally divided decimally into 10ths, 100ths, &c. The degree is frequently so divided.

The Zodiac is an imaginary belt encompassing the heavens, divided into 12 equal parts of 30 degrees each, called the Signs of the Zodiac. It extends about eight degrees on each side of the Ecliptic, and within it all the motions of the Planets are performed, except those of the new discovered asteroids, Ceres, Pallas, &c.

8. MEASURE OF TIME.

60 Seconds	= 1 Minute
60 Minutes	= 1 Hour
24 Hours	= 1 Day
7 Days	= 1 Week
28 Days	= 1 Lunar Month
28, 29, 30, or 31 Days	= 1 Calendar Month
12 Calendar Months	= 1 Year
365 Days	= 1 Common year
365 $\frac{1}{4}$ Days	= 1 Julian Year
366 Days	= 1 Leap year

In 400 Years, 97 are Leap years, and 303 Common.

The same remark as in the case of Angular Measure applies to the mode of subdividing the Second of time.

THE NATIVE DRY MEASURE.

Cut Chundoos.

4	= 1 Cut Measure or Seer

8 = 1 Coornic.

80 = 10 = 1 Peyla.

320 = 40 = 4 = 1 Ammonani.

Among the Natives the extent of Land is defined by the quantity of Seed required to sow it, computed at the Ammonani Measure, and its sub-divisions. In fertile Lands the Seed is not strowed half so thickly as in poor soil; an Ammonani of good ground therefore will sometimes measure twice as many square feet as an Ammonani of poor soil.

BRITISH INDIA.—GOVERNMENT WEIGHTS AND MEASURES.

1 tola = 180 Troy grains; 80 tolas = 1 seer, $2\frac{1}{2}$ lbs. troy; 40 seers = 1 maund = 83 2-15th lbs. avoird. (or 100 lbs. troy.) Grain is usually sold by weight throughout India.

Calcutta.—The guz = 1 imp. yard; The Bengal common coss or mile = 2060 yards; $30\frac{1}{2}$ biggan = 10 imp. acres; the factory maund of 40 seers = $74\frac{1}{2}$ lbs. avoird. the bazaar maund = 82 2-15th lbs. avoirdupois.

Madras.—The coid in cloth measure = 18 3-5ths inches; but the English yard of 36 inches is generally used; the cawny in land measure = 57,600 square feet, or about 1 acre, 11 roods and $1\frac{1}{2}$ poles; the garze of 80 parabs or 400 marcais in corn or dry measure = about $16\frac{1}{2}$ imp. quarters or by weight 9256½ lbs. avoird.; 20 ollocks = 1 English Gallon; the maund of 8 vis, in measures of weight = 25 lbs. avoird.; the candy = 20 maunds or 500 lbs. avoirdupois.

In Calcutta, Madras, and Bombay, accounts are kept in rupees, annas and pice, thus 12 pice = 1 anna; 16 annas = 1 rupee; $3\frac{1}{2}$ rupees exchange in account for 1 pagoda. In Ceylon accounts are kept in English currency; English weights are in use here, and the long and land measures are the same as in England; the coid is $18\frac{1}{2}$ English inches.

Bombay.—The guz. = 27 inches; the maund of 40 seers = 28 lbs. avoird.; the candy of 20 maunds, each of 40 seers = 5 cwt., reckoned for grain at $24\frac{1}{2}$ imp. bushels; the Surat candy of 20 maunds = $740\frac{1}{2}$ avoirdupois.

China.—Measures of Weight.... 100 catties = 1 pecul = 133½ lbs. avoird.; 16 peculs and 80 chatties = 1 ton; 3 peculs = 400 lbs. avoird.; $\frac{2}{3}$ catty = 1 lb.; 3 catties = 4 lbs. 84 catties = 1 cwt.; 12 taels = 1 lb. avoird. Cloth Measure.... 32 coids = 13 imp. yards. Itinerary Measure.... Li, 180 fathoms = 632 yards; 200 lis = 1 degree.

The Chinese have four different measures answering to the foot; viz.,—

The foot of the mathematical tribunal, English inches.	..	..	13.125
The builder's foot, called konghee	..	..	12.7
The tailor's and tradesman's foot	..	..	13.33
The foot used by engineers	..	..	12.66

United States.—Same as Britain, with former English measures of capacity: a barrel of flour weighs 196 lbs. nett; a barrel of pickled beef or pork 200 lbs.

VARIATIONS OF TEMPERATURE CORRESPONDING TO ALTITUDE.

As we ascend, the air becomes thin or rare, and as it becomes rare it also grows cold. No fact is better established than this, though, the rate of this cooling of the air as we ascend in it does not appear to be uniform, but to vary in different countries and even in the same country at different seasons. Were we to go by local data we might calculate it thus. The annual temperature of Colombo is probably about $80^{\circ} 5$; that of Kandy is about $74^{\circ} 5$; and that of Nuwera Ellia at an elevation of 6,210 ft. is about 59° ; giving a fall of one degree for every 280 ft. in the former case, and for every 235 ft. in the latter; results which accord very well with observations made elsewhere, and particularly with those which may be deduced from the other sanatoria of India.

ELEVATION above the Level of the Sea of the following Stations in the Island of Ceylon, determined from simultaneous Observations with the Mountain Barometer.

*General Rules framed by the Board of Health and in force in the Western Province. **

SMALL POX CHOLERA, &c.

1. The Police shall make known to the Superintendent of Vaccination, with the least possible delay, the occurrence of any case of Small Pox or any other Epidemic or contagious disease. In the Rural districts such information shall be afforded by the Native Headmen.

2. The Medical Officer appointed to inspect such cases shall, in every instance of Small Pox, give information thereof to the Superintendent of Police, who shall forthwith affix to the door of the house in which the case is found, such mark as shall sufficiently denote the existence of the disease therein.

3. Before such mark shall be removed, the Superintendent of Police shall communicate to the appointed Medical Officer the result of such case or cases of Small Pox, whether in death or in recovery. In either case he will receive instructions from the Medical Officer as to the safety of removing the mark from the house or permitting persons who have been affected to go abroad.

4. The Superintendent of Police shall remove to the Small Pox Hospital established at Maradahn or elsewhere, any case of Small Pox in which he may be required so to do by the owner or occupier of a house or the head of a family, under the conditions of the 8th section of the Ordinance No. 10 of 1852, also all destitute persons affected with the disease, also all persons who may be found in the public streets or thoroughfares with the Small Pox disease upon them.

* Similar Rules are also in force in the other Provinces.

5. In the execution of these duties the subordinate Officers of the Police are enjoined to use all possible tenderness and consideration for the sufferers, and for the religious or other feelings of their relations.

6. The Superintendent of Vaccination shall furnish to the Board of Health such periodical Returns and Reports as shall seem advisable. These will in their principal features correspond with those which the Superintendent of Vaccination has to furnish the Head of the Medical Department.

7. In the event of Cholera becoming epidemic, the Board of Health will communicate to Government such measures as may seem likely to arrest the progress of the disease.

8. The Board of Health will exercise supervision over the Hospitals for Small Pox at Marandahn, or in any other place where it may be deemed requisite to form a similar Establishment. The discipline and economy of such Hospitals shall rest as heretofore with the Principal Civil Medical Officer.

9. The financial arrangements of expenses incurred by Vaccinators shall continue as heretofore to be made by the Principal Civil Medical Officer.

VACCINATION.

1. The Board shall solicit from Government such aid from the Medical Sub-Assistants, to be appointed for the duty by the Principal Civil Medical Officer, under the sanction of Government, and of Native Vaccinators, as may be judged necessary.

2. No person shall be employed in a public capacity, who cannot produce satisfactory evidence of having undergone Vaccination or small Pox. The Proprietors of Estates and Manufactories, Heads of Families, and of Mercantile Establishments, are urged to adopt a similar precaution.

3. All Government Schoolmasters shall ascertain, previous to the admission of any child to their Schools, that the like evidence exists. The same rule is recommended to private Schoolmasters and all others who have the charge of children.

4. The Superintendents of Jails and Hospitals shall ensure the security of the inmates by the practice of Vaccination, in all cases wherein the Medical Officers may deem necessary.

5. The Board, under the authority of Government, shall issue notifications setting forth the advantages of Vaccination, the dangers resulting from its neglect, and the penalties attached to disobedience of the law. They shall call for the support and aid of all Christian Ministers and Catechists, of Moorish and Buddhist Priests, and of European and Native Practitioners. The vigilance and aid of the Native Headmen shall be secured by authority from Government.

RULES FOR THE GUIDANCE OF OFFICERS.

Superintendent of Vaccination and his Duties.—The Superintendent of Vaccination shall generally superintend the labours of the different Vaccinators. He shall, from time to time, during his inspection, satisfy himself that only genuine Lymph is employed by them, and that they perform the operation of Vaccination in a correct and satisfactory manner. He shall take care that the proper returns are forwarded at the periods specified. He shall furnish annually to the Board a detailed Report of the progress of Vaccination in the Western Province.

Medical Sub-Assistants.—The Medical Sub-Assistants engaged in Vaccination duties shall make a Monthly Report to the Superintendent of Vaccination, specifying the number of persons vaccinated by the different Vaccinators employed under them, whose Vaccination they, the Medical Sub-Assistants, have personally inspected. The quality of the Lymph employed in their districts, whether it has suffered deterioration from any cause; and the nature and extent of assistance rendered by the Civil Authorities, particularly the rural Headmen. If they have any communication to make calculated to further the cause of Vaccination, or with reference to the activity and efficiency of the Native Vaccinators, it should be embodied in such Reports.

The Medical Sub-Assistants shall vaccinate twice in the week, other Civil duties permitting. Their Vaccination should not extend to the remote stations, but once a month they should visit all the stations of the Native Vaccinators under them, in order that they may be enabled to make the report above mentioned to the Superintendent of Vaccination. They shall forward to the Superintendent of Vaccination, a weekly numerical return of Vaccination performed by themselves and the Native Vaccinators in their districts, and also a monthly nominal return. All weekly returns should be forwarded to the Superintendent of Vaccination on Mondays, and all Monthly returns should be despatched so as to reach the Superintendent by the 10th of the month.

Native Vaccinators.—Native Vaccinators shall make themselves practically acquainted with the different matters connected with Vaccination, by embracing all opportunities for instruction and improvement. The Medical Sub Assistants under whose direction they are employed, shall report periodically upon their general usefulness, diligence and activity, to the Superintendent of Vaccination. They shall vaccinate four days in each week. They shall forward to the Medical Sub-Assistant of their district, or to the Superintendent of Vaccination, where no Medical Sub-Assistant is employed on such duties, a weekly numerical return in the same form as that prescribed for the Medical Sub-Assistants. They shall have one or more Vaccine stations in a village, according to its extent, and shall use their best exertions to promote efficient Vaccination by uniform kindness of manner, by great care in the performance of their duties, and by exhorting the patients to protect the vesicles throughout all stages, so that crusts may be properly formed. At the end of the month the Native Vaccinators shall furnish the Medical Sub-Assistant or Superintendent of Vaccination with a nominal return of Vaccination, in the same form as that prescribed for the Medical Sub-Assistant.

RULES FOR VACCINATING.

1st.—All persons who have not been satisfactorily vaccinated or had the Small Pox are liable to the most severe form of that disease. The protection of all such persons by efficient Vaccination is the object now earnestly desired.

2nd.—If a healthy child be properly vaccinated, by puncture at 8 o'clock on Monday, at the same hour on the following Monday the vesicles will be of a circular form and pearly appearance, well raised from the surface, with a flat top, not a pointed one, and with very little surrounding inflammation. *Such a child, although liable to Small Pox before, is now safe; and such a case should be invariably chosen from which to vaccinate others.*

3rd.—Four small punctures should be made, care being taken that the lymph is inserted under the thin skin.

4th.—The patients and their friends must be urged not to allow the vesicles to be rubbed at any time, so that they may dry and fall off of themselves.

5th.—Punctuality of attendance is essential, to avoid disappointment to patients, and to enable you to judge of the success of your efforts.

6th.—Efficient Vaccination leaves on the arm a distinct though superficial scar, which looks as if pins had been stuck into it. If there are not at least three such marks, or if seven years have passed since the last Vaccination, the person should be re-vaccinated.

Minutes on Pensions.

MINUTE

FOR THE CIVIL SERVICE.

1. Upon instructions from the Right Hon'ble the Secretary of State, His Excellency the Governor is pleased to direct that the following Rules by which it is proposed that the Civil Service of this Colony shall in future be regulated in respect to Classification, Salaries and Pensions, be published for general information.

2. The Service will be divided into two Branches, to be termed the Senior Branch and the Junior Branch, and the latter will consist of five Classes.

3. A list of the Offices comprised in the several Branches and Classes, and of the salaries attached to them is annexed to this Minute.

4. These Salaries will commence from the 1st July 1845, from which date also will be computed the service entitling the newly added Officers to the periodical increase of Salary incident to their respective Classes.

5. The Pensions of the Civil Servants appointed prior to 1832 will be regulated by the rules hitherto in force, which will remain unaltered.

6. A Civil Servant appointed subsequently to 1832 will be entitled to pension at the following rates and under the restrictions founded upon the Provisions of the Act 4 & 5 William 4. Cap. 21, hereinafter specified.

For 15 years' service and less than 20, a Pension equal to four-twelfths of the Salary of his Office.

For 20 years and less than 25, five-twelfths.

For 25 years and less than 30, six-twelfths.

For 30 years and less than 35, seven-twelfths.

For 35 years and upwards, eight-twelfths.

* These rates are to be the maximum rates in respect of each period of Service, and may be subject to diminution.

7. No Pension will be granted without the authority of Her Majesty's Government, in order to obtain which Certificates of Service, Age, Good Conduct and of the ground of retirement must be submitted to the Secretary of State.

8. No pension will be granted to any Civil Servant who shall be under fifty-five years of age, unless upon Certificate from the Head of the Department to which he may belong, and from two Medical Practitioners, that he is incapable from infirmity of mind or body to discharge the duties of his situation; nor unless he shall have discharged those Duties with diligence and fidelity to the satisfaction of the Head of his Department. And in case the Civil Servant claiming such pension shall be himself the Head of a Department, then such pension shall not be granted unless he shall have discharged the duties of his situation with diligence and fidelity to the satisfaction of the Governor, by whom the same shall be certified to the Secretary of State.

9. The Pension shall be computed upon the amount of the Salary enjoyed by a Civil Servant at the time of his retirement, provided he shall have been in the receipt of the same or in the same Branch and Class for at least three years; otherwise the Pension shall be calculated upon the average amount of Salary received by such person for three years next preceding the commencement of such Pension.

10. It will be competent to Her Majesty's Government, in cases of peculiar and extraordinary merit, to grant special and higher rates of Pensions than those laid down in the preceding Regulations.

11. No Civil Servant will be held to have an absolute right to compensation for past Services or to any Pension under this Minute, and Her Majesty's Government will retain their power and authority to dismiss any Civil Servant from the Service without compensation.

12. (*Respecting Abatement from Salary, abrogated by Minute of March 10th, 1859.*)

13. The claim of a Civil Servant to Pension will be considered to have commenced from his first permanent appointment to any of the Offices in the List annexed to this Minute.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 3d July 1845.

P. E. WOODHOUSE,
Act. Col. Secy.

MINUTE

FOR THE CLERGY AND TEACHERS.

HIS EXCELLENCY THE GOVERNOR is pleased to announce that the Right Hon'ble the Secretary of State has authorized the benefits of the Pension Scheme for the Civil Service of this Colony, laid down in the Minute of 3d July 1845, to be extended to all the Clergy and Ministers of the Christian Religion in Ceylon receiving stipends from the Public Treasury, and to the Masters of the Superior Schools; with the following modification however, in regard to the period at which the claim to Pension should commence.

By the Minute above referred to, the Pension scale in the case of the Civil Servants is fixed to begin at 15 years' service. But as the considerations which led to that regulation do not apply to Clergymen and Schoolmasters, who must necessarily be of mature age before they are appointed, and would enter, immediately on their arrival in the Colony, on the efficient discharge of their respective duties, Her Majesty's Government has decided, that any Clergyman or Schoolmaster who may be compelled to retire after Ten years' service, but under Fifteen, shall be entitled, under the same conditions as are laid down for the Civil Service Pensions, to a Pension not exceeding three-twelfths of his Salary.—After 15 years' service, they will follow in all respects the rules laid down in regard to Pensions to the Civil Service.

His Excellency has further to announce that the following Schoolmasters come within the scope of the regulation hereby established.

Principal of the Colombo Academy.

Mathematical Teacher of do.

Classical Teacher of do.

Teacher of Drawing and Design of do.

Head Master of the Model School of do.

Rector of the Native Normal Seminary.

Head Master of the Central School of Colombo.

Head Master of the Central and Normal Schools of Galle.

Head Master of the Central and Normal Schools of Kandy.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 28th August 1846.

J. E. TENNENT,
Col. Secy.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR desires to correct an omission in the above Minute of the 28th August, by inserting in the List of those entitled to Pension the Officer holding the appointment of Inspector of Schools.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 19th September 1846.

J. E. TENNENT,
Col. Secy.

PART II.

P

MINUTE

FOR THE JUDGES OF THE SUPREME COURT.

HIS EXCELLENCY THE GOVERNOR is pleased to announce, that the Right Hon'ble the Secretary of State has authorised the establishment of a Scheme of Pensions for the Judges of the Supreme Court of this Island, under the following regulations.

A Judge who is unable, after 15 years' service as such, to continue efficiently to discharge the duties of his Office, will be entitled to a pension not exceeding one-half of his Salary; such pension will not however be increased in consequence of prolonged service beyond fifteen years.

In the event of a Judge being compelled by ill health to retire after a service of 7 years, but less than 15 years, he will be permitted, on producing a Medical Certificate of incapacity to continue in the discharge of his duties, to retire on a pension not exceeding one-fourth of his Salary.

To a Judge who should retire before completing 7 years' service no Pension will be granted.

No Judge will be held to have an absolute right to compensation for past services, or to a Pension under this Minute: and no Pension will be granted without the authority of Her Majesty's Government; in order to obtain which, Certificates of service, age, and the grounds of retirement will be submitted to the Secretary of State.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 5th December 1846.

J. E. TENNENT,
Col. Secy.

MINUTE

FOR THE GOVERNMENT CLERKS.

1. HIS EXCELLENCY THE GOVERNOR is pleased to direct the publication, for general information, of the following Rules, by which it is proposed that the pensions of all persons employed, or who may hereafter be employed on the Fixed Establishment and Provisional Establishment sanctioned by Her Majesty's Government, of the several Offices and Departments specified in the List annexed to this Minute, and not within the exceptions thereof, and not receiving a Salary less than £25 per annum, shall hereafter be regulated.

2. Every person so borne on the Fixed and Provisional Establishments as aforesaid, will be entitled to Pension at the following rates, and under the restrictions founded upon the provisions of the Act 4 and 5 Wm. 4, Cap. 21. hereinafter specified:

For 15 years' service and less than 20, a pension equal to four-twelfths of the Salary of his office.

For 20 years and less than 25—five-twelfths.

For 25 years and less than 30—six-twelfths.

For 30 years and less than 35—seven-twelfths.

For 35 years and upwards—eight-twelfths.

These rates are to be the maximum rates in respect of each period of service, and may be subject to diminution.

3. No Pension will be granted without the authority of Her Majesty's Government, in order to obtain which Certificates of service, age, good conduct, and of the ground of retirement must be submitted to the Secretary of State.

4. No Pension will be granted to any Person who shall be under fifty-five years of age, unless upon Certificate from the Head of the Department to which

he may belong, and from two Medical Practitioners, that he is incapable from infirmity of mind or body to discharge the duties of his situation; nor unless he shall have discharged those Duties with diligence and fidelity to the satisfaction of the Head of his Department.

5. The pension shall be computed upon the amount of salary enjoyed at the time of retirement, provided the claimant shall have been in the receipt of the same for at least three years; otherwise the pension shall be calculated upon the average amount of Salary received for three years next preceding the commencement of such Pension.

6. It will be competent to Her Majesty's Government, in cases of peculiar and extraordinary merit, to grant special and higher rates of Pension than those laid down in the preceding regulations.

7. No claimant for a pension will be held to have an absolute right to compensation for past services, or to any Pension under this Minute; and His Excellency the Governor will retain his power and authority to dismiss any Clerk or other Public Servant from the Service without compensation.

(8 and 9 abrogated by Minute of 10th March, 1859.)

10. The claim of a Public Servant to pension will be considered to have commenced from the period of his first permanent appointment on the Fixed Establishment, or Provisional Establishment sanctioned by Her Majesty's Government, comprised in the Schedule annexed to this Minute.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 30th January 1847.

By His Excellency's Command.

Colonial Secretary's Office,
Colombo, 31st July 1848.

J. EMERSON TENNENT,
Col. Secretary.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR having received instructions from the Right Hon'ble the Secretary of State, modifying in certain respects the rules under which Pensions to Public Officers of this Colony are now regulated, under the Minutes of the 3d July 1845, 28th August and 5th December 1846, and 30th January 1847, has directed that the same be published for general information.

1. In assigning superannuation or retiring allowances according to the scales specified in the above Minutes, the increased rates of allowance authorised by those scales after periods of five years' service shall not take effect immediately after the completion of each period; but the authorised rate shall be apportioned according as the service might exceed such completion and approach the next period of increase. Thus, for example, upon a Salary of £120 per annum the maximum allowance authorised by the Minutes after a service of twenty and not exceeding twenty-five years being 5-12ths or £50, the increase of £10 shall be distributed by annual apportionments between the twentieth and twenty-fifth years of service as follows:

Service	20 years	Allowance	£42
"	21 "	"	44
"	22 "	"	46
"	23 "	"	48
"	24 "	"	50

and in like manner the Minutes authorising the allowance of 6-12ths or £60 for service from twenty-five to thirty years, the apportionment shall be

For	25 years	£52
	26 "	54
	27 "	56
	28 "	58
	29 "	60

and in the same ratio with reference to longer or shorter service.

2. Should the term of service not warrant the assignment of an annual allowance, a gratuity may be granted after the rate of one month's salary for each year of service.

3. The apportioned rates above-mentioned, giving the maximum allowance for the last year of each period to which the scales of the Minutes are adapted, are however only to be granted in cases of decidedly faithful and meritorious service; but where the testimony as to fidelity, diligence and merit, is in any respect defective, a deduction will be made from the apportioned rate, either of one-fifth or of greater or less amount; or the grant of allowance will be altogether withheld, where there has been obvious negligence, irregularity or misconduct.

4. But in cases of special merit, it will remain open to Her Majesty's Government to award the maximum allowance warranted by the scales of the Minutes to the shortest terms of service, or to give such extraordinary recompense as they may deem expedient.

5. The services in respect of which superannuations are granted, ought in all cases to have been continuous, unless interrupted by reduction of office, or other temporary suspension of employment, not arising from misconduct, or voluntary resignation of the party.

6. In case of suspension of employment on reduction or abolition of office, temporary allowances may be assigned according to the above rules; on condition however that the parties receiving the same will be liable to be recalled into service, and with the understanding that they are to be re-employed as opportunity may offer, in preference to new applicants for office.

Colonial Secretary's Office,
Colombo, 12 th September, 1849.

By His Excellency's Command,
J. EMERSON TENNENT,
Col. Secretary.

MINUTE

BY THE GOVERNOR.

UNDER Instructions from the Right Hon'ble the Secretary of State, His Excellency the Governor is pleased to notify, that the Second section of the Minute of the 15th October, 1838, relative to the remuneration to be granted to an Officer appointed to perform the duties of an absent Officer in addition to his own, is to be considered as superseded for the future, by the following Rule laid down in the Book of Regulations for Her Majesty's Colonial Service:—

"If an office be vacated in any Colony, by the death or removal of the holder, or by his temporary absence, the person appointed by the Governor to act in his stead, if holding an inferior situation, may receive half the salary attached to the higher office, together with half the salary of his own office.

"Should the person so appointed by the Governor to a vacant office, be required at the same time to perform the duties of his own office, he may be allowed half the salary of the temporary office, together with the salary of his own office."

Colonial Secretary's Office,
Colombo, August 3rd, 1855.

By His Excellency's Command,
C. J. MACCARTHY,
Col. Secy.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR is pleased to notify, that in the case of all Acting Appointments in the lower grades of the Civil Service, which may not be held by Writers on the Establishment,—whose case is specially provided for by the Minute of the 3rd March, 1853,—the Officer holding such Acting Appointment will be permitted to draw, in addition to the half salary of the office in which he may be acting, a Contingent Allowance, to make up his salary to £300 per annum.

Colonial Secretary's Office,
Colombo, July 24th, 1858.

By His Excellency's Command,
C. J. MACCARTHY,
Col. Secy.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR has great pleasure in announcing to the Civil Servants, and other Public Officers, of Ceylon, that Her Majesty's Government has been pleased, in compliance with an application to that effect made by some of the principal Servants of the Crown in this Island, supported by the recommendation of His Excellency, to extend to the Public Officers of this Colony, the boon which has been conferred upon the Civil Servants of the Crown in England, of exempting them from the deductions heretofore made from their salaries, on account of their Superannuation Allowances.

Her Majesty's Government having fixed the commencement of the present year as the date from which the exemption from the deductions should begin, the Treasurer will refund to the several Public Departments, the abatements made from the salaries of all Officers for the Months of January and February last; and no deductions whatever shall, in future, be made on account of Superannuation Allowances.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, March 10th, 1859.

W. C. GINSON,
Actg. Col. Secy.

Examinations in Native Languages.

MINUTE

BY THE GOVERNOR.

I HAVE had under my consideration the mode of examining parties desiring to pass an Examination in the Native Languages.

2. It appears to me, that some fixed Rules should be established, defining the nature of the Examination required to be undergone. I therefore propose the following.

3. The Student should be required to translate from two or three of the following works:

In Singhalese.—The Bala Prabhodena.

Histories published by the School Commission.

The Singhalese Regulations of Government.

The Dampiyawa—translated from the Pali.

The Pansiye Panas Jateka.

The Tupawansa.

The Rajawallea.

In Tamil.—The Necthe Venpa.

The Kural.

The Thesavalame or Country Law of Jaffna.

Simon Casie Chitty's Tamil Version of Turnour's Epitome of the History of Ceylon.

The Calladakani.

The Government Ordinances.

The Kambaramayanum.

The Barathum.

4. Translations should also be made from written Olas given by the examiners, also translations of some Cutcherry Papers, of some Leases, Mortgage or other Legal Documents, being usual in the Proceedings of Courts of Justice.

5. All Translations should be fairly written, sealed and sent to the Colonial Secretary.

6. The Student should then be required to translate a Fable from English into Singhalese or Tamil, as the case may be, and to translate part of an Ordinance.

7. The Student should be able to write the Native character well and with fluency.

8. He should be able to write Letters and Orders in the Native language on Judicial and Revenue matters.

9. The Student should be able to read with ease original communications from Headman and Government Officers, on all Revenue matters, and on all Judicial Reports. Selections from each should be made for this purpose by the examiners.

10. The Student should shew a knowledge of the Grammar of the Language, and be able to parse in it.

11. The Student should be able to converse perfectly and fluently in the Language in which he is examined.

12. I further propose that the Examination should take place half-yearly in the middle of January and the middle of July.

13. That a Board of Examiners should be appointed, consisting of two European Gentlemen, one an Officer of Government, two Native Gentlemen, and a President to be named by the Governor.

The Board should declare whether they consider the Student qualified for the Public Service, and give the character of the Examination passed.

Pavilion, Kandy, May 27th, 1852.

G. W. ANDERSON.

MINUTE

BY THE GOVERNOR.

ON the recommendation of the Board of Examiners, His Excellency the Governor is pleased to sanction the following modifications of the Rules laid down in the Minute of the 27th May, 1852, for the Examination of Candidates in the Native Languages.

There will in future be two Examinations: the first to qualify the successful Candidates for holding a first appointment in the Public Service; the second to qualify him for promotion.

At the first Examination, the Candidates will be required to speak with fluency the colloquial language, to read and explain the printed books published by the School Commission, to read and write such documents as are received into, and issued from Cutcheries, and to understand such Notarial or other Deeds as are commonly produced in Evidence in Courts of Justice.

The reading of the Classical books, a knowledge of Grammar, and Translating from English Authors into Singhalese or Tamil, and of Government Ordinances, whether from English into the Native Languages, or *vice versa*, will form the subjects of a second Examination; which will not be held until twelve months after the first.

By His Excellency's Command,

C. J. MACCARTHY,
Col. Secy.

Colonial Secretary's Office,
Colombo, August 15th, 1853.

MINUTE

BY THE GOVERNOR.

1. UNDER Instructions from the Right Hon'ble the Secretary of State, His Excellency the Governor is pleased to notify, that Writers on the Civil Establishment of this Colony will in future date the commencement of their Civil Service, from the period at which they may obtain the Certificate required by the 19th clause of the Minute of the 14th February, 1845, as to their general attainments and proficiency in the Native Languages, and as to their competency to fill an appointment in the Service.

2. From the same period also they will date the commencement of their claim to Pension.

3. The practice at present in force of Writers paying their contributions to the Pension Fund from the date of their appointment as Writers is to be discontinued; and such contribution will in future commence from the date of their obtaining the Certificate referred to in the first clause of this Minute.

4. The Secretary of State has been pleased to direct the adoption of the above Rules respecting the commencement of the Civil Service of Writers, and of their consequent claim on the Pension Fund, in the hope that it will act beneficially in encouraging young gentlemen nominated to Writerships, in more speedily acquiring the knowledge necessary to qualify them for the duties they may be called upon to perform.

By His Excellency's Command,

C. J. MACCARTHY,
Col. Secy.

Colonial Secretary's Office,
Colombo, 30th July, 1853.

Travelling Allowances.

MINUTE

BY THE GOVERNOR.

1. In consequence of representations, made from time to time, by Heads of Departments and others, of the inadequacy of the present rates of allowances to Officers, travelling on Public duty, His Excellency the Governor is pleased to direct, that the Scale hereunto annexed, which has been recommended by a Committee appointed to investigate and report upon the subject, be adopted from the 1st instant, in lieu of those laid down in any former Minutes, in regard to travelling allowances, which are hereby cancelled.

2. It is to be understood, however, as a general rule, that Public Officers, who receive a monthly allowance for the keep of a horse, or horses, will not, in future, be deemed entitled to mileage, or travelling charges for journeys not exceeding 15 miles from their place of residence, where the keep of one horse is allowed; or 30 miles where the keep of two horses is allowed.

3. It must be understood also, that, in admitting travelling allowances, it will not in all cases, be deemed necessary to sanction a daily charge, for every day the applicant may be absent from his usual station, or place of residence.

4. In cases where any Officer, included in Classes I., II., and III., is detained from home, for more than one day, although the distance travelled falls short of 10 miles, it may be made a matter of reference to Government, whether the daily allowance should be drawn; but it will be incumbent on the party to shew, that such protracted absence was required for the interests of the Public Service.

5. Full explanation must also be furnished in case of an Officer's lengthened residence, at any station, during a tour on duty.

6. Officers will, in applying for the payment of their travelling allowances, furnish a brief statement of the object of the journey.

7. Assistants, and subordinate Officers having occasion to travel on Public duty, will, when practicable, previously communicate with the Head of the Department: and the Governor trusts to the discretion of Heads of Departments, in giving their sanction to charges of this nature, which may be submitted for their approval.

8. Officers travelling on public duty between Colombo and Kandy, and Colombo and Galle, (with the exception of the Judges and Officers of the Supreme Court, and the Law Officers of the Crown, when travelling on Circuit,) will be allowed, as heretofore, the cost of a seat in the Mail Coach, to and from those places, in addition to the rates of allowances, specified in the Scale hereunto annexed.

9. When an Officer is removed from one station to another, by order of Government, it will be competent for him to apply for an allowance to cover the reasonable expenses, to which he may be put in the removal, and it will be discretionary with the Governor to grant an allowance, in the shape of Mileage, which shall in no case exceed Five shillings a mile.

By His Excellency's Command,

Colonial Secretary's Office,
Kandy, 21st June, 1858.

C. J. MACCARTHY,
Colonial Secretary.

Scale of Daily Allowances to be paid to Public Functionaries travelling on Public duty.

CLASS I.—The Colonial Secretary.—£2 5s. per diem, when travelling ten miles from his residence.

CLASS II.—The Queen's Advocate (when not on circuit); the Treasurer; the Auditor General; Government Agents; Surveyor General; Civil Engineer and Commissioner of Roads; Principal Civil Medical Officer; Principal Collector of Customs; Deputy Collector of Customs at Colombo; Principal Assistant Colonial Secretary.—£1. 10s. per diem, when travelling 10 miles from their respective residences.

CLASS III.—District Judges; Postmaster General; Assistant Government Agents; Assistants to Civil Engineer and Commissioner of Roads; Assistants to Surveyor General; Superintendent, Botanic Garden; Inspector of Schools; Collector of Customs at Galle.—£1 per diem, when travelling ten miles from their respective residences.

CLASS IV.—Police Magistrates; Justices of the Peace; Coroners and Deputy Coroners, being Justices of the Peace; Superintendents of Vaccination; Assistant Collectors of Customs; Singhaliese and Malabar Interpreters to the Governor.—15s. per diem, when travelling five miles from their respective residences.

CLASS V.—(Drawing Salaries and Allowances of not less than £30. per annum) Sub-Collectors of Customs; Secretaries of District Courts; Clerks, Interpreters and Translators of Public Offices; Store-keepers, Accountants, &c.; Modliars, Mohandirams, and Principal Headmen; Shroffs and Assistant Shroffs; Draftsmen; Assistants and Inspectors of the Police Department.—8s. per diem, when travelling two miles from their residences.

No Native Headman will be entitled to this Allowance, when travelling within his own Division.

CLASS VI.—(Drawing Salaries and Allowances exceeding £12., and less than £30. a year) Clerks; Translators; Mohandirams, and Native Headmen; Native Writers; Assistant Shroffs and Conicopies.—3s. per diem.

No Native Headman will be entitled to this Allowance, when travelling within his own Division.

CLASS VII.—(Drawing Salaries exceeding £9., and less than £12. per annum.) Head Messengers; Money Counters; Police Serjeants; Subordinate Headmen.—8s. per diem.

This Allowance will not be paid to any subordinate Headman, when travelling within his own Division.

CLASS VIII.—Tide-Waiters; Peons; Process Servers; Messengers; Police Constables.—In the Central Province, 1s.; in the other Provinces, 9d. per diem.

Special Allowances.

Superintendents of Police, when travelling 5 miles from their residences—a shilling a mile, going and returning.

Medical Sub-Assistants, Deputy Coroners, (not being Justices of the Peace,) and Surveyors not paid by the work, when proceeding 4 miles from their residences—Nine pence a mile, going and returning.

Vaccinators, ditto—Six pence a mile, going and returning.

Fiscals, Deputy Fiscals, and the Private Secretary to the Governor, to be reimbursed the actual expenses incurred by them.

Officers travelling on public duty between Colombo and Kandy, and between Colombo and Galle, will be allowed the cost of a seat in the Mail Coach (if they travel by it) from one station to another, in addition to the rates of Allowances specified in the scale attached to this Minute. On occasions when any Public Officer proceeds to a place and returns on the same day, or when the exigencies of the Public Service require the use of a hired conveyance, he shall be allowed the hire of a carriage, and tolls at the established rates, under the following restrictions:—

Any officer included in Classes I. and II. shall be allowed to make such charge only in cases where he proceeds beyond 10 miles from his residence.

Any officer included in Classes III. and IV. shall be allowed to make such charge only when he proceeds beyond 5 miles from his residence.

Other officers, such as Interpreters, Clerks, &c., who are entitled, in the opinion of the Head of the Department, to such means of conveyance, shall be allowed to make the charge, when proceeding beyond the gravets or limits of the town in which they reside.

Officers in receipt of Horse Allowances are excluded from the operation of the above Rule.

Whenever a journey can be more expeditiously or cheaply performed by water than by land, Public Officers will be allowed to charge the hire of boats or vessels employed in the transport of themselves and their baggage. In such cases, the Daily Allowances specified in the preceding Schedule will not be granted in addition to carriage or boat hire, except when the officer has been subjected to extraordinary expenses in the prosecution of his journey, which should be made matter of special representation to Government.

Scale of Daily Allowances to be paid to the Judges and Officers of the Supreme Court, as fixed by the Governor's Minute of the 1st August, 1856.

	NORTHERN CIRCUIT.	MIDLAND AND SOUTHERN CIRCUITS.
	Per diem.	Per diem.
The Judges of the Supreme Court, at the rate of	£3 0 0	£2 5 0

ART-UNION OF LONDON.

444, WEST STRAND.

PRESIDENT:—The Right Hon. the Lord Monteagle.

George Godwin, Esq., F. R. S., F. S. A., 24, Alexander-square, Brompton; and Lewis Pocock, Esq., F. S. A., 20, Upper Gower-street.—Honorary Secretaries.

Thomas Simons Watson, Esq., B. A.—Assistant Secretary.

THE ART-UNION OF LONDON has for its object, to promote the knowledge and love of the Fine Arts, and their general advancement in the British Empire, by a wide diffusion of the works of native artists; and to elevate Art, and encourage its Professors, by creating an increased demand for their works, and an improved taste on the part of the Public. It is under the direction of a Council of the Members, whose services are honorary, and four of whom retire from office every year.

Subscribers of One Guinea are members of the Society for the year for which the subscription is paid. The subscriptions are devoted to the purchase of Pictures, Drawings, Enamels, Sculpture, Medals, Engravings, and other works of Art.

W. C. B. Cave,

* The Peninsular and Oriental Company contract on requirement by the proper Officer, to convey to and from and between any of the places to which any of their vessels are to proceed, a limited number of Officers in the Navy, Army or Civil Service, with or without their wives and children, at rates never exceeding two-thirds of the rates charged for ordinary Passengers of a similar description.

Overland Route,—via Trieste.

The Austrian Lloyd's Steam Navigation Company despatch a first class Steamer direct to Trieste, after the arrival at Alexandria of Passengers by each Steamer from India.

Fares, 1st class (inclusive of all charges)	£16
2d class	11
3d class (Deck)	7
Children under 10 years,	Half fares
Children under 2 years.	Free

Parties who engage passage in India thereby secure priority in the choice of accommodation.

There are now so many Railroads open through Germany that London may be reached from Trieste in 6 days with comfort, at a cost varying from £12 to £15, inclusive of Hotel charges, &c. &c.

To Travellers who proceed through the Continent without unnecessary stoppages, the following is the expense of the journey from Ceylon to London.

From Ceylon to Suez	... £65
Expenses of Transit through Egypt	... 10
Alexandria to Trieste	... 16
Trieste to London	... 12
	£103

Of these expenses all except the portion from Trieste to London may be paid in Ceylon.

Except when there is a Plague or Cholera in Egypt, Passengers land at Trieste, without detention for Quarantine.

BAGGAGE.—Under arrangements recently made with the Peninsular and Oriental Steam Navigation Company, such baggage as Passengers proceeding to England *via* Trieste, may not wish to carry with them across the Continent, will be forwarded to Southampton per P. & O. Company's Steamer at a charge of 10s. per cwt.

All articles, subject to duty, brought by passengers to Trieste arriving from Alexandria, can, if desired, be cleared on board, upon payment of the Custom house duty thereupon; for this purpose, a Customhouse officer specially appointed will proceed on board immediately the Ship arrives. Their baggage can also be furnished at once with the customs seal on board, if the traveller wishes to proceed without interruption from Trieste to Vienna.

Such articles as are to be sent after the owner from Trieste on the Continent, can (if the same are packed up in such a manner, that the prescribed official enclosure may be placed upon, and a guarantee being given for the import duty in case of a transgression) be declared under the head "*goods in transit*," and thus cleared on board by the Customhouse officer. All sealed letters must be delivered to the said officer, to be forwarded through the Post Office. Any further directions required to be observed, will be given by the officer entrusted with the examination of the baggage on board of the Steamer.

PASSPORTS.—Great facilities have been granted of late by the Austrian Authorities with regard to the Passport system of travellers passing through the Austrian dominions. The Passport will have only to be exhibited and vised in future by the Police Authority at the Austrian frontier (Bodenbach and Trieste or vice versa.)

The Passport for English travellers returning from India is obtainable at the Office of the British Consulate at Alexandria, for the voyage to England *via* Trieste. Such Passports must be vised at Trieste at the Police Office, and may at once be countersigned by the Consuls of those States through which the traveller passes.

The Company's Steamers ply between Bombay and Kurrachee, leaving Bombay on the 4th, 14th, and 24th of every month at 2 o'clock p. m., and Kurrachee on the 10th, 20th and 30th of every month at 5 o'clock p. m., conveying the Mails between those parts under contract with the East India Company's Government.

Between Bombay and Panwell, leaving Bombay every morning at 6 a. m., and Panwell every morning at 5 p. m., and, in addition, leave each of these places at 12 o'clock every day during the S. W. monsoon, Sundays excepted; thus making one trip in the N. E. and two trips in the S. W. monsoon, each way every day.

The Steamers for Surat are despatched at regular periods.

The Steamer that leaves Bombay on the 14th of the month, meets the Government Steamer at Kurrachee, that runs to the Upper Provinces.

* NOTE.—In the Estimate submitted by this Department, of the Receipts and Expenditure for 1859, for transmission to the Secretary of State, with the Supplementary Supply Ordinance of last year, it was shewn that there would probably be an excess of Expenditure over Revenue, of £12,306, but the actual result shews an excess of Revenue over Expenditure of £48,768,—this difference was caused by an over Estimate on the part of the Agents in London, of the amount required by them on account of stores for the Quarter ended 31st December (the payment for which, it is presumed, was deferred till the first Quarter of the current year), and to the Receipts on account of Customs, &c., having exceeded the amount estimated for the same Quarter, whilst the Expenditure of the various Departments fell short of that at which it was estimated, as shewn in the following Statement:—

Amount of estimated Revenue	£733,816
Add.—Difference between this sum and the amount of actual Receipts (as above)	13,220
Estimated Expenditure	£747,036
Deduct.—Over-estimation (as above)	47,854
Excess of Revenue over Expenditure	698,268
	£48,768

Amount estimated by the Colonial Agents	£36,875
Actual Expenditure	3,175
Difference	33,700
Small differences between the Estimated and Actual Expenditure under the several heads of Services	14,154
"	£47,854

Difference between the Estimated and Actual Receipts, viz.,	
Customs	£3,497
Sale of Government property, of which £4,326 was a double entry on account of Salt supplied by the Agent of the North-Western Province to Southern Province	7,068
Other Receipts	2,655
	13,220

T. SKINNER,
Acting Auditor General.

* The days have been warm and clear, and the nights cold. Fever, Catarrh, &c., not so prevalent as in the month of December.

† The heat has been generally oppressive. The nights in the early part of the month were pleasant. Fever has been prevalent among all classes, and Small Pox and Chicken Pox among the Natives.

‡ The heat has been very great, and the amount of rain less than is usual in March. Dysentery and Fever prevalent, a few cases of Small Pox.

§ Little rain has fallen this month; the weather has been very warm; a thunderstorm with heavy rain on the 4th. A few cases of Small Pox; but the weather has not, on the whole, been unhealthy.

|| The S. W. Monsoon set in on the 21st (New Moon) with heavy rain, thunder and lightnings. The rain, however, from that date, to the end of the month, was not so continuous or excessive as usual at the commencement of the Monsoon. This month has not been unhealthy.

¶ In the beginning of the month the heat has been very great, but the refreshing showers and constant sea breeze have made the weather agreeable and pleasant during the remainder of the month. Very little rain, however, has fallen, as compared with other years.

** The weather this month has been agreeable; the days were generally cloudy with strong breeze; very little rain has fallen. Several Wells, both in the Fort and Native Town, have become dry.

†† This month every thing has been very dry and dusty; the want of rain is much felt. There has been very little sickness however among Europeans and Natives.

‡‡ The weather this month has been very warm, with occasional light showers; there has been a great scarcity of water. Cholera has been prevalent among the natives, several cases fatal.

§§ The rain this month has been heavier than is usual in October. A large tract of land, including the Kandy road, in the vicinity of the Kalany river, being inundated for a considerable period. Several cases of Cholera have occurred among the Natives.

||| Not so much rain as is usual in November. Several fatal cases of Cholera have occurred among the natives; and one case, which proved fatal, occurred in the European Regiment stationed at Colombó. In consequence of the absence of rain, the weather has been warm and oppressive.

¶¶ The weather has not been unhealthy this month; rain fell during the earlier part of it. A heavy gale occurred on the night of the 7th, two native vessels drifting ashore. The nights, during the latter part of the month, have been cold.

Ports and Harbours.

PORT OF COLOMBO.

This part of the Coast of Ceylon is low, with some isolated hills at a distance in the country. On the northern side of the Town of Colombo the ground rises a little, and is covered with lofty Coconut and other trees, which are generally seen coming from seaward before the Light house or Flag Staff.

The high mountain having on it a sharp cone, called Adams Peak, bears from Colombo E. $\frac{1}{2}$ S. distant 46 miles. It rises 7,420 feet above the level of the sea, and in clear weather has been seen at the distance of 30 leagues. In the N. E. monsoon, it is generally visible in the morning, and sometimes throughout the day: but it is rarely seen in the S. W. monsoon through the humid atmosphere which prevails in that season.

A brilliant light is exhibited every night from a Lighthouse near the Flag Staff of the Fort. The height of the light above the sea is 97 feet, and it may be seen in clear weather until intercepted by the horizon. It is in latitude $6^{\circ} 56' 6''$ North and in longitude $79^{\circ} 45' 48''$ East.

About 7 miles off shore there is a steep bank of coral and sand with 15 fathoms of water over it. It is not more than half a mile broad, but extends several miles in the direction of the coast. About two miles to the westward of the banks soundings are obtained in 28 fathoms water on greenish sand, and close to it there are 23 fathoms. After passing over the bank the water suddenly deepens to 23 fathoms on sand, and from thence the depth gradually lessens as the shore is approached. At or three quarters of a mile S. W. by W. $\frac{1}{2}$ W. from the Lighthouse lies the northern and shallowest part of a bed of rocks called the "Drunken Sailor," on which the sea generally breaks, the depth of water being only 6 feet. This ledge is about 100 yards in length, but with the exception of about twenty yards of the northern part, there are 4, 5, and 6 fathoms on it. In the N. E. monsoon, when the sea is smooth and the breakers are not seen, it is prudent not to come within 9 fathoms water, as there are 8 fathoms close to the rocks. The passage within the ledge is clear with 7 fathoms on sandy bottom, but the position of these rocks is so near the shore and so much to the southward of the usual anchorage, that no advantage can be gained by steering near them at any time. The currents off Colombo are subject to considerable variation, particularly about the changes of the monsoon, when they are the strongest; but generally there is not so much current as to inconvenience shipping having to communicate with the shore without coming to anchor.

The greatest difference between high and low water recorded at Colombo is not more than 2 ft. 10 inches. In the S. W. monsoon when the mean level of the Ocean is the lowest, the difference between high and low water is from 5 to 15 inches. On those days when the difference between high and low water is not more than 6 inches, the rise and fall has been observed to take place four times within 24 hours.

The anchorage ground is very good in Colombo roadstead, particularly in 7 and 8 fathoms, with the Lighthouse bearing S. S. E. and the Dutch Church E. by S. $\frac{1}{2}$ S. In the N. E. monsoon, merchant ships frequently anchor in $6\frac{1}{2}$ fathoms with the Light house bearing S. $\frac{1}{2}$ E. and the Dutch Church E. by S. $\frac{1}{2}$ S.

Whenever a Pilot is required on board, the charge for his services is 15 shillings. From the Custom House point a shifting sand bank, or bar, extends to the N. N. W. about 200 fathoms, on which the depth of water is sometimes not more than 7 feet. Small vessels that draw 9 feet water moor within the bar, and are protected by it and the Custom House point from the S. W. wind and sea.

When the sea is high it breaks with great force on the bar and renders the passage to and from the shipping in the outer roads dangerous for small boats. The boats belonging to the Port and native boats pass out and in to the southward of the breakers on the bar, by keeping as close as possible to the breakers on the rocky point, round which is the landing wharf. But this passage should not be attempted by a stranger when the sea breaks heavily on the bar: it is then more safe to pass to the northward of the breakers. The anchorage off Colombo is so much frequented at all seasons of the year, that little need to be said about it. It may however be as well to mention, that in the S. W. monsoon it is prudent to ride with a long scope of cable, as sometimes the squalls are

strong. Commanders of ships should take special care to secure the small iron pins in their chain cables, as the constant pitching motion caused by the S. W. monsoon swell, has very frequently worked out the small iron pins by the beating of the cables on sandy bottom. Hard wooden pins dipped in white lead have been used successfully, instead of iron ones, by some of the regular trading ships.

J. STEUART, *Master Attendant.*

PORT OF POINT DE GALLE.

Point de Galle Lighthouse in Latitude $6^{\circ} 1' 45''$ N., Longitude $80^{\circ} 16'$ E. stands at the southern angle of the Fort, which is built on a rocky peninsula; several rocky islets lay off the Lighthouse, one of which (named Pigeon Island) has 3 Coconut trees on it; the harbour is to the eastward of the Fort; watering point at the opposite side of the entrance, bearing from the Lighthouse E. by S. $\frac{1}{2}$ S. 1 mile; it is considered safe at all seasons, but many rocks having from 3 to 20 feet water are scattered over the entrance and inside, rendering it necessary for Vessels to take a Pilot: the outermost of these rocks having 12 feet water on it, bears from the Lighthouse about S. by E. $\frac{3}{4}$ E. $\frac{1}{2}$ mile.

The best anchorage in the roads is to the S. W. of these rocks, in from 15 to 18 fathoms water, with the Lighthouse on with the Haycock, or the Church with Pilot's tree: or, if the marks cannot be distinguished, the Lighthouse bearing from N. by E. to N. N. E. about 1 mile off shore:

S. W. by W. 3 miles from Galle Lighthouse there is a rocky Bank called Gallehoogalle Bank, nearly a mile in extent, having in one place only 16 fathoms water, the general depth on it being 15 to 22; inside this bank there is 29 fathoms and close to it outside, 30 to 35.

Belkows Rock which always breaks, bears from Galle Lighthouse S. 50 E. $2\frac{1}{2}$ miles, and from Danawatty Point (the extreme of the high land forming the East side of Galle Harbour) S. S. E. $\frac{3}{4}$ E. a large $\frac{1}{2}$ mile, there is 10 fathoms water close to the Rock on the outside.

Gindura Rock, which is very dangerous, lies about 2 miles directly off the mouth of the Gindura River, and bears from Galle Lighthouse W. by N. $\frac{1}{4}$ N. $4\frac{1}{2}$ m.: (it is called by the natives *Medda Rock*) there is only 9 feet water on its shallowest part, 1 and 5 fathoms about a cable's length from it all round, and 15 fathoms $\frac{1}{2}$ m. outside: Onawatty Point kept open outside the breakers of the Whale, clears on the outside; or, the extreme of the land to the Northward kept open of some rocky islets situate close to the shore about 6 miles to the northward of Gindura Rock.

The Whale bears from Galle Lighthouse W. 4° N. $2\frac{1}{2}$ miles, and is nearly $1\frac{1}{2}$ mile from the shore; it always breaks, but in fine weather only once in 4 or 5 minutes, so that a good lookout is then necessary when passing it; there are 7 fms. water close outside, 12 fms. $\frac{1}{2}$ mile, and 20 fms. $\frac{3}{4}$ mile off.

The Little Whale, a small rock above water with 7 fms. close to all round, lies about half way between the Whale and Galle Lighthouse on the same line of bearing.

The Haycock, a high conical mountain conspicuous from seaward is a good land mark for this part of the Coast; it bears from Galle Lighthouse N. by E. $\frac{1}{2}$ E. distant about 20 Miles.

J. H. TWYNAM, *Master Attendant.*

THE HARBOUR OF TRINCOMALEE.

TRINCOMALEE, situated on the east side of the Island of Ceylon, contains a most spacious safe harbour, and with its small bays and coves is perhaps superior to any in India. Every part of the harbour is land-locked, the anchorage good for any number of Ships and of any burthen.

Back Bay from the 1st of April to the 25th October is also an excellent anchorage with from 10 to 5 fathoms water good holding ground, sea quite smooth, so that the smallest boats may land. Fort Frederick forms the S. E. point of the bay, the Flag-staff there is in Latitude $8^{\circ} 35' 38''$ N. and Long. $81^{\circ} 14' 52''$ E. A good light which can be seen 15 miles off is exhibited at the Flag-staff every night soon after sun-set; it is 206 feet above the level of the sea, and serves to guide Ships by night clear of the rocks off Pigeon Island to the north and the shoals off Foul Point to the S. E., as well as to lead them to an anchorage in Back Bay. Pilots for the inner harbour are necessary, as there are dangerous

shoals outside and inside; but Back Bay is quite safe. Vessels may lie within 1-3d of a mile from the Custom House in 5 fathoms water. The Custom House is opened for business on the 1st of April and continues until 25th of October when all is changed to the Custom House in the Inner Harbour.

A NEW LIGHT was exhibited at Flag-staff Point Trincomalee on the night of the 1st Oct. 1845, and is continued every night from sun-set until day light.

The Lantern having a fixed light with two powerful reflectors, when hoisted, is 205 feet above the level of the sea. The Light can be seen 15 miles off from any bearing between Pigeon Island and Foul Point comprehending an angle of 140 degrees.

The following remarks are published for general information:—

Latitude of the Light	8° 35' 38" N
Longitude from Madras Flag-staff	0 58 22 E
Longitude from Greenwich	81 14 52 E
Variation of the Compass	0 59 37 E

Foul Point bears from the Light S. 55° E. distant $5\frac{1}{2}$ miles, and the extreme of the reef off that point S. 60° E. nearly 5 miles.

Ships coming from the S. E. with a fair wind at night and having made the Light should on no account in passing Foul Point bring the Light to bear to the northward of W. N. W. that bearing will take a Ship more than half a mile to the northward of the reef and in not less than 14 fathoms water. If it is intended to anchor in Back Bay (which Ships may safely do between the middle of March and 25th October) and having brought the Light to bear W. N. W. they may steer directly for it rounding Flag-staff point close (the point being steep to) and anchor in 10 fathoms water with the Light bearing about S. b. E., small Vessels may anchor in 6 or 7 fathoms water with the Light bearing S. E. b. E.

From the Light the outside visible Rock of Pigeon Island, distant about $\frac{7}{8}$ miles, is in a direct line with Elizabeth Point, bearing N. 15° W. Ships coming from the northward and wishing to anchor in Back Bay should be cautious not to bring the Light to bear to the eastward of south; that bearing will lead 2 miles to the eastward of Pigeon Island and nearly a mile to the eastward of the Lively Rocks. These Rocks lie half a mile to the eastward of Elizabeth Point having 4 fathoms water close to. When quite sure of being to the southward of the Lively Rocks, ships may bring the Light to bear S. by E. and anchor in Back Bay as before directed.

After the 25th October the anchorage in Back Bay is not safe until the middle of March, as there is frequently towards the end of October before the North East monsoon sets in, a heavy swell with variable winds. Ships should not attempt the Inner Harbour during the night except under most favourable circumstances, such as good moon-light and having a person on board possessing local knowledge of the Harbour and the entrance to it. In such a case and being abreast of Flag-staff Point the Light kept N. N. W. $\frac{1}{2}$ W. will lead clear of Chapel Rocks. The extreme Rock which is under water, bears from the Light S. 18° E. distant 2 miles.

JOSEPH HIGGS, Master Attendant.

INSTRUCTIONS FOR NAVIGATING THE GULF OF MANAAR.

Some few years since it was considered a hazardous undertaking for a Vessel of any size to proceed far up into the Gulf of Manaar, the more particularly during the S.W. Monsoon, when it was supposed to be impossible to beat out again. Later experience, however, has shown that no dangers exist that may not be avoided by ordinary care and attention; and that as regards working to windward against the Monsoons, no difficulty will be experienced if the following instructions be attended to.

In the N.E. Monsoon, that is, from November to March inclusive, fine weather, with land and sea breezes, will be found to prevail on the Ceylon side of the Gulf, where good anchorage may always be selected between Colombo and Chilaw, at $1\frac{1}{2}$ to 3 miles off shore, in 6 to 9 fathoms, sand. Vessels wishing to beat up during the first three months ought therefore to keep over on that side till they have advanced sufficiently far to make certain of their port if bound to the Indian coast, as the breezes there may be expected to blow steadily and strong N.N.E. with a strong lee current. In rounding the Cape Comerin at this

time the Indian shore may be kept on board till abreast of Manapud Point, a high promontory, with a small white Church erected on its summit. A Vessel may then stretch across with advantage, and probably in the next tack fetch Tuticoreen, the only port on the Indian coast frequented by large Vessels.

Small Vessels of light draught will also find this the easiest method of working up; and if bound to Paumben had better keep the Ceylon shore till abreast of Calpentin, which they may know by the three long hills of Kodramallai, the only ones near the coast. They can then stand across, and make Paumben either by the eastern channel between the Island of Ramisseram and the Reef and Island south of that port, or by the western channel between Freshwater and Annapur Islands at Valinookum Point.

In the S.W. Monsoon a Ship ought to keep over on the Indian side till near Manapud Point, when she will generally be able to lurch to windward of Colombo, and be clear of all dangers. The only safe place for Vessels of size to anchor in on the Ceylon coast, during this Monsoon, is at Colombo, where the current from the Kalany Ganga or Mutwall River, running to windward, takes much of the strain off the cables of Vessels riding there. Should one nevertheless part, or find it necessary to slip, she may seek safety by standing across the Gulf to Tuticoreen, which, being situated on the weather side, affords good shelter and anchorage. A fixed light, seen 8 or 10 miles off, was erected on Hare Island at this port last year with a view to facilitate the approach to the anchorage during the night; and the instructions relative to it are herewith republished.

Small craft working down from Paumben will do well to keep inside the Islands till they reach the Western entrance of the inland navigation at Valinookum Point. They can now work down near the coast as far as Manapud Point, when their fetching Colombo on the starboard tack may be considered certain.

Colombo Flag-staff, which is close to the lighthouse, is in $6^{\circ} 55' 11''$ North latitude, and $79^{\circ} 55' 6''$ East longitude. The anchorage, as given by Captain Steuart, the Master Attendant, is in 7 to $8\frac{1}{2}$ fathoms during the S.W. Monsoon, with the lighthouse S.S.E. Easterly, and the Dutch Church, a large building in the bottom of the bay, the upper part of which having a thatched bellry may be seen over the houses of the Town, bearing E. by S. In the N.E. Monsoon Vessels may anchor farther in, with the light S. $\frac{1}{2}$ E. and the same church E.S.E. in $6\frac{1}{2}$ to 7 fathoms, sand and mud in each position. The Drunken Sailor, a patch of rocks about 100 yards long and 20 broad, with only 6 feet over it in some parts, is situated 1,150 yards S.W. by W. $\frac{1}{2}$ W. of the Flag-staff, and 1,000 yards off the nearest shore. It has from 6 to 9 fathoms close round it.

The Harbour, which is only used by small craft, is well protected during the S.W. Monsoon by the Custom House Point, behind which they anchor in $2\frac{1}{2}$ to $3\frac{1}{2}$ fathoms, sand, with it bearing from S.W. to W.S.W., and Mutwall Point N. by E. to N.N.E. A sandy spit extends from the first-named Point in a northerly direction, with $1\frac{1}{2}$ to $2\frac{1}{2}$ fathoms over it and 5 to 6 fathoms close outside. To avoid this the Dutch Church ought to be kept E. by S. $\frac{1}{2}$ S. till the Custom House bears S. by W.

Negombo Fort, off which Vessels may shortly have to anchor for the purpose of shipping Sugar the produce of estates lately brought under cultivation in its vicinity, is in $7^{\circ} 12' 9''$ North latitude, and $79^{\circ} 33'$ East longitude. The best anchorage is a mile off shore, with the Fort about East, Northerly, just clear of Negombo rocky point, in $6\frac{1}{2}$ to 7 fathoms, sand; but as this sand is not deep, and the stream of the Negombo Lake, which empties itself here, sets to the North, I would decidedly warn Vessels from anchoring here during the S.W. Monsoon, or from May to August, inclusive. Rocks awash extend from the Point N. by W. $\frac{1}{2}$ W. for 400 yards, and the ledge may be then traced in the same direction, with 3, 4, and 5 fathoms over it for $2\frac{1}{2}$ miles further, till it terminates in a coral patch, having 9 to 12 feet over it, $2\frac{1}{2}$ miles off shore. Small craft can cross this ledge, and anchor in 2 to 3 fathoms, with Negombo Point S.W. $\frac{1}{2}$ W., and the Fort S.E. by E., from $\frac{1}{4}$ to $\frac{1}{2}$ mile off shore.

Chilaw Bungalow, in $7^{\circ} 31'$ North latitude, and $79^{\circ} 51' 29''$ East longitude, may be known by its high red tiled roof, seen 8 or 9 miles off in clear weather. On the Charts now extant some rocks are placed near this at some distance from the shore, but they were found to be not more than $\frac{3}{4}$ of a mile off, and consequently cannot be considered as forming any obstacle to general navigation. They are situated 5 miles due North of the Bungalow; and are in a line between it and the next Point. Twenty-one miles North of the Bungalow uneven soundings on rock, to as little as $3\frac{1}{2}$ fathoms are found from 3 to 4 miles off shore, with 6 and 8 fathoms immediately outside. Vessels of size therefore ought to be careful not to come within this distance of the land hereabouts, although small craft can at all times go over the shoal.

Dutch Bay, in $8^{\circ} 19'$ North latitude, and $79^{\circ} 50'$ East longitude, is well sheltered from all winds, but more particularly from the S.W., which are the strongest on the coast. Vessels can anchor here in $2\frac{1}{2}$ to 3 fathoms, stiff mud, close inside the neck of sand that forms the Western side of the Bay, with a Coconut tope and house called Paringethoray bearing S.S.W. The only dangers in the approach to it are a rocky patch, with $2\frac{1}{2}$ over it at low water, 2 miles W.S.W. of the North end of the neck of sand before mentioned, and some shoal water 3 miles N.N.W. off the same Point, and $2\frac{1}{2}$ miles West of some Palmyra trees, a few of which are leafless, on the Island of Karateevo. This last extends North and South about 2 miles, with an average breadth of one, having from 3 feet to 3 fathoms, with a small patch of sand, generally dry, due West of the above trees. There are 4 to 5 fathoms to the Eastward of this reef, but no person, without being well acquainted with the coast, ought to attempt the passage inside. From seaward the North end of the neck of sand ought to be brought to bear S.E. $\frac{1}{2}$ E., when it can be steered for, and passed within 50 yards, carrying 3 to 4 fathoms, sand.

Very good anchorage in the S.W. Monsoon may also be found under the lee of Kodramallai Point, in $8^{\circ} 32'$ North latitude, and $79^{\circ} 56'$ East longitude, which may be known by the three long hills seen over the low land of Karateevo. In steering for this anchorage, the North end of the hills ought to be kept about E. by S. till well past the island, when the anchor may be let go in $2\frac{1}{2}$ to $3\frac{1}{2}$ fathoms, sand, with the rocky promontory bearing S.S.W. to S.W., $\frac{1}{2}$ to $1\frac{1}{2}$ mile off.

No Vessels ought to proceed on the Ceylon side further towards the head of the Gulf than this, as there are many shoal places at some distance from the shore, and no good holding ground. In the S.W. Monsoon a strong current is found setting to the Northward over Adam's bridge, which abates as the Indian coast is approached; and a confused sea is generally found to prevail near Manaar.

The Eastern entrance to Paumben is in $9^{\circ} 15' 30''$ North latitude, and $79^{\circ} 17'$ East longitude. Some small islets are situated at the East end of the reef between which and the island of Ramisseram the channel leads. A pole has lately been erected on the Northern limit of the shoal water inside these islets, between which and Ramisseram deep water is to be found. The south end of the cut through the horse-shoe bank, by which Vessels have to pass in going through the Paumben channel, bears from this pole E. by N.

A fixed light has lately been exhibited at Paumben, seen 11 to 12 miles off in clear weather, respecting which directions have been separately published, and which are recommended to the notice of Mariners frequenting the port.

The Western entrance to Paumben is situated in $9^{\circ} 9'$ North latitude, and $78^{\circ} 40'$ East longitude, lying between Valinookam Point, on the Main coast of India, and the small island of Anapaar, which last must not be approached nearer than a mile till the South end bears South of East.

The passage will then be entered, when a straight course for Keelakarry at N.E. by E. may be kept, care being taken to avoid some reefs nearly awash which lie off Erawaddy Point, the easternmost limit of the deep bay opposite the entrance just described. Five and six fathoms will be found at this entrance, shoaling to 3 farther in, with an occasional cast of $2\frac{1}{2}$ sand. The best anchorage at Keelakarry is in $2\frac{1}{2}$ to 3 fathoms, stiff mud, with a detached ruin East of the town bearing North, and some large terraced houses N.W. Pilots here come on board to take vessels to Paumben, which lies 26 miles farther to the Eastward; but should a Vessel proceed without such assistance, the following directions must be followed.

Steer for a little outside the next Point (Naaginundel) till a small tope between a hillock at the mouth of a rivulet and an old ruined temple bears North. Then stand across about S.E. $\frac{1}{2}$ E. for a little outside the West end of the next island (Talliar). This leads over the deepest part of a spit in $2\frac{1}{2}$ fathoms, with 7 feet on each side, where a buoy will shortly be moored to indicate the channel. Two bungalows at the next Point on the Main will now be seen, and when they bear N.E. $\frac{1}{2}$ E. steer E.N.E. till they are passed, when due East will take a Vessel to the buoys on each side of the passage at Ramasawmy's Choultry. To avoid a sandy knoll with only 7 feet over it, the Southern of these buoys ought to bear E. by N. when about $\frac{1}{2}$ mile off; and after passing between them steer about East, for a high beacon erected on a patch of rocks. Leaving this 50 to 100 yards to the Southward, stand on for the North end of the next island, Pulleteevo, and round it at about $\frac{1}{2}$ mile off, keeping E.N.E. till the opening between Pulleteevo and the next Island bears South; then steer East, and

anchor near the sand bank channel which has a buoy to mark its position. No Vessel drawing more than $8\frac{1}{2}$ feet ought to attempt this navigation without a Keelakarry Pilot.

Tuticoreen Light is in $8^{\circ} 47' 17''$ North latitude, and $78^{\circ} 14' 1''$ East longitude. The following are the directions respecting it before adverted to.

A Vessel making the Port at night may anchor with it bearing from W. N. W. to W. by S. about $1\frac{1}{2}$ to 2 miles off shore, where good holding ground will be found in 5 to $6\frac{1}{2}$ fathoms. At $3\frac{1}{2}$ miles distance with the same bearings the ground is foul, on Pearl banks.

In approaching from the South, the light may be kept about N. N. W. till within 3 or 4 miles, when the above anchorage may be selected; but should a Vessel suddenly deepen her water from 7 or 8 fathoms to 12, 15, or 20, she should immediately steer North till she makes the light, taking care to keep further to seaward if it bears North of N. N. W. The outer part of this deep water lies a little to the North of the head of the Coilnapatani reef, and bears S. by E. 10 miles from the Tuticoreen Light.

From the North a Vessel may keep the light about S. W. till within 3 or 4 miles, when she must steer more out for the anchorage; but in no instance ought the water to be shoaled under $6\frac{1}{2}$ fathoms, excepting with the bearings on for the anchorage, and then not under 6.

In the N. E. Monsoon Vessels should lie with a good scope of cable out, as although the seas are not heavy, they are sharp, and occasion a chain to jerk. The sea breeze at this time blows on the reef, and a second anchor, with chain tanged, ought always to be kept ready for letting go.

In the S. W. Monsoon, which usually lasts from the middle of May to the middle of August, the Port may be made without fear, for although the winds are very violent, they are invariably off shore from W. to S. W. accompanied by smooth water. At this time Vessels may approach the reef to 5 fathoms; but should always have a stream anchor to seaward, as occasionally, during the lulls of the Monsoon, a light air comes in from the Eastward.

As a rule, Vessels of size ought not to approach the land above Tuticoreen nearer than 6 or 7 miles, as $2\frac{1}{2}$ or 3 fathoms are found 5 miles off in some places. When some large clumpy trees at Putnamadoor, seen 10 miles off, and when no other object on shore is visible, bear North of West, the shoal water is to the Northward.

There are two channels for small craft into Tuticoreen harbour, but that to the North is so intricate as to be seldom used. The Southern one leads between the southernmost island and the mainland, the reef connecting them being crossed in 12 to 14 feet at distance of $\frac{1}{2}$ to $1\frac{1}{2}$ mile of the island. This being passed, a course may be steered for Devil's Point on the Main, after closely rounding which a small Vessel may stand direct for the town of Tuticoreen, carrying 11 to 9 feet. Before passing Devil's Point $2\frac{1}{2}$ fathoms are found, sand and mud.

At the distance of $2\frac{1}{2}$ miles due East of the Pennacoi tope, a scanty tope to the south of a large ruined building, 9 miles from Devil's Point, is situated the inner edge of an extraordinary natural basin in the rocks, $\frac{1}{2}$ miles East and West, and averaging $1\frac{1}{2}$ miles in breadth: the outer part being the broadest and deepest. The bottom is composed of fine sand and mud, in 7 fathoms on the Western, to 15 and 20 fathoms on the Eastern extreme, from which it suddenly shoals to 9, 8, and $7\frac{1}{2}$ fathoms on a Pearl bank. In standing up the coast during the night with a scant wind, this is good ground for ascertaining a Vessel's position, as no similar spot exists from Paumben to Comorin. From the outer part, in 15 to 20 fathoms, the anchorage off Tuticoreen bears N. by E. $2\frac{1}{2}$ miles.

Good anchorage in 3 to 4 fathoms, mud, with this tope bearing West 1 to $1\frac{1}{2}$ mile, is to be found here during the Southerly winds under the lee of a reef which commences $2\frac{1}{2}$ miles N. E. by N. of the next point (Coilnapatnam), and continues with little exception to Cape Comorin. As far as Manapaud Point this reef varies in its distance from the land from 1 to $2\frac{1}{2}$ miles, but thence to Comorin it seldom exceeds $\frac{1}{2}$ a mile. The head of this reef lies S by W. $10\frac{1}{2}$ miles from Tuticoreen Light.

Trichendore Point, in $8^{\circ} 29' 55''$ North latitude, and $78^{\circ} 9' 51''$ East longitude is 18 miles S. by W. Westerly of Tuticoreen Light, and may be known by its having a high dark Pagoda on its extremity, seen in ordinary weather 12 to 18 miles off.

Manapaud Point, situated $8\frac{1}{2}$ miles S. S. W. $\frac{1}{4}$ W. of the Trichendore Pagoda, is a high sandy promontory jutting out boldly into the sea. It has a small white-shed Church on its summit, visible in clear weather 12 to 13 miles off, which bears at first like a ship under sail. Some foul ground in 4 to 10 fathoms.

situated off this point, extending E. N. E. and W. S. W. 10 miles, with an average breadth of 1 mile.

The following are the bearings of the two shoalest parts:—

Inner shoal part.

Manapaud Church.....N. 54° W. $5\frac{1}{2}$ miles } $4\frac{1}{2}$ fathoms sand.
Trichendore Pagoda.....N. 1° W. $10\frac{1}{2}$ „ }

Central shoal part.

Manapaud Church.....N. 54° W. 8 miles }
Trichendore Pagoda.....N. 12° W. $12\frac{1}{2}$ „ } 1 fathoms sand.

There are many other patches with $5\frac{1}{2}$ and 6 fathoms over which Vessels might pass, yet the safest plan when going between the reef and the Point is not to bring the Church to the West of North till within 2 or 3 miles of it. An E. N. E. course will then take a Vessel out clear.

Cape Comorin, which is placed by Colonel Lambton in his Trigonometrical survey in $8^{\circ} 41' 35''$ North latitude, and $77^{\circ} 31' 46''$ East longitude, rises in a gradual slope, is covered on the East side with Palmyra trees, and may be easily distinguished by the reddish appearance of the soil, and a large white Cloultry situated near the beach. Two large rocks with a small one outside, on which the sea at all times breaks with much violence, stretch to the distance of $\frac{1}{2}$ mile from the shore. They are steep to and may with a fair wind be approached within $\frac{1}{2}$ mile in 8 or $8\frac{1}{2}$ fathoms, but with scant wind caution is necessary, as the current sets rapidly round the Point, and may drift a vessel into danger.

The breezes in the Gulf of Manaar are generally stronger than the adjacent coasts, the only moderate months being April and October; yet if the instructions already given be attended to, no difficulty will be found in working up or down against them. The N. E. Monsoon sets in with force about the middle of November, and lasts till the end of January, bringing with it a current of from 20 to 30 miles a day to the S. W. It blows steadily from N. N. E. along the Indian shore, but on the opposite side is modified into land and sea breezes, with very fine weather. In February land and sea breezes commence on the Indian side; and by April the general set of the wind in the Gulf will be found to have drawn round to the Southward, the sea breezes being S. E. to S. W., according to the coast on which they prevail. These now increase in force till about the middle of May, when the regular S. W. Monsoon sets in, blowing with great violence from W. S. W. on the Indian coast, and S. W. on the Ceylon coast, where it commences rather earlier, and is attended with heavy falls of rain, thunder and lightning. In August the strength of the Monsoon abates, but strong Southerly winds are still experienced in this and the next month, becoming lighter as the season advances. Variable and gentle breezes, with smooth water, may usually be expected in October, lasting till the setting in of the N. E. Monsoon, which is ushered in on the Indian side by 15 or 20 days of heavy rain.

The current will generally be found to set with the wind in the strength of the Monsoons; but this is not invariably the case. Care and attention must therefore be paid to the soundings, and unless a good Pilot be on board, a Vessel ought not to shoal her water during the night to less than 12 fathoms above or 18 or 20 fathoms below Manapaud on the Indian coast; or to less than 10 fathoms above and 20 below Colombo, increasing the depth to 40 till abreast of Point de Galle on the Ceylon coast; excepting of course her position be ascertained by the bearing of the light at Tuticoreen or Colombo.

Average high water occurs at 1 p. m. on full and change—ordinary rise and fall 18 to 24 inches—at springs 30 to 36 inches. The flood sets in about E. N. E., and the ebb about S. W., but their direction is greatly influenced by the wind. The variation of the compass may be stated at about 1° Easterly.

All the above longitudes are calculated on the assumption of the Galle Flagstaff being in $80^{\circ} 16'$ East.

JOHN J. FRANKLIN,

Late in charge of the Manaar Survey.

Madras, May 21st 1846.

PAUMBEN LIGHT HOUSE.

The facilities for the passage of Vessels through the channels at Paumben, having been considerably increased of late, the following notice is published for general information:—

Paumben Light House is in

Latitude $9^{\circ} 17' 30''$ N.

Longitude $79^{\circ} 12' 34''$ E.

Assuming Galle Light to be in $80^{\circ} 14' 20''$ E.

The light is placed on a column erected on a Hill to the Eastward of the Town of Paumben, is 84 feet above the level of the Sea, and in ordinary weather, should be seen from the deck of a small craft, such as usually navigate the Gulf of Manzar and Palks Bay, from 11 to 12 miles off.

In making Paumben from the North during the night, Vessels may run for the light bearing S. W. to E. S. E., keeping rather out in coming from the Eastward, if under 6 fathoms, as the water shoals suddenly after that depth is obtained off the coast of Rami-seram.

The best anchorage is with the light bearing from S. E. $\frac{1}{2}$ E. to E. S. E. $\frac{1}{2}$ mile to 1 mile off, in $3\frac{1}{2}$ to 4 fathoms, sand and mud, good holding ground. The Northern entrance to the Channel, which is indicated by a Black Buoy, will then be from $\frac{1}{2}$ to $\frac{3}{4}$ mile off.

In approaching during the night from the South, care must be taken to avoid the 2 Fathom Rock, from which the light bears N. 14° W. 17 miles, and which has $3\frac{1}{2}$ to 5 fathoms in its immediate neighbourhood. If from the Westward, a vessel ought to bring the light North, and run with that bearing till about 5 miles off, which, after taking her over a rocky ledge having $3\frac{1}{2}$ to $5\frac{1}{2}$ fathoms on, will place her in $5\frac{1}{2}$ to 6 $\frac{1}{2}$ fathoms, mud and sand, about $1\frac{1}{2}$ mile from the reef extending Westward from the shingle Islets. She may then steer N. E. by E. $\frac{1}{2}$ E., till the light bears N. W. by W., when she can run for it till in smooth water, and anchor in 4 to 5 fathoms, sand and mud, between the land and shingle Islets before mentioned.

If the light is made from the Eastward, a vessel ought to keep it N. N. W. $\frac{1}{2}$ W., edging out or to the North a little as she shoals her water to 4 fathoms, to avoid the shingle Islets, the Eastern end of the Reef off which bears from the light S. 24° E. $3\frac{1}{2}$ miles. She may then anchor as before. This course would take her very near a patch of rock with 3 fathoms on, but as the Craft using the Channel are of light draught, no fear need be entertained of striking on it.

These instructions for the South Entrance are intended for the use of Vessels nearing the Port during the S. W. Monsoon. In the N. E. Monsoon the Island of Ramisseram, which may be approached on this side to within a cable's length, becoming a weather shore, the water is sufficiently smooth to allow of Vessels anchoring anywhere, and the bearings above given clearly shew the dangers to be avoided.

The least water in the Paumben Channel at the lowest spring tide is $8\frac{1}{2}$ feet, but as the average rise on this is 26 to 28 inches, and in October, November and December, 30 to 36, and at times even 42 inches, Vessels drawing 10 feet can safely make use of it. Native Pilots are always ready to carry Vessels through; and to obviate any inconvenience which might be felt by Commanders unable to speak their language, a Hindoo-Briton is employed as Head Pilot, whose services will be always available.

By order of the Marine Board,

JOHN J. FRANKLIN, Secretary.

Madras, Marine Board Office,
23rd April 1852.

Ordinances enacted by the Governor of Ceylon, with the advice and consent of the Legislative Council thereof, during the Session of 1860.

No. 1.—*An Ordinance to prevent the overcrowding of Vessels carrying Passengers in the Gulf of Manaar and Palk's Straits.*

Preamble

WHEREAS it is necessary to prevent the overcrowding of Vessels carrying Passengers in the Gulf of Manaar and Palk's Straits: and whereas the Ordinance No. 10 of 1857 was passed for effecting the above purpose, which said Ordinance has expired, and the Ordinance No. 8 of 1853 has thereby become revived. IT IS ENACTED BY THE GOVERNOR OF CEYLON, by and with the advice of the Legislative Council thereof, as follows:—

Commencement and duration.

1. THIS Ordinance shall come into operation from the day of the passing thereof.

Repeal.

2. THE Ordinance No. 8 of 1853, intituled, "*To regulate the number of passengers on board of vessels proceeding from Ceylon to certain parts of the East Indies,*" is hereby repealed.

Interpretation.

3. FOR the purposes of this Ordinance, the word "Vessel" shall not apply to any Vessel propelled partly or wholly by steam.

Number of passengers to be carried in unlicensed vessels.

4. NO vessel shall carry passengers from any port or place in Ceylon, to any port or place in India in the Gulf of Manaar or Palk's Straits, in a proportion greater than one passenger to every four tons of the burden of such vessel, without a license.

Number of passengers to be carried in licensed vessels.

5. NO vessel shall be licensed to carry passengers on any such voyage as aforesaid, in a proportion greater than one passenger to every ton of burden, nor unless the vessel has space on a deck or platform, under hatches, reserved for the accommodation of the passengers, in the proportion of six superficial feet for every passenger, with not less than five feet clear between the upper deck and the lower deck or platform; except a vessel proceeding in ballast, which may be licensed to carry a number of passengers not exceeding the proportion of two and a half to every ton of her burden, provided that the whole of the space usually allotted for cargo, and not occupied by ballast, be kept for the accommodation of the passengers, and for storing the provisions and water for their use; and that the space left clear for the accommodation of the passengers on the deck or decks of the vessel, be not less than four superficial feet for each passenger.

Penalty on Master
of unlicensed vessel.

6. THE Master or Tindal of any vessel which shall carry passengers on any such voyage as aforesaid, without a license, in a proportion exceeding that laid down in the 4th section of this Ordinance: shall be liable to a fine not exceeding Two pounds for each passenger in excess of such proportion.

Penalty on Master
of licensed vessel.

7. THE Master or Tindal of any licensed vessel which shall carry on any such voyage a greater number of passengers than is specified in the license, or in which the accommodation therein required shall not be afforded, or who shall knowingly receive or allow to come on board such vessel, a greater number of passengers than is specified in the license, intending to proceed to sea with such passengers on any such voyage, shall be liable, for any such offence, to a fine not exceeding Two pounds for each passenger in excess of such number, or for each passenger who is not provided with accommodation agreeably to the license.

Government to
appoint ports for
shipment of pas-
sengers, when the
number of passen-
gers to be carried is
greater than one to
every four tons of
burden.

8. PASSENGERS in a greater number than one passenger to every four tons of the burden of any vessel, shall not be shipped from Ceylon for any port or place in India in the Gulf of Manaar or Palk's Straits, except from such ports as shall be from time to time appointed by the Governor, by an Order published in the Government Gazette; and the Master or Tindal of any vessel who shall take on board passengers for such voyage from any other port or place in a greater proportion to the burden of the vessel than is above mentioned, shall be liable to a fine not exceeding Two pounds for each passenger embarked.

Grant of license
to vessels.

9. IT shall be at the discretion of the Collectors of Customs for the ports appointed for shipping passengers, or such other persons as the Governor may from time to time appoint for the purpose, to grant licenses to vessels under this Ordinance. The license shall describe the vessel, her tonnage and rig, the number of her boats, anchors, and cables; also, the name of the owner, and of the Master or Tindal, and the number of the Crew; and shall specify the number of passengers she may carry, and the space to be assigned for their accommodation. Provided, if any doubts shall arise whether any vessel about to proceed with passengers as aforesaid, is seaworthy, so as to be fit for her intended voyage, and such doubts shall not be removed to the satisfaction of the Collector of Customs at the Port from which such vessel is to be cleared out, it shall be lawful for such Collector to cause such vessel to be surveyed by such person as shall be appointed by the Governor for that purpose, and it shall be reported by such person, that such vessel is not seaworthy with reference to such voyage, such vessel shall not be cleared out, until such vessel shall have been rendered seaworthy.

Supply of provi-
sions on board pas-
senger vessels plying
to and from Ceylon,
&c.

10. THE Master or Tindal of any Vessel licensed to carry Passengers from any Port in Ceylon to any port or place in India in the Gulf of Manaar or Palk's Straits, who shall proceed on any such voyage without having laid in a supply of water and provisions for the Passengers, according to a scale to be fixed by the Col-

lector of Customs for such Port, or such other person as the Governor may from time to time appoint for the purpose, and which shall be hung up at the Custom House of the Port, shall be liable to a fine not exceeding Ten pounds.

11. THE Master or Tindal of any Vessel licensed to carry Passengers as hereinbefore provided, shall sign and deliver, in duplicate, to the principal Officer of Customs at the place of embarkation, or such other person as the Governor may from time to time appoint for the purpose, a list, according to the Form annexed to this Ordinance, of all passengers to be conveyed in such vessel; and such Officer, after satisfying himself of the correctness of the same, and that the number of passengers authorized is not exceeded, shall countersign and return one such list to the Master or Tindal, to be produced to the proper Officer at the Port to which the vessel is bound; and should any additional passengers engage to proceed by such vessel after such list has been so countersigned, the Master or Tindal may insert their number in the original list, obtaining the signature of the Controlling Officer as before. The Officer in charge of the Customs may withhold the Port Clearance till this provision is complied with.

Penalty for impeding entry or inspection.

12. THE principal Officer in charge of the Customs at the Port of embarkation, or any person authorized by him, shall be at liberty, at all times, to enter and inspect any passenger vessel, and the fittings, provisions, and stores therein, and to muster the passengers and crew; and whoever impedes such entry, inspection or muster, or refuses to allow the same, shall be liable to a fine not exceeding Five pounds.

Penalty on landing Passenger at a place other than at which he has contracted to land.

13. IF any passenger in any vessel shall be landed at any Port or place, other than the Port or place at which he may have contracted to land, unless with his previous consent, or unless such landing is made necessary by perils of the Sea, or other unavoidable accident, the Master shall, for each offence, be liable to a penalty not exceeding Twenty pounds.

Passenger's right of action preserved.

14. NOTHING in this Ordinance contained shall take away or abridge any right of action, which may accrue to any passenger, or to any other person, in respect of the breach or non-performance of any contract made with the Master or Owner of the vessel, or his Agent.

Adjudication of offences, and recovery of penalties.

15. ANY offence against this Ordinance, though the same may be beyond the jurisdiction of a Police Court, by reason of the amount of punishment to which the offender is liable, shall and may nevertheless be inquired into, tried, and punished by the Police Court of the District in which the offence was committed, wholly, or in part, or where the offender is found. And any fine imposed on the Master or Tindal of any Vessel, for a breach of this Ordinance, may be recovered from the owner of such Vessel or from his Agent.

Sum ordered to be paid leviable by distress on Vessel.

And if the person directed to pay any penalty is the Master or Tindal of a Vessel, and the same is not paid at the time and in the manner prescribed by the order of

No. 3.—*An Ordinance to repeal certain Grants from the Surplus Revenues of past years, and to apply a portion of such Surplus Revenues to Works and Services of acknowledged Public utility.*

No. 4 — *An Ordinance to alter and amend a certain Proclamation dated the Thirtieth day of June, One thousand Eight hundred and Sixty.*

Preamble.

WHEREAS a Proclamation dated the Thirtieth day of June, One thousand Eight hundred and Sixty, was duly published in accordance with the 36th Section of the Ordinance No. 13 of 1859, intituled "*An Ordinance to amend the Laws of Marriage in the Kandyan Provinces*," ordering and appointing the First day of October, One thousand Eight hundred and Sixty, as the day on which the said Ordinance should come into operation in certain portions of the District of Badulla, in the Central Province therein named; and whereas it has been found expedient to alter and amend the said Proclamation by substituting the First day of January, One thousand Eight hundred and Sixty-one, for the First day of October, One thousand Eight hundred and Sixty, as the day on which the said Ordinance should come into operation in the said portions of the said District.

NOW THEREFORE IT IS ENACTED BY THE GOVERNOR OF CEYLON, by and with the advice and consent of the Legislative Council, as follows, that is to say:—

Commencement. 1. THIS Ordinance shall come into operation from the passing hereof.

Proclamation altered and amended 2. SO much of the said Proclamation as orders and appoints the first day of October One thousand Eight hundred and Sixty to be the day on which the Ordinance No. 13 of 1859, intituled "*An Ordinance to amend the laws of Marriage in the Kandyan Provinces*," shall come into operation in the portions of the District of Badulla hereinafter mentioned, is hereby revoked and repealed. No. 7.—*An Ordinance to amend the Law relating to Stamp Duties.*

Preamble.

• **W**HEREAS by Ordinance No. 19 of 1852, intituled "*To amend the law relating to Stamp Duties,*" it is enacted and provided, that where any instrument therein specified, shall be executed or acknowledged before a Notary Public, or shall be executed before some Public Officer under the authority of the Ordinance No. 17 of 1852, intituled, '*To make further provision touching the execution of certain deeds and instruments;*' the Stamp duties thereby chargeable on such instrument, shall be chargeable on the duplicate or counterpart thereof, instead of on the original instrument; and in such case, if the duty exceed the sum of Five shillings, the original instrument

shall bear a Stamp of Two shillings. AND WHEREAS it is expedient to extend the operation of the said proviso to Grants of Land made by Her Majesty and Her Successors, and to certain instruments executed by Fiscals or Deputy Fiscals in the execution of their office; AND FURTHER, WHEREAS it is desirable to confirm certain instruments executed by Fiscals and Deputy Fiscals, in the execution of their office, which have been erroneously stamped:

NOW THEREFORE IT IS ENACTED BY THE GOVERNOR OF CEYLON, with the advice and consent of the Legislative Council thereof, as follows:—

Commencement.

1. THIS Ordinance shall come into operation from the day of the passing thereof.

Grants and Instruments executed by Fiscals, how to be stamped.

2. THE Stamp duty chargeable on any Grant of Land made by Her Majesty or Her Successors, and any instrument (not being a Draft, Order, or Promissory note for the payment of money, or a Receipt or Discharge for or upon the payment of money) specified in the first part of the Schedule annexed to the said Ordinance No. 19 of 1852, and executed by any Fiscal or Deputy Fiscal in the execution of his office, shall be chargeable on the duplicate, or counterpart thereof, instead of on the original instrument; and in such case, if the duty exceed the sum of Five shillings, the original instrument shall bear a Stamp of Two shillings.

Unduly Stamped Instruments executed by Fiscals confirmed.

3. AND WHEREAS since the first day of December, in the year of Our Lord One thousand Eight hundred and Fifty-two, many instruments executed by Fiscals and Deputy Fiscals (except as in the previous clause excepted) have been erroneously stamped, by the duty having been made chargeable on the duplicate or counterpart, instead of on the original instrument, in contravention of the Fifteenth General Rule respecting the duties of Fiscals, and it is expedient to confirm such original instruments, and to make them as good evidence as if they had been properly stamped, IT IS FURTHER ENACTED, that such original instruments (except as hereinbefore excepted) executed by Fiscals or Deputy Fiscals in the execution of their office, since the day and year last aforesaid, may be pleaded and given in evidence in any Court, and admitted in any Court to be as good, useful, and available in law or equity, as if the same had been duly stamped; provided that the amount of duty properly chargeable thereupon has been charged on the duplicate or counterpart thereof.

Passed in Council the Nineteenth day of December, One thousand eight hundred and Sixty.

No. 8.—*An Ordinance to give effect to certain Rules and Orders made under the Ordinance No. 13 of 1859, "To amend the law of Marriage in the Kandyan Provinces."*

Preamble.

WHEREAS by the Ordinance No. 8 of 1846, intitled "*For rendering the operation of Rules of Court contingent on their enactment by the Legislature,*" it is provided, that whenever any General Rule of Court, framed by the Judges of the

Supreme Court, shall have been transmitted to the Governor, in the manner directed by the said Ordinance, such Rule shall be laid by the said Governor, in the form of an Ordinance, before the Legislative Council, to be considered and dealt with by the said Council, in such and the same manner as any other Ordinance; and that no General Rule framed by the said Judges shall operate and take effect until the same shall have been duly enacted. And whereas the Judges have transmitted to the Governor, in the manner directed by the said Ordinance, the General Rules and Orders in the Schedule to this Ordinance annexed.

IT IS THEREFORE ENACTED BY THE GOVERNOR OF CEYLON, with the advice and consent of the Legislative Council thereof, that the General Rules and Orders in the Schedule to this Ordinance annexed, are hereby confirmed, and shall come into operation, and take effect from and after the passing thereof.

SCHEDULE.

RULES AND ORDERS to regulate the Proceedings to be taken under the Ordinance No. 13 of 1859, "*To amend the law of Marriage in the Kandyan Provinces.*"

Proceedings under the 4th Section.

1. ANY person who applies to a Judge under the 4th Section of the said Ordinance, to certify as to the propriety of a desired Marriage, shall present a Petition, in substance according to the Form to these Rules appended, marked No. 1.

2. EVERY such Petition shall be accompanied by an affidavit or affirmation made by the Petitioner, verifying the facts stated in the Petition, of which he or she has personal cognizance.

3. THE Judge may thereupon proceed to certify whether or not such Marriage appears to him to be proper. Provided, however, that it shall be competent to the Judge to require evidence in support of any fact material to the Petition, before certifying as above, if to the Judge it shall appear right and expedient to do so.

Proceedings under the 14th Section.

4. ON the receipt of the report of the Registrar that an intended Marriage has been forbidden, the Clerk of the Court shall issue Notices to the person who forbade the intended Marriage, and the parties intending to marry, to appear with their witnesses on a day named in such Notice, and which shall not be more than seven days from the day of the receipt of the report.

5. ON the day named, the Magistrate shall proceed to take the report of the Registrar into consideration, and after hearing the parties, and if need be, their witnesses, shall decide whether such Marriage shall take place or not.

Proceedings under the 19th Section.

6. WHEN the Registrar requires a Marriage, of which Registration is demanded to be legally proved, the person demanding such Registration shall present a Petition, which shall be, in substance, according to the Form to these Rules appended, marked No. 2.

7. EVERY such Petition shall be accompanied by an affidavit made by the Petitioner, verifying the facts stated in the Petition, of which he or she has personal cognizance.

8. THE Judge shall thereupon make order, requiring the applicant to adduce evidence in support of the statements contained in the Petition, and of any other facts which may to him appear material, on any day to be named in such Order,

and which shall not be more than Thirty days from the date of the presenting of the Petition.

9. IT shall be competent to the Judge, if he shall consider the same necessary, to require notice to be served upon any party who may appear to him to be interested in the subject matter of the Petition, informing him or her, that such Petition has been presented, and calling upon him or her to shew cause against the same, if so advised.

10. ON the day named for hearing evidence, the Judge shall hear the parties, and if need be, their witnesses, and shall certify on the Petition whether he considers the Marriage proved or not.

Proceedings under the 30th and 31st Clauses.

11. SUITS respecting the dissolution or other avoidance of Marriages, on the grounds of adultery or desertion, shall be commenced and conducted in the same manner, or as nearly as may be, and be subject to the same Rules and Orders as are now in force, or may hereafter be enacted touching and concerning the form and manner of proceeding in District Courts in their ordinary Civil jurisdiction, so far as such Rules and Orders may be applicable to such suits. Provided, however, that in no case shall judgment be given by default, without evidence to satisfy the Court of the right of the party to the relief prayed for, or of the nature and extent of the wrong he or she has sustained.

12. THE Pleadings in such cases shall be, in substance, according to the Forms to these Rules appended, marked 3, 4, and 5, respectively.

13. WHERE parties who were married at the time the Ordinance came into operation, and whose Marriage has not been Registered, desire to obtain a decree of dissolution of such Marriage, they shall present a Petition to the Court having jurisdiction over the District where they reside, in substance according to the Form to these Rules appended, marked No. 6.

14. EVERY such Petition shall be accompanied by an Affidavit made by the parties verifying the facts stated in the Petition, of which they have personal cognizance.

15. THE COURT may thereupon proceed to make decree of dissolution. Provided, however, that it shall be competent to the Court to require evidence in support of any fact material to the application before it, before making such decree, if to the Court it shall appear right and expedient to do so.

Appeal.

16. APPEALS against any order or decree made by any Court under any of the sections of the said Ordinance, shall be taken and prosecuted in the same manner, and shall be subject to the same rules and regulations, as Appeals from any other order or decree of such Court in its ordinary jurisdiction.

Miscellaneous.

17. A full and complete Record shall be kept of all the proceedings had upon each Petition, reference, or suit under any of the sections of the Ordinance, including the original documents, examinations of parties, evidence of witnesses, and the orders or decree made thereon.

18. THE processes to be issued by the Court, in the proceedings adopted under any of the sections of the Ordinance, shall be subject, as to service, return, and in every other respect, to the rules and regulations as regards its ordinary process now or hereafter in force in the Court whence such process issues.

19. THE Judge or Magistrate shall, in every case in which a time is fixed by these Rules for the performance of any act, have power to extend the same to such time and with such qualifications and restrictions, and on such terms as to him may seem fit, and shall have full power to adjourn proceedings from time to time, when necessary.

_____ and _____, solemnly, sincerely, and truly declare and affirm, that they are not Christians, and that the matters and things herein set forth are true.

Passed in Council the Nineteenth day of December, One thousand eight hundred and Sixty.

No. 9.—An Ordinance to dissolve the engagements between the Government of Ceylon and the Ceylon Railway Company.

Preamble.

WHEREAS on the tenth day of June, One thousand eight hundred and fifty-six, a Provisional Agreement was made between the Right Honorable HENRY LABOUCHERE, then Her Majesty's Principal Secretary of State for the Colonies, on behalf of the Government of Ceylon, of the one part, and the Ceylon Railway Company, of the other part; which said Agreement was confirmed by the Ordinance No. 1 of 1856, which Ordinance Her Majesty was pleased to confirm and ratify.

AND whereas on the fifth day of December One thousand eight hundred and fifty-six, two Agreements, called respectively a Supplemental Agreement and a Provisional and second Supplemental Agreement, were also made between the above mentioned parties, varying and controlling in some respects the Provisional Agreement hereinbefore referred to, which said last mentioned Agreements were confirmed and ratified by the Ordinance No. 1 of 1857.

AND whereas on the 19th day of August, One thousand eight hundred and fifty-eight, a contract was entered into between SIR HENRY GEORGE WARD, then Governor of Ceylon, of the one part, and the Ceylon Railway Company of the other part, in pursuance of, and for the further confirming, ratifying, and giving effect to the said Provisional Agreement, as varied and controlled by the Supplemental Agreement, and the Provisional and second Supplemental Agreement,

AND whereas the Railway referred to in the said Agreements has been commenced, but it has been ascertained, that the same cannot be completed by the Ceylon Railway Company, excepting at a sum greatly exceeding all original estimates, and it is clear that the Contract was entered into, on both sides, under misapprehension of the cost of the work; and whereas, under these circumstances, it would not only be equitable, but satisfactory to both the contracting parties, that the Contract should be annulled on the basis hereinafter stated, through the agency of Her Majesty's Principal Secretary of State for the Colonies.

BE IT THEREFORE ENACTED BY THE GOVERNOR OF CEYLON, with the advice and consent of the Legislative Council thereof, as follows:—

Commencement. 1. THIS Ordinance shall come into operation from the date of Her Majesty's allowance and confirmation thereof.

Power to Secretary of State to annul existing Contract. 2. HER Majesty's Principal Secretary of State for the Colonies for the time being is hereby empowered, for and on behalf of the Government of Ceylon, to enter into a Contract with the Ceylon Railway Company, for the purpose of annulling the Contract and Agreements now subsisting between the Government of Ceylon and the Ceylon Railway Company, on the following basis, that is to say:—

THE Ceylon Government to pay to the Ceylon Railway Company, on the execution of the said Contract, or within such time as shall be therein agreed upon between the Secretary of State and the Ceylon Railway Company, all their Capital paid up, and the interest due thereon, up to the date of payment, and further to pay, accept, and assume all the debts, executory contracts, and liabilities whatsoever, of the said Company.

THE Ceylon Railway Company to effectually vest in and convey to the Government of Ceylon, all lands, and all things moveable and immoveable, corporeal and incorporeal, together with all rights, claims, moneys and property whatsoever belonging to the said Company, and to confer upon, give, and transfer to the said Government, all powers necessary to enable the said Government to obtain the full possession, benefit, and enjoyment intended by such effectual investment and conveyance.

AND the said Principal Secretary of State is empowered, for and on behalf of the Ceylon Government, to make and execute the requisite acts and deeds, and is further invested with all powers and authority necessary for the purpose of effectually carrying out the object of finally dissolving the engagements of the said parties on the basis above stated, in such manner, and on such terms, as to him shall appear just and expedient.

3. THE Ordinance No. 1 of 1856, intituled "*For giving validity to a Provisional Agreement entered into between Her Majesty's Secretary of State for the Colonies, and the Ceylon Railway Company, for the construction of a Railway between Colombo and Kandy;*" and the Ordinance No. 1 of 1857, intituled "*For the confirmation and ratification of two Supplemental Agreements relating to the construction of a Railway between Colombo and Kandy;*" shall cease to have operation and effect, on the complete execution of the Contract which the Secretary of State is hereby authorized to enter into with the Ceylon Railway Company.

Lands, &c., to
vest in Government
on annulment of
Contract.

4. AND to prevent doubts and disputes as to the title of the Ceylon Government to lands and immoveable property for the transfers of which it is necessary, by the Law now in force, that deeds should be executed within this Island, it is further enacted, that all such lands and immoveable property shall be taken and considered as vested in the Ceylon Government, fully and effectually, to all intents and purposes whatsoever, from the time that the Ordinances No. 1 of 1856, and No. 1 of 1857, shall cease to have operation and effect, as is hereinbefore provided.

Passed in Council, the Twenty-fourth day of December, One thousand Eight hundred and Sixty.

No. 10.—*An Ordinance to raise a sum not exceeding £400,000 upon Debentures, for paying off the Ceylon Railway Company.*

Preamble.

WHEREAS it is expedient that the Government of Ceylon should be empowered to raise a sum not exceeding Four hundred thousand pounds, on the credit of the Revenue

of Ceylon, to enable the said Government to pay off the Ceylon Railway Company. BE IT THEREFORE ENACTED BY THE GOVERNOR OF CEYLON, with the advice and consent of the Legislative Council thereof, as follows:—

Commencement.

1. THIS Ordinance shall come into operation from the date of Her Majesty's confirmation and allowance thereof.

Power to borrow money.

2. IT shall be lawful for the Government of Ceylon to borrow money for the purpose of paying off the Ceylon Railway Company, upon Debentures, to be issued by the said Government, to an amount not exceeding Four hundred thousand pounds.

Debentures.

3. EACH Debenture shall be for a sum not less than Fifty pounds, to be paid off at par at the end of seven years from the date of the Debenture; and shall bear interest at the rate of six pounds per centum per annum, payable half yearly, in manner hereinafter provided; and shall be issued in the Form in the Schedule to this Ordinance annexed, and shall be signed on behalf of the Government of Ceylon by the Agents General in London for Crown Colonies, or by such Public Officer as may be appointed by Her Majesty's Principal Secretary of State for the Colonies for that purpose.

Coupons.

4. TO each Debenture shall be attached fourteen interest Coupons, in the form in the Schedule to this Ordinance annexed, and which shall be signed by either of the said Agents General, or by the Public Officer to be appointed as in the previous clause mentioned. The Coupons attached to each Debenture shall be numbered successively, from number one to number fourteen; number one shall be made payable at a date six months subsequent to the date of the Debenture, and the other thirteen Coupons, each at a date six months later than the date of the Coupon immediately prior to it in order.

Debentures and Coupons transferable by delivery.

5. EACH Debenture, and all right to, and in respect of, the principal money secured thereby, and each Coupon, and all right to the interest payable in respect thereof, shall be transferable by delivery; and the principal moneys secured by such Debenture, and the interest payable in respect of such Coupon, shall be payable in London at the Office of the Agent to be appointed for that purpose by Her Majesty's Principal Secretary of State for the Colonies.

Debentures to be registered.

6. EACH Debenture shall, before being issued, be registered in a register book, to be kept by a person to be appointed for that purpose by Her Majesty's Principal Secretary of State for the Colonies, and, upon being so registered, shall be endorsed by him as registered.

Principal moneys and interest charged on the Revenues of Ceylon.

7. ALL Debentures and Coupons issued under this Ordinance, and the principal moneys and interest respectively secured thereby, shall be charged on, and be payable out of the Revenue of the island of Ceylon, in the like manner as other liabilities incurred on account of the Government of the said Island.

8. IT shall be lawful for Her Majesty's Principal Secretary of State, for the Colonies, for and on behalf of the Government of Ceylon, to appoint any Agent, to sell the Debentures or any number thereof; or to contract with any person, or any body politic or corporate, (for a commission or other reward, but free of all other cost and charge to the Government,) for the issue of the Debentures or any number thereof; or, if to the said Secretary of State it shall appear expedient, to sell the whole or any number of such Debentures to any person, or any body politic or corporate, for a price not below par.

Application of money borrowed.

9. THE money borrowed under the authority of this Ordinance, shall be applied to pay to the Ceylon Railway Company a sum equal in amount to their Capital paid up, and the Interest due thereon, up to the date of payment, and further to pay all the debts and liabilities of the said Company which the Ceylon Government shall have assumed.

Debenture to be paid when due to bearer.

10. UPON the expiration of the period fixed for the payment of any Debenture, the sum mentioned in the same shall, on demand, be paid to the bearer thereof.

Interest to cease at the end of seven years, unless payment of Debenture demanded.

11. NO interest shall be payable on Debentures the payment of which shall not be demanded at the expiration of the period mentioned therein.

Electric Telegraph Rules.

AMENDED RULES for the transmission of Messages by the Electric Telegraph, framed by the Governor and Executive Council, under the 6th Clause of the Ordinance No. 2 of 1857.

1. Messages will be received for transmission by Electric Telegraph at the under-mentioned rates of charge, and subject to the following Rules.

Messages of 16 words and under, including the name of the sender, the name of the person addressed, the date (if inserted) and the names of the places of despatch and destination (unless they be also the names of Telegraph Stations,) will be sent a single distance along the line for two shillings.

Messages, as above, exceeding 16 words, will be charged for at the rate of three half pence per word for every distance. A single distance is to be considered 400 miles, or any distance less than that; and for every additional single distance above 400 miles, there will be made an additional charge equal to the charge made on the same message for a single distance. Ceylon is to be considered one distance, without reference to its length of line, or the Station to or from which the Message may be sent.

No charge is made for stops, or for prepositions, or such words as "Messrs." "and Co.," "Mr.," "Mrs.," "Colonel," "&c.," occurring in the address of a Message.

The name of the sender, of the person addressed, and of the place of address, must be written on the face of every Message. And the Message must be authenticated by the signature of the sender. The date may be written, or not, at the option of the sender. Peon hire at the rate of Three-pence per mile will be charged for extra, if the Message be sent to any place at a distance beyond half a mile from a Telegraph Station.

2. No Message, however brief, will be charged for at less than a single rate, and the reply in every case be charged for separately.

3. The sender of a Message may prepay the charge for a reply, which must be limited to the number of words so prepaid for.

4. All Messages must be in the English Language, and must be pre-paid in Cash.—Peon hire, when it is chargeable, will be recovered by the Office which receives the Message.

5. No unpaid Message shall on any account be transmitted, except in the cases provided for by Rule 21. A violation of this Rule will subject the Assistant in charge to dismissal from the Department.

6. Should a Message in cypher be tendered for transmission simultaneously with a Message in ordinary language, the latter will take precedence of the former.

7. The sums paid by public functionaries for the dispatch of Messages will be recovered by the sender, by Vouchers countersigned by the Colonial and Military Secretaries in Colombo, and at other Stations, by the Chief Civil and Military Authorities, each for his own Department.

8. Repetition price will be charged for every Service Message containing numbers, or referring to Financial matters.

9. Violation of secrecy on the part of any Officer, Assistant, Clerk, or Signaller in the Telegraph Department will be punished, in addition to the penalties provided for by the 11th Clause of the Ordinance No. 2 of 1857, by dismissal from office, forfeiture of arrears of pay, and a declaration to be published in the Government Gazette, of the incapability of the offender ever after to hold any Public Office; and it must be distinctly understood, that it will be considered a breach of confidence, subjecting the party offending to the punishment hereinbefore mentioned, to disclose the contents of any Message not intended for publication.

10. Officers in charge of Telegraph Stations may refuse to transmit a Message which may be of a decidedly objectionable character. Should the character of the Message be disputed, the matter may be referred to the Colonial Secretary, if the dispute occurs at the seat of Government; or to the chief Civil or Military Officer, if it occur at any other station.

11. Messages shall be transmitted in the order of their receipt in the Telegraph Office. Should two or more Messages be tendered for transmission at the same time, the shortest shall have the precedence, without reference to its relative importance, except as regards Messages from Government Officials, in cases of pressing Public emergency and importance, when priority of dispatch may be claimed by the sender. The Deputy Superintendent will bring to the notice of Government, any case of a Public Officer insisting on priority of dispatch without reason.

12. Messages may be repeated back from Stations at the request of the sender, on payment of half-price extra. Refunds, for errors, will only be made when repetition has been paid for.

13. No Message or Messages, beyond 200 words in all, can be sent at one time by one individual or firm; and no second Message can be sent by the individual or firm, till after the lapse of three hours, unless the line be free, and not required by any one else.

14. Messages will, until otherwise notified, only be received between sun-rise and sun-set.

15. It shall be discretionary with the Assistant in charge to exclude Visitors from the signalling room during the receipt or transmission of Messages.

16. News and Messages shall be conveyed in the following order:—

1st. Intelligence of the English and China Mails.

2nd. Messages for the Press.

3rd. Messages for Depositors for Messages by Mail Steamers.

4th. Messages for Non-Subscribers.

17. Overland intelligence, or other Public news of great importance, will be given to the Press free of charge. At Stations where Newspapers are not published, copies of all public News-Messages will be sent to the chief Civil and Military Authorities, and posted at the entrance to the Telegraph Office.

18. All ordinary Shipping Intelligence will be transmitted in writing, at stated intervals, to the Master Attendant, and to the Post Office. Important Shipping Intelligence will be transmitted, immediately on receipt, to the same authorities.

19. Special notice of the arrival of any specified vessel will be sent immediately to the residence or office of any person resident at a Telegraph Station, who may require it, at a charge of Sixpence, in the case of a Subscriber, and of Two shillings in the case of any other person.

20. In case of any irregularity, delay or interruption in the transmission of Messages, or the delivery of Notices or Reports, on public or private service, complaints should be made to the Deputy Superintendent or other Officer in charge of the Telegraph Department.

21. Messages will, under these Rules, be received by Post from Europe or elsewhere for transmission, if money be deposited beforehand sufficient to pay for the transmission.

22. Messages will also be sent to the Post Office in letters, bearing Postage, when instructions to that effect are sent with the Message.

23. The accuracy of Messages is not guaranteed.

24. The foregoing Rules are provisional, and together with the rates of charge, are subject to revision and alteration from time to time.

By His Excellency's Command,

W. C. GINSON,

Acting Col. Secy.

Colombo, 9th August, 1860.

NOTICE.

A GENERAL COMPLAINT OFFICE for all India having been established in Calcutta, it is requested that all Applications for refunds on account of delays, or non-delivery of messages, as well as Complaints concerning messages transmitted by Telegraph, may be addressed to F. G. TEALE, Esq., Assistant Deputy Superintendent Electric Telegraphs, Calcutta.

NOTE. 1.—Where property of different tenures or holdings, or held under different titles, contracted to be sold at one entire price for the whole shall be conveyed to the purchaser in separate parts or parcels, by different deeds or instruments, the purchase or consideration money shall be divided and apportioned in such manner as the parties shall think fit, so that a distinct price or consideration for each separate part or parcel may be set forth in or upon the instrument of conveyance relating thereto; which instrument shall be charged with the duty in respect of the price or consideration money therein set forth.

2.—And where property, contracted to be purchased by two or more persons jointly, or by any person for himself and others, or wholly for others, at one entire price for the whole, shall be conveyed in parts by separate deeds or instruments to the persons for whom the same shall be purchased, for distinct parts or shares of the purchase money: the instrument of conveyance, of each separate part or parcels shall be charged with the duty, in respect of the sum of money therein specified as the consideration for the same.

3.—But if separate parts or parcels of such property shall be conveyed to, or to the use of or in trust for different persons, in and by one and the same deed or instrument, then such instrument shall be charged with the duty in respect of the aggregate amount of the purchase or consideration money therein mentioned to be paid or agreed to be paid for the property thereby conveyed.

4.—Where any person, having contracted for the purchase of property but not having obtained a conveyance thereof, shall contract to sell to any other person and the same shall in consequence be conveyed immediately to the sub-purchaser; the instrument of conveyance shall be charged with the duty, in respect of the purchase or consideration money therein mentioned to be paid or agreed to be paid by the sub-purchaser.

- 5.—And where any person having contracted for the purchase of property, but not having obtained a conveyance thereof, shall contract to sell the whole or any part or parts thereof, to any other person or persons, and the same shall, in consequence, be conveyed by the original seller to different persons in parts or parcels; the instrument of conveyance of each part or parcel thereof shall be charged with the duty in respect only of the purchase or consideration money which shall be therein mentioned to be paid or agreed to be paid for the same, by the person or persons to whom or to whose use or in trust for whom the conveyance shall be made, without regard to the amount of the original purchase money.
- 6.—And in all cases of such sub-sales as aforesaid, the sub-purchasers, and the person immediately selling to them, shall be deemed and taken to be the purchasers and sellers, within the intent and meaning of the provisions and regulations of this Ordinance relating to the duties on conveyances of property hereby imposed.
- 7.—But where any such sub-purchasers shall take an actual conveyance of the interest of the person immediately selling to him, which shall be chargeable with the duty in respect of the purchase or consideration money paid or agreed to be paid by him, and shall be duly stamped accordingly: the instrument of conveyance to be afterwards made to him of the property in question by the original seller, shall be exempted from the duty, and be charged only with the duty on a notarial deed.
- 8.—And where any property, separately contracted to be purchased of different persons, at separate and distinct prices, shall be conveyed to the purchaser, or as he shall direct, in and by one and the same instrument; the instrument shall be charged with the said duty in respect of the aggregate amount of the purchase or consideration monies therein mentioned to be paid or agreed to be paid for the same.
- 9.—Where any lands, or other property shall be sold and conveyed, subject to any mortgage, bond, or other debt, or to any gross or entire sum of money, to be afterwards paid by the purchaser, such sum of money or debt shall be deemed the purchase or consideration money or part of the purchase or consideration money as the case may be, in respect whereof the duty is to be paid.
- 10.—And where there shall be several deeds, instruments or writings, for completing the title to the property sold; such of them as are not liable to the said *ad valorem* duty, shall be charged with the duty to which the same may be liable, under any general or particular description of such deeds, instruments or writings contained in this Schedule.
- 11.—And when any deed or instrument, operating as a conveyance on the sale of any property, shall operate also as a conveyance of any other than the property sold by way of settlement, or for any other purpose, or shall also contain any other matter or things besides what shall be incident to the sale and conveyance of the property sold, or relate to the title thereto, such instrument shall be charged, in addition to the duty to which it shall be liable as a conveyance, with such further Stamp Duty, as any separate deed containing the other matter, would have been chargeable with.

Exemptions.

All Affidavits or Affirmations for verifying service of process;—all orders for the release or discharge of Civil Prisoners.—All warrants of attachment for non-attendance or contempt issued by the Court at its own instance.

Provided also that no Queen's Advocate or Deputy Queen's Advocate suing or being sued or intervening in any suit *virtute officii*; and no person duly admitted to sue, defend or intervene as a pauper shall be required to use any stamps in Civil proceedings in the District Court. But if Judgment for costs shall be given in favor of such Advocate or pauper, the value of such Stamps as would have been used by him if he had not been allowed to proceed without using Stamps, or the value of such part thereof as shall be decreed by the said Judgment shall be paid by the party against whom such Judgment shall have been given, to the Commissioner of Stamps or to the Secretary for and on behalf of such Commissioner, and in failure of payment the said Secretary shall insert the said value in the Writ of Execution issued by the party in whose favor such

Judgment shall have been given and shall pay the said value when recovered to the said Commissioner from the first amount levied under the said writ; or if no such writ be issued, the said Secretary shall issue a Writ of Execut on free of Stamp Duty for the recovery of the said value to be appropriated in like manner—Provided that if the said value be inserted by the said Secretary as aforesaid in the writ issued by the party in whose favor Judgment has been given, the first proceeds of such writ shall be applied to the payment of the fees due to the said Advocate and to the Advocate or Proctor, if any, who has conducted the case of such pauper; and after such appropriation the proceeds shall next be applied to the payment of the said value of Stamps.

And no Summons, Subpoena, Warrant of Arrest, or in Execution, nor any other Citation or Writ whatsoever which has once been issued out of the Court and returned by the Officer to whom it was directed, shall on any pretext whatever, be re-issued, unless any such process has been returned not served or executed by reason that the party could not be found, or had left the Jurisdiction of the Court, or by reason that no property of the debtor or none sufficient to satisfy the exigency of any Writ of Execution could be found. Provided always, that in respect of any Subpoena or Subpoenas, the same may be re-issued, although served, in case the Judge shall, on good cause shewn, so order.

Provided also, that in appeals to the Supreme Court, the appellant shall deliver to the Secretary of the District Court, together with his petition of appeal, the proper Stamp for the decree or order of the Supreme Court which may be made on such appeal.

All Matrimonial and Testamentary proceedings shall be charged as in the 31 Class.

IN THE COURTS OF REQUESTS.

Every Affidavit or Affirmation.—Bail bond, or other bond of recognizance.—Commitment.—Copy of the Decree or Judgment.—Notice of interlocutory Judgment.—Petition of appeal.—Summons to defendant or defendants without reference to number.—Summons to intervenient or intervenients without reference to number.—Warrant of attachment.—Warrant of Execution.

Class—1	—	under £2...	0 6
2	—	£2 and under £5...	1 0
3	—	5 and upwards...	2 0

Every Office Copy of any matter of record.—Subpoena to each witness.—*Exhibit of each unstamped document.*—*Transcript of each document.*

Class—1	—	under £2...	4 2
2	—	£2 and under £5...	4 6
3	—	5 and upwards...	1 0

Poundage at the rate of one per centum on all monies levied in execution, either by sale, or by payment of the debtor to the Fiscal or his Deputy; although the creditor becomes purchaser of the property sold in execution, and obtains credit for the purchase money, in reduction of the amount of the Writ.

Exemptions.

All Affidavits or Affirmations, for verifying service of process; all warrants of attachment issued by the Court at its own instance.

Provided also, that no Government Officer suing or being sued, or intervening in his official capacity, shall be required to use any Stamps in any Court of Requests. And no person duly admitted to sue, defend, or intervene as a pauper, shall be required to use any Stamps in the said Court. But if Judgment for Costs shall be given in favor of such Govern-

ment Officer or pauper, the value of such Stamps as would have been used by him if he had not been allowed to proceed without using Stamps, or the value of such part thereof as shall be decreed by the said judgment, shall be paid by the party against whom such Judgment shall have been given, to the Commissioner of Stamps or to the Clerk of the Court in which the case shall have been instituted for and on behalf of such Commissioner, and in failure of such payment, the said Clerk shall insert the said value in the Writ of Execution issued by the party in whose favor such Judgment shall have been given, and shall pay the said value when recovered to the said Commissioner from the first amount levied under the said Writ; or if no such Writ be issued, the said Clerk shall issue a Writ of Execution free of Stamp Duty on the recovery of the said value to be appropriated in like manner.

And no Summons, Subpoenas, Warrant of Arrest or in Execution, nor any other Citation or Writ whatsoever, which has once been issued out of the Court and returned by the officer to whom it was directed, shall on any pretext whatever be reissued, unless any such process has been returned not served or executed by reason that the party could not be found or had left the Jurisdiction of the Court, or by reason that no property of the debtor or none sufficient to satisfy the exigency of any Writ of Execution could be found.

Provided always, that in respect of any Subpoena or Subpoenas, the same may be re-issued although served, in case the Commissioner shall, on good cause shewn, so order. Provided also, that in appeals to the Supreme Court, the appellant shall furnish to the Secretary of the District Court, the proper Stamp for the decree or order of the Supreme Court which may be made on such appeal.

No party shall be allowed to take any proceedings on or by virtue of any Judgment or Decree, without first taking a copy thereof.

INLAND POSTAGE.

LETTERS.

Upon letters not exceeding $\frac{1}{2}$ oz. in weight	1d.
Above $\frac{1}{2}$ oz. and not exceeding 1 oz.	2d.
Above 1 oz. and not exceeding 2 oz.	4d.
Above 2 oz. and not exceeding 3 oz.	6d.
and so on increasing 2d. for every additional ounce, or fractional part of an ounce.	

Upon letters forwarded to India by Dawk, $\frac{1}{2}$ oz. in weight	3d.
1 oz. in weight	6d.

and so on 6d. on every oz., or fractional part of an oz.

Letters forwarded unpaid will be charged double Postage. Should the person to whom the letter is addressed, refuse to receive it, the Postage will be charged on the sender.

Letters having affixed to them a Postage Stamp, or Stamps, the value of which shall be less than the rate of Postage to which they would be liable, will be charged double the amount of the difference, between the value of the Stamps affixed, and the Postage due upon them.

It is not compulsory to prepay by Stamp, but it much facilitates the business of this Department, if Stamps of the proper value are affixed to letters.

Stamps should always be affixed on the face of a letter or packet, and at the upper right hand corner.

Re-directed letters are charged with the single rate of Postage, from the place at which they are re-directed, independent of all other Postage that may already have been paid upon them.

Letters which persons refuse to receive are returned to the Office from whence they were dispatched, where they are opened, and returned to the senders who shall be charged with the Postage due upon such as have been sent unpaid.

Letters addressed to persons who cannot be found will be returned to the person sending the same, if known, but if not, they will be returned to the Office from whence they were first dispatched, and after the expiration of three months, they will be examined, and dealt with according to circumstances.

Letters received from India, by Dawk, are delivered free of Postage.

SHIP LETTERS.

Letters forwarded to, or received from, a British Colony or Foreign Country not passing through the United Kingdom, are charged at the rate of 3d. per $\frac{1}{2}$ oz.

REGISTRATION OF LETTERS.

Prepaid letters can be registered on the payment of a Registration fee of Six-pence.

PAPERS.

Papers are charged $\frac{1}{2}$ d.

Prepayment by Stamp is compulsory.

Newspapers, Prices Current, or Commercial Lists, need not be sent through the Post Office.

In forwarding a Newspaper, Price Current, or Commercial List, through the Post, the following Rules must be observed:—

1st. It shall be sent without a cover, or in a cover open at the sides.

2nd. There shall be no word of communication printed on the paper after its publication, or upon the cover thereof, nor any writing or marks upon it, or upon the cover of it, except the name and address of the person to whom it is sent, and the name and address of the sender.

3rd. There shall be no paper or thing enclosed in or with any such paper.

If the above Rules are not observed, such Paper, Price Current, or Commercial List will be charged as an unpaid letter.

The Postmaster General or any one authorised by him, may examine any Newspaper, Price Current, or Commercial list, for the purpose of ascertaining whether any other paper or writing whatsoever be enclosed or concealed in it.

A re-directed Newspaper, Price Current, or Commercial List will be forwarded without any additional postage being paid upon it, provided it has not been opened. If a Newspaper has been opened, it shall be charged with the same rate as it would be liable to were it then posted for the first time.

Newspapers received from abroad are delivered free of charge.

BOOKS.

Books not weighing more than 2 ounces are charged . . . 1d.

„ weighing 2 ounces, but not exceeding 4 ounces . . . 2d.

„ „ 4 „ do. 5 „ . . . 4d.

„ „ 8 „ do. 1 lb. „ . . . 8d.

and so on, charging 4d. for every additional $\frac{1}{2}$ lb.

The following Rules must be observed :

1st. The postage shall be prepaid in full, by means of Postage Stamps affixed outside the packet or its cover.

2nd. Every packet shall be sent either without a cover, or in a cover open at the ends.

3rd. A Book-packet, whatever may be the postage paid thereon, shall not contain any letter, closed or open, or any enclosure, sealed, or otherwise closed against inspection; nor shall there be any letter, nor any communication of the nature of a letter, written or printed, in any such packet or on its cover. Entries, however, merely stating who sends the book or other publication, or to whom it is given, shall not be regarded as a letter.

4th. No Book-packet will be received, if it exceeds Three pounds in weight.

5th. Any Book-packet which is not open at the ends, or has any letter, or any communication of the nature of a letter, written or printed in it, or upon its cover, shall be charged with the “unpaid” or double letter postage.

6th. If a Book-packet be not sufficiently prepaid with Stamps, but nevertheless bear a Stamp of the value of One penny or more, it shall be forwarded, charged with a book postage of double the amount of the difference between the value of the Stamps affixed thereto, and the postage to which the same would be liable if duly and properly stamped when posted.

Book-packets can be registered on the payment of a registration fee of Six-pence.

Books received from India by Dawk, are subject to the same rates of postage as books passing through the Island.

PARCELS.

The following are the charges leviable upon Parcels:

Upon parcels not exceeding 1 lb.			0s.	8d.
" exceeding 1 lb. and not exceeding 1½ lbs.			1	0
" " 1½ lbs.	"	2 lbs.	1	4
" " 2 lbs.	"	2½ lbs.	1	8
" " 2½ lbs.	"	3 lbs.	2	0

No parcel shall exceed Three pounds in weight; and every parcel shall be made up in a form which can be conveniently carried by a Post Office runner.

A parcel shall not contain any letter; and any parcel which shall be found to contain any letter, or any communication of the nature of a letter, shall be charged as an unpaid letter, according to its weight.

Prepayment optional. The postage may be paid either by Stamps or in money.

Parcels can be registered on the payment of a registration fee of Six-pence.

Parcels will only be forwarded on days when the weight of the ordinary Mails will permit of it.

GENERAL RULES.

Any person opening a Letter, Paper, Book-packet, or Parcel, is bound to pay the postage thereof; should it however appear, that a letter has been sent to annoy the person addressed, the Postmaster General may remit the postage of the same.

No dangerous substance is to be sent through the Post Office, under a penalty of Twenty pounds.

Money, Jewels, Ornaments, or other valuable articles, sent by Post, are forwarded at the entire risk of the senders, whether the letter or packet containing the same be registered or not, such letter or packet being charged with letter postage. Registration, however, affords greater security, and should be availed of in all cases where articles of value are transmitted through the Post.

Letters, Books, Packets, or Parcels, once posted at any Post Office, cannot be recalled on any pretence whatever.

Official Letters are to contain no private note, or private communication of any sort or kind, under a penalty of Five pounds. Any official letter suspected to contain any private communication, must be opened in the presence of the Postmaster General.

Letters from private individuals to Officers of Government, concerning matters in which they are personally concerned, are not deemed official, and must be paid for.

No Letter Book-packet, or Parcel can be registered, unless it is brought to the Post Office half an hour before the closing of the Mail or bag by which it is to be dispatched.

Private Expresses may be sent at the instance of any person, when considered practicable by the Postmaster General or his Deputies, at a charge of Six-pence per mile.

All Complaints requiring redress, such as surcharge of postage, mis-sending, or delay in the delivery of letters, &c., must be made to the Postmaster General, accompanied by the envelopes of the Letters referred to; the number of the delivery Peon should always be stated.

Securing Letters with Sealing Wax.—The Public are urgently recommended to close all letters, containing Remittances, Cheques, Bank Notes, or valuable documents, with *Sealing Wax*. Bank Notes ought always to be

divided, one half being sent after the receipt of the other half has been acknowledged.

Letters closed with Gum, or the ordinary wafer, can be opened without any difficulty, or the slightest chance of defection.

POSTAL NOTICE.

As much delay arises in the transmission of correspondence, from the absence of full information as to the Post Station nearest to which the party resides, it is requested that, in addition to the name of the residence, Estate, or village, the name of the Post town may also be given. When it is desired that Letters or Mail packets, passing through the Post, be delivered to an Agent or other party, it is requested that instructions may be given to that effect, upon the face of the letter, (that part which bears the address.)

MINUTE.

BY THE GOVERNOR.

IN virtue of the Ordinance No. 14 of 1856, the Governor, with the advice of the Executive Council, is pleased to direct that the following revised Rules with regard to the Post Office, shall be substituted for those issued on the 26th March, 1857:—

Expresses.

1. Private Expresses may be sent at the instance of any person, when considered practicable by the Postmaster General or his Deputies, at a charge of Six pence per mile.

Parcels.

2. Parcels other than Book-packets, shall only be forwarded by the Post on lines of road on which there are no private establishments by which they can be conveyed.

3. Parcels shall not be forwarded on days when the weight of the Mail would thereby be increased beyond the limit of 14 lbs.; and the Postmaster General at Colombo, or any person authorised to act for him at any Outstation, shall be permitted to refuse to receive such parcel, or, at the option of the person tendering the same, to detain it, till a day on which the smaller weight of the Mail will allow it to be sent.

4. No parcel shall exceed 3 lbs. in weight; and every parcel shall be made up in a form which can conveniently be carried by a Post Office runner.

5. A parcel shall not contain any letter; and any parcel which shall be found to contain any letter, or any communication of the nature of a letter, shall be charged with the "unpaid," or double Letter Postage, according to its weight.

6. Any parcel not exceeding one pound in weight shall be charged Eight-pence, and a further charge of Four-pence shall be made for every additional half pound, or any less weight.

Letters posted after Office hours.

9. In Colombo, Kandy, and Galle, Boxes will be open during the night, for the receipt of letters to be forwarded by the morning's Mails.

10. On the days for closing the Overland Mails at Colombo and Kandy, the packets for such Mails will be made up at five o'clock p. m., precisely; but letters will continue to be received, without any extra charge, until six o'clock, and will be put up in the packet to be made up at Galle.

11. At Galle, a fee of Six-pence will be levied in money for every letter posted after the hour at which it shall have been notified that the packets by Mail Steamers will be closed.

Sale of Postage Stamps.

12. Postage Stamps will be sold at the Post Offices of any station where there is a Government Agent, or an Assistant Government Agent.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 30th September, 1858.

C. J. MACCARTHY,
Colonial Secretary.

COMPULSORY PRE-PAYMENT OF THE BRITISH PACKET POSTAGE,

POSTAGE ON OVERLAND LETTERS, VIA SOUTHAMPTON.

General Post Office,
Colombo, 4th January, 1859.

With reference to a Notice already given, with respect to the Compulsory Prepayment of Letters between Ceylon and England, the following communication received from the Secretary to the General Post Office, London, is published for general information.

GEORGE LEE,
Postmaster General.

General Post Office,
London, 2nd December, 1858.

SIR,—The Government of Ceylon having acquiesced in the proposal for extending the system of Compulsory Prepayment of Postage to all Letters posted in the United Kingdom addressed to Ceylon, or posted in Ceylon addressed to the United Kingdom, and having fixed the 1st January next as the date for bringing the measure into operation in the Colony, the same date has been decided upon for carrying the measure into effect in the United Kingdom.

But, in order to give full time to the Public in this Country to become acquainted with the measure, Letters posted in the United Kingdom addressed to Ceylon unpaid, or bearing a stamp or stamps of a less value than the single rate of postage, on or after the 1st proximo, and up to the 31st March next, will be forwarded charged with the full postage which should have been prepaid upon them when posted, and one rate in addition as a fine.

G. LEE, Esq.,
Ceylon.

I am, &c.,
F. HILL.

The following are the British rates of Packet Postage fixed by the Lords of the Treasury, according to which all Letters received "Unpaid" from, or despatched "Paid" to the United Kingdom via Southampton, will be taxed, viz:—

	English	Colonial	Total.
When not exceeding half an ounce	5d.	1d.	6d.
Above half ounce and not exceeding 1 ounce	10d.	2d.	1s.
1 do. and not exceeding 2 do.	1s. 8d.	4d.	2s.
2 do. and not exceeding 3 do.	2s. 6d.	6d.	3s.

and so on, increasing one shilling for every additional ounce weight, or any fraction thereof.

PRE-PAYMENT OF LETTERS VIA MARSEILLES.

The charges will be the same as on letters forwarded via Southampton, with the addition of a French Transit Rate of 3d. the $\frac{1}{4}$ oz.

The total charge on prepaid letters forwarded via Marseilles will be as follows, viz:—

When under $\frac{1}{4}$ oz. in weight	0l. 0s. 9d.
When weighing $\frac{1}{4}$ oz. and under $\frac{1}{2}$ oz.	0 1 0
do. $\frac{1}{2}$ oz. and under $\frac{3}{4}$ oz.	0 1 9

and so on charging 3d. for every $\frac{1}{4}$ oz. or fraction of a $\frac{1}{4}$ oz. in addition to the usual charges on letters forwarded via Southampton.

OVERLAND LETTERS

NOT SUPERSCRIBED "VIA SOUTHAMPTON."

Notice is hereby given, that under instructions received from the Postmaster General in London all Overland Letters not superscribed to be sent "via Southampton" will be forwarded by way of Marseilles. In this manner they will reach England some days earlier, but will subject the party receiving them to a much higher rate of Postage.

OPTIONAL PAYMENT OF POSTAGE ON LETTERS

SENT BY THE CONTRACT-STEAMERS TO INDIA AND CHINA.

UNDER instructions received from Her Majesty's General Post Office in London, it will in future be optional with parties writing by the Contract Steamers from Point de Galle to the Presidencies of India or to Hong-Kong, to prepay, or not, the British Packet Postage directed to be levied under the Treasury Warrant dated the 11th day of September 1845; but that postage *must* always be paid in advance on letters sent to any foreign country or possession.

The British Packet rate will be levied here on letters on which it shall not have been prepaid in the Presidencies of India or in Hong Kong.

REGISTRY OF OVERLAND LETTERS TO ENGLAND.

IN obedience to instructions received from Her Majesty's Postmaster General, Notice is hereby given, that prepayment of the Registration Fee upon letters posted in Ceylon, for transmission out of the Island, will, in future, be compulsory.

LETTERS FOR THE NORTHERN COUNTRIES OF EUROPE, VIA TRIESTE.

NOTICE is hereby given, that all Letters destined for the Northern Countries of Europe by the route "*via Trieste*," will be made up in separate packets addressed to the Austrian Post Office at Alexandria.

The Steam Postage of 1s. per $\frac{1}{2}$ oz. must be prepaid on all letters intended for despatch by way of Trieste, as well as the Colonial postage of 1d.

BOOK POSTAGE TO ENGLAND.

- 1.—A Book-packet may contain any number of separate Books, Almanacs, Maps or Prints, and any quantity of paper, vellum or parchment (to the exclusion of Letters whether sealed or open,) and the Books, Maps, Papers, &c., may be either printed, written, or plain, or any mixture of the three.
- 2.—The Name and Address of the sender, or any thing else not in the nature of a letter, may also be written or printed upon the envelope or cover of the packet, in addition to the Name and Address of the person to whom it may be forwarded.
- 3.—All legitimate binding, mounting, or covering of the same, or of any portion thereof will be allowed, whether such binding, &c., be loose or attached: as also rollers in the case of prints; markers (whether of paper or otherwise) in the case of books; and in short whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto.
- 4.—The rates of Postage on Book-packets will remain as heretofore, viz:

For each packet not exceeding 4 ounces in weight	0s. 4d.
For each packet above 4 ounces and not exceeding 8 ounces	0 8
For each packet above 8 ounces and not exceeding 1 pound	1 4

 and so on, increasing 8d. for every additional half pound.
- 5.—The following regulations, however, must be observed.
 Every packet must be either without a cover, or in a cover open at the ends or sides. It must not contain any letter, open or sealed, nor any sealed enclosure whatever. No packet must exceed two feet in length, breadth, or width. The postage of Book-packets must be paid *in advance*, and if within the United Kingdom, by means of stamps.
 Should a Book-packet be posted unpaid or with a pre-payment of less than Four-pence, or be enclosed in a cover not open at the ends or sides, or should it exceed the dimensions specified, such packet will be sent to the Dead Letter Office, and treated as at present.
 But when a Book-packet shall have been posted and insufficiently prepaid, and it shall appear that the single rate of Four-pence at least has been paid, such packet will be forwarded, charged with an additional postage equal to the deficiency, plus another single rate as a fine.
 Should any Letter whatever, closed or open, or any enclosure, sealed or otherwise closed against inspection, be found in a Book-packet, such letter or other enclosure

will be forwarded charged, not only with the postage due upon it as an unpaid letter, but also with an additional sum of Eight pence, being the single book post rate. The packet itself, however, in such case will be forwarded (provided the postage shall have been duly paid) without any extra charge.

6.—The packets can be sent *vid Southampton* only.

BOOK POST BETWEEN CEYLON AND INDIA, HONG-KONG, AUSTRALIA, MALTA, GIBRALTAR, AND MAURITIUS.

UNDER the provisions of a Warrant of the Lords of the Treasury, Books sent between Ceylon and the several Colonies specified above, will be subject, in all respects, to the same regulations as Books sent between the United Kingdom and Ceylon; and as regards Books between Ceylon on the one hand, and Malta or Gibraltar on the other, the same rates of postage will be charged, viz:—

For a Packet not exceeding 4 ozs. in weight	-	0s. 4d.
„ exceeding 4 ozs. and not exceeding $\frac{1}{2}$ lb.	-	0 8
„ exceeding $\frac{1}{2}$ lb. and not exceeding 1 lb.	-	1 4
„ exceeding 1 lb. and not exceeding $1\frac{1}{2}$ lb.	-	2 0
„ exceeding $1\frac{1}{2}$ lb. and not exceeding 2 lbs.	-	2 8

and so on, increasing *Eight pence* for every additional half pound or fraction of half a pound.

But upon Books sent between Ceylon and India, Kong-Kong, Mauritius, or the Australian Colonies, as such Books will not pass through Egypt, the rates of postage will be as follows:—

For a packet not exceeding 4 ozs. in weight	-	0s. 3d.
„ exceeding 4 ozs. and not exceeding $\frac{1}{2}$ lb.	-	0 6
„ exceeding $\frac{1}{2}$ lb. and not exceeding 1 lb.	-	1 0
„ exceeding 1 lb. and not exceeding $1\frac{1}{2}$ lb.	-	1 6
„ exceeding $1\frac{1}{2}$ lb. and not exceeding 2 lbs.	-	2 0

and so on, increasing *Six pence* for every additional half pound or fraction of half a pound.

“The terms ‘books, publications, or works of literature or art,’ in this Warrant used, shall, for the purposes of this Warrant, mean and comprise all such articles as, in their general character, are either literary, or consist of printed, written, engraved, or lithographed matter (although not strictly literary) including books (whether printed, written, or plain), publications or compilations (whether in print or in manuscript), almanacs, printed or lithographed letters, and such artistic productions, as prints, maps (whether on paper, or canvass, or cloth, and whether printed or written), and photographs, when not on glass, or in frames containing glass, and any description of paper, parchment, or vellum (whether printed, lithographed, written upon, or plain, or any mixture of the four), together with any binding, mounting, or covering, of or upon, or belonging to any such article or production, or any portion thereof, or of or belonging to any paper, parchment, or vellum, and including also any cases or rollers of prints or maps, book markers (whether of paper or otherwise), pencils, pens, or other thing usually appertaining to any such article or production, paper, parchment, or vellum, or necessary for its safe transmission, which shall be sent in the same packet with any such article or production to which they or it shall belong: Provided, nevertheless, that nothing herein contained shall extend to authorise the sending by the Post, under the provisions of this Warrant, of any patterns, or books of patterns, or papers of patterns, of any article or thing whatsoever.”—(*Extract from Treasury Warrant, dated 21st July, 1857.*)

POSTAGE ON LETTERS *VIA* MARSEILLES.

General Post Office, 25th November, 1855.

"Sir.—I am directed by the Postmaster General to inform you that a new Postal convention has just been concluded with France, and that the Provisions of this convention will come into operation, on the 1st January next.

"Among the advantages obtained by this country is a reduction in the amount of the transit rate paid to France, for the conveyance of that part of the India Mail, which is forwarded via Marseilles, from 1s. 8d. an ounce to 10d. an ounce, and in consequence of this reduction, the sum of three pence per quarter ounce, instead of 5d. per quarter ounce, will be chargeable, after the date above-mentioned, in addition to the uniform British and Colonial rate of six-pence per half ounce, upon all letters exchanged between the United Kingdom and Ceylon, making the total charge for a Letter.

s.	d.	
0	9	if not exceeding $\frac{1}{4}$ ounce.
1	0	if exceeding $\frac{1}{4}$ oz. and not exceeding $\frac{1}{2}$ oz.
1	9	if " $\frac{1}{2}$ oz. " $\frac{3}{4}$ oz.
2	0	if " $\frac{3}{4}$ oz. " 1 oz.
3	3	if " 1 oz. " $1\frac{1}{2}$ oz.
3	6	if " $1\frac{1}{2}$ oz. " $1\frac{3}{4}$ oz.

and so on.

This convention also reduces the charges upon Letters conveyed directly between France and Ceylon, and it has been agreed that upon all Letters forwarded between France and Ceylon, the entire British Sea Postage shall be collected in France, and accounted for to this Office.

Under this arrangement the Red Sea rate of one shilling the half ounce, hitherto levied in Ceylon, upon all Letters contained in the Mails to or from France will no

longer be chargeable, and no Postage for sea conveyance should hereafter be collected in Ceylon, either on the despatch of Letters to France, or on the delivery of Letters from France.

I have accordingly to convey to you the following instructions for your guidance.

1.—The reduced rate of nine pence per quarter ounce, and so on, to be collected upon all Letters prepaid in Ceylon, after the 1st January next, and forwarded to the United Kingdom via Marseilles.

2.—A corresponding reduction to be made in the postage of all prepaid Letters forwarded through the United Kingdom to British Colonies, or Foreign countries, when sent to the United Kingdom via Marseilles.

3.—No British Sea postage to be collected upon Letters or printed papers, received in the direct mails from France, nor upon Letters and printed papers forwarded from Ceylon in the direct mails to France.

I am, &c.
F. HILL."

GENERAL POST OFFICE, *Colombo*, 7th December, 1846.

THE subjoined copy of a letter from the Secretary to the General Post Office, London, is published for general information.

GEORGE LEE,
P. M. General.

Circular.

"GENERAL POST OFFICE, *London*, 30th September, 1846.

"SIR,—Much inconvenience and delay being frequently experienced, in consequence of parties residing in the British Colonies and other parts abroad (who may have occasion to complain of undue detention of their letters, or of such letters being charged with a higher amount of postage than that to which they are liable), omitting to forward to this office, with their complaints, the covers of the letters so delayed or overcharged; the Postmaster General is pleased to request that whenever application is previously made to you on the subject, (and in all cases when you have an opportunity of recommending the proper course to be pursued,) you will point out how important it is that the covers should invariably be transmitted: as much time will then be saved in investigating the complaint, and material assistance will be afforded to this department in ascertaining where the error has occurred.

To George Lee, Esq., &c. &c. &c., *Ceylon*.

"I am, Sir, &c. &c.
W. L. MADERLY."

Customs Regulations.

Regulations on Landing of Goods.

In landing the Cargoes of Vessels, the Masters or Supercargoes of which are Europeans, each separate boat-load shall be accompanied by a Note addressed to the Collector of Customs, specifying the number and description of the Packages, and the marks and numbers affixed thereon; or if in bulk, the quantity, as far as can be ascertained, of the Goods so sent by them; and if any Goods be found in any boat without a boat note, or if being accompanied by such boat-note, the boat be found out of the proper track between the ship and the appointed place of landing, such boat, together with the Goods, may be detained; and unless the cause of deviation be explained to the satisfaction of the Collector, they shall be forfeited, as provided by the 22d clause of the Ordinance No. 18 of 1852.

*Regulations respecting Goods in Transit by Mail Steamers.**

All Goods in Transit by Mail Steamers, and declared to be so by the Master at the time of the ship's report, may be transhipped without Bond or Entry.

Goods arriving by Mail Steamers may be removed by land to any other Port, subject to the following regulations:—

Upon the Owner or his Agent making application to remove Goods, they will be delivered to be passed on to the intended Port under Bond, to the satisfaction of the Collector, for their due arrival at such Port; who, previous to the delivery thereof, will cause the proper Seals of Office to be affixed thereto; and if such Seals be broken, or if the Package at the Port of Discharge be found not to agree with the particulars given in the Letter of Advice from the Port of Removal, such Package, with its contents shall be forfeited, and the Bond given for the safe delivery of the Goods will be enforced under the 41st clause of the Ordinance No. 18 of 1852.

Regulations for the Carrying of Goods Coastwise.

1. All Trade by sea from one part of the Island of Ceylon, to another part of the same Island, to be deemed Coasting Trade, and all Vessels while so employed therein shall be deemed to be Coasting-Vessels, and no part of such Voyage shall be deemed to be beyond Sea.

2. The Master of every Coasting Vessel which is to depart from any Port of this Island, shall deliver to the Collector an Entry Outwards in his name, and under his hand, of the name and destination of such Vessel, her Tonnage, and the number of the Crew, and thereupon the Collector shall grant a General Sufferance and authority for the shipping and lading of all goods, except such (if any) as shall be thereon expressly exempted.

3. The Master shall record on the said Sufferance all goods taken on board his Vessel, viz., the No. and description of Packages and the qualities, description and value of the goods therein; distinguishing, 1st, Goods Ex the Warehouse under Bond; 2ndly, Goods Foreign and Import duty paid, and shall afford proof that such duties have been paid; 3rdly, Goods the produce of Ceylon.

4. When goods are shipped for more than one Port, or for any place not a Port, the Master shall note separately the goods for each Port or Place.

5. Upon the production to the Collector of the Sufferance thus duly recorded and signed by the Master, and upon the furnishing by him of any further information that may be required, the Collector shall grant a clearance, according to the statement rendered by the Master, of the several sorts of goods laden on board such Vessel, and if the Master's account be false, he shall forfeit a sum not exceeding £10, and all goods

not appearing on the Clearance as duly shipped, shall be liable to seizure and forfeiture.

6. Coasting Vessels may call at places and Out Bays at which no Custom House Office is stationed, and may under the written Permit of the Collector of the Province in which such place is situated, land or ship any goods specified in the said permit, and the Headman, (duly authorized by the Government Agent for that Province,) of any place at which a Vessel may anchor, discharge, or ship Cargo, shall require the Master of such Vessel to produce to him the Clearance or Permit of such Vessel, and the Headman is enjoined and required, frequently to visit such Vessel, to examine and take an account of the goods landed or shipped, to note and write such particulars upon the Clearance or Permit of the Vessel, to detain such goods as shall be illegally landed or shipped, and to report any irregularity to the Government Agent or the nearest Officer of Customs.

7. All Timber, Salt, Arrack, or other goods which may be landed or shipped at places not authorized by the Clearance or Permit of the Vessel, will be liable to Forfeiture and may be seized by the Headman of such place, who is immediately to report the detention of the goods to the Collector of Customs for the District.

8. All Timber shipped without Permit of the Government or Assistant Government Agent, or being found not to agree with the description or dimensions specified in the Permit, shall and may be liable to seizure and forfeiture.

9. Coasting Vessels shall be allowed as Stores for the use of the Seamen on board, only the quantity of Arrack or Ruin sanctioned by the Government Proclamation of December 30th 1854, and the quantity so shipped as Stores, shall be so entered on the Clearance of the Vessel.

10. On the removal of goods from one Warehousing Port to another, the parties at the Warehousing Port shall enter into Bond in double the amount of the duties leviable, that the goods shall be delivered into the charge of the Officers of Customs at the Port of destination; and the Collector at the Warehousing Port where the goods are shipped shall advise the Collector (by Post) at the Port of destination, of the shipment of the same, and unless the goods be landed at the Port for which they are entered outwards, or be otherwise accounted for, to the satisfaction of the Collector, the Bond will be put in force, and in the event of any deficiency occurring between the Port of lading and the Port of discharge, the duty will be charged thereon.

11. All goods laden, waterborne, or unladen, contrary to the foregoing regulations, shall be forfeited, under the provisions of the 48th Clause of the Ordinance No. 18 of 1852.

12. No Vessel under 15 Tons burthen shall be employed in a Coasting Voyage, nor any Clearance or Permit granted to her, unless the Owner thereof shall have obtained from the Collector of the Port to which she belongs, a License, to be had on board on every such Voyage, specifying the name of such Vessel, the name of the Master, the name of the Owner and her Tonnage, and containing as many particulars of her dimensions and build as may be sufficient to identify her; but the Collector of Customs in each Province, may, if he should find it necessary, dispense in the case of Vessels and Boats plying solely on any Lake, Canal or River within his Province, with the Licenses, Sufferances and Permits aforesaid, and may substitute Boat Notes for Permits, &c.

13. The Tonnage of every such Vessel or Boat under 15 Tons shall be ascertained by measuring, 1st, The *Length between* the after part of the Stem, and the fore part of the Stern post; 2nd, The inside *Breadth* at midship; 3rd, The *Depth at midship*; multiply these three dimensions together, and divide the product by 130, and the quotient will be the amount of the Tonnage of such Vessels.

14. Before licenses, as hereinbefore provided for, be granted, the Vessel shall under the direction of the Collector of Customs, be inspected as to her being Sea-worthy, and her name, and the Port to which she belongs, shall be conspicuously painted on her Stern, and her Tonnage and No. of License marked upon the main Beam.

15. Licenses will be in force for the year in which they have been issued, and must be renewed immediately after the 1st January, in each year; all changes of Owners and Tindals, during the year, must be reported for endorsement upon the License by the Collector of Customs, and if the name of the person acting as Tindal, does not appear upon the License, the Officers of Customs may refuse to recognize or allow him to do business as such.

16. The wilful and fraudulent breach of these regulations will render the Vessel liable to seizure and forfeiture, and the Tindal or parties concerned to a fine not exceeding £10.

Twenty-five per cent. will be deducted from the Rent for all time exceeding Fifty-two weeks. A week's rent will be charged for all fractions of a week.

Goods may be lodged in the Queen's Warehouse for a period of Seven days free of charge, when, if not entered and removed for consumption, or bonded, they will be liable to the rates abovementioned.

Port Dues.

Two pence per Ton for Entry Inwards and at the rate of Two pence per Ton for Clearance Outwards on all Ships and Vessels arriving at or departing from any Port of this Island. Provided always, that such Dues shall not be payable on any Vessel entering Inwards or clearing Outwards in Ballast, nor in cases when the cargoes are reported for Exportation, and ultimately the Vessel leaves the Port without breaking bulk, or taking in merchandise for the purpose of exportation.

No Vessel either at the time of entering Inwards with cargo, or at the time of clearing Outwards with cargo, shall be subject to pay more than Five pounds a Port Dues, whatever may be the Tonnage of the Vessel. Provided always, that a Vessel shall pay Port Dues only at one Port in this Island during the same voyage.

Any Vessel employed for the conveyance of goods between one Port and another in this Island only, shall be allowed to compound for Port Dues for Twelve months at the rate of One shilling per Ton of the registered tonnage; and on payment thereof, the Collector or other Principal Officer shall grant a Certificate, which shall exempt such Vessel, while so employed, from any further demand for Port Dues during the period stated in such Certificate.

His EXCELLENCY THE GOVERNOR has directed the following Extract from Her Majesty's Instructions to be published for general information.

By His Excellency's Command,

Colonial Secretary's Office.
Colombo, 23d April, 1851.

C. J. MACCARTHY.
Col. Secretary.

Fortieth.—And whereas We have by Our said Commission appointing you Our Governor and Commander in Chief as aforesaid, given to you full power and authority in Our name and on Our behalf, but subject nevertheless to such provisions as are in that respect contained in your General Instructions, to make and execute in Our Name and under the Public Seal of Our said Island, Grants of Waste Land to Us belonging within the same to private persons, and for the Public uses of Our subjects there resident. Now We do hereby require and authorize you from time to time as occasion may require, to cause all necessary Surveys to be made of the vacant or Waste Lands to Us belonging in Our said Island, and to cause the persons making such Surveys to report to you what particular Lands it may be proper to reserve for Public Roads or other internal communications by Land or Water, or as the Sites of Towns, Villages, Churches, School Houses or Parsonage Houses, or as places for the burial of the dead, or as places for the future extension of any existing Towns, or Villages, or as places fit to be set apart for the recreation or amusement of the Inhabitants of any Town or Village, or for promoting the health of such Inhabitants, or as the Sites of Quays or Landing Places or Towing Paths, which it may at any future time be expedient to erect, form, or establish on the Sea Coast or in the neighbourhood of Navigable Streams, or as places which it may be desirable to reserve for any other purpose of Public convenience, utility, health or enjoyment, and You are specially to require persons making such Surveys to specify in their Reports, and to distinguish in the Charts or Maps to be thereunto annexed, such Tracts, Pieces or Parcels of Land within Our said Island as may appear to them best adapted to answer and promote the several purposes before mentioned. And it is Our Will, and We do strictly enjoin and require you that you do not under any pretence whatsoever grant, convey, or demise to any person or persons any of the Lands which may be specified as fit to be reserved as aforesaid, nor permit or suffer any such Lands to be occupied by any private persons for any private purpose.

Forty-first.—And We do further charge and require you not to make any Grant of Land to, or in trust for, or for the use of any private person unless in consideration of payment in money for the same after such Land shall have been previously put up for sale by Public Auction at such an upset price per acre as shall from time to time by Our authority be fixed for the same, and for this purpose you shall cause such Lands as from time to time shall remain unoccupied and ungranted to be put up for sale by Public Auction from time to time as you shall judge proper, and the highest bidding which shall at such Public Auction be made for any such Lands shall be accepted, provided that such bidding shall at least amount to such upset price per acre as aforesaid. Provided nevertheless, that no such bidding shall be finally accepted until the person or persons making the same shall have actually paid a Deposit of Ten per cent on the amount thereof, and shall have signed a Contract for the payment of the balance within one calendar month next thereafter. Provided nevertheless, and We do hereby declare, ordain, and appoint, that it shall be competent to you, on Our behalf and authority, in the execution of any direction which you may receive from Us through one of Our Principal Secretaries of State, to grant Land or Lands either in exchange for other Lands or in satisfaction of any equitable claim to Land. And it is Our Pleasure that all Grants of Land to be made by you in Our name to any person or persons in consideration of the payment of money for the same shall be made to such person or persons, and to his, her or their Heirs and Assigns, to be by him, her or them held in fee and common socage, yielding and paying to us, Our Heirs and Successors, a Quit Rent of one Pepper Corn by the year for the same, and every such Grant shall pass in Our name under the Public Seal of Our said Island of Ceylon, and shall be executed and delivered to the purchaser or purchasers, in such manner as has been customary, or as you shall judge fitting on the payment of the purchase money for the same, and not before; and then and not before the purchaser or purchasers shall be let in possession of the Land so bought by them; and for the delivery of every such Grant, and the preparing the same, the said purchaser or purchasers shall pay into the Colonial Treasury a fee amounting to forty shillings sterling money and no more, or of such smaller amount as you from time to time with the advice of the Executive Coun-

oil of Our said Island, shall appoint, and every such Grant shall previously to its being so delivered be enrolled in the Court of the District where such Land may be situate, and for making every such Enrolment the Registrar of such Court shall be entitled to receive from such Grantee or Grantees a fee of five shillings Sterling money and no more.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR is pleased to direct, that the undermentioned Minutes respecting the Scale of Fees chargeable by the Surveyor General's Department against purchasers of Crown Land, be cancelled, and that in lieu thereof the following Rules be observed:—

Minutes hereby cancelled.

Of the 22nd of November, 1845.

Of the 2nd of July, 1847.

Of the 16th of March, 1848.

Of the 18th of April, 1850.

Of the 2nd of December, 1853.

Of the 22nd of August, 1855.

RULES.

1.—All Crown Land will be sold by Auction, and no Waste Land will be exposed for Sale at a price below Twenty shillings per acre.

2.—The Surveyor General, in conjunction with the Government Agents, will make arrangements for bringing forward for sale, from time to time, such portions of Waste Land as may be by them deemed expedient.

3.—The preceding Rules shall not be held to preclude parties desirous of purchasing any particular tracts of Land, from applying to the Government Agent for the Sale of them accordingly. But the Surveyor General and Government Agents will exercise their own discretion in respect to complying with any such application,—and the applicant will not be at liberty to enter upon the Land for any purpose, without permission of the Government Agent. It will also be distinctly understood, that the making such application will give the applicant no claim whatever to the Land, if put up for Sale, in preference to any other person.

4.—The following (reduced) Fees will be recovered by Government, in aid of the expenses incurred by the Surveyor General's Department, in the preparation of Land for sale, and completion of Title plans.

For the opening or defining of boundaries not opened, or incorrectly opened by the Proprietors of Land, their Agents or Managers, after such Proprietors or their Agents or Managers have received three weeks' notice, in writing, from the Surveyor General or Government Agent to open or define such boundaries, one Rupee per linear chain of boundary.

For appraisements, special surveys, or copies of documents, special terms will be made.

5.—Parties making application for the sale of any Land under the 3d Rule hereof, may be required by the Surveyor General or Government Agent to make a deposit, to the satisfaction of the latter officer, of the probable Survey Fees according to the scale in Rule 4.

6.—Copies of the Plans, when completed, will be lodged in the Office of the Surveyor General, where they will be marked off in a general Topographical index, which, with a Register, will be kept for public inspection, and Registers will also be kept for the same purpose at the Offices of the Government Agents, of the lands sold in their respective Provinces.

7.—The Sales will be held, when practicable, at the Government Agent's Office, twice a month, after Six weeks' public notice, by Proclamation in the Government Gazette, and care will be taken to prevent the days of Sale in the several Provinces from interfering with each other.

8.—On the day of Sale the Government Agent will specify the preparation Fees, recoverable through him by the Surveyor General's Department under this Minute, and will stipulate that they must be paid in full by the purchaser on the day of Sale, together with 10 per cent. on the amount actually bid for the Land.

9.—The balance of the purchase money must be paid within one month from the day of Sale, and in default of such payment the sale will be considered void, the 10 per cent. will be forfeited, and the Government will be at liberty to re-sell the Land.

10.—The following Fees for the preparation of Title Deeds must be paid into the Colonial Treasury.

On all grants of Land sold for a sum not exceeding £5.—one shilling.

For more than £5.—four per cent.

But in no case is such fee to exceed 40s. for any one grant: and the Secretary of the District Court of the District in which the Land granted shall be situate, shall be entitled to a fee of five shillings for enrolling the grant.

11.—On the receipt of the purchase money in full, and of the Fees enumerated in this Minute, the Government Agent will apply to the Colonial Secretary for a grant in Duplicate. One Copy shall be delivered to the purchaser, who shall forthwith be put in possession of the Land, and the other be enrolled in the District Court.

12.—The Crown reserves to itself the right of making and constructing such Roads, Bridges, Canals or Water-courses, as may be necessary for public purposes in all Lands purchased as above, and also to such indigenous timber, Stone, clay, and other materials, the produce of the Land, as may be required for making and keeping the said Roads, Bridges, Canals or Water-courses, in repair, and for any other public works. The Crown further reserves to itself all mines of precious metals.

13.—This Minute to take effect from the 1st January, 1858.

By His Excellency's Command.

MINUTE

BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR is pleased to direct that the following rules for the payment and adjustment of Costs attending the Survey of Lands intended to be brought to sale, be substituted for those laid down in the Minute of the 7th October 1844.

The Treasurer will, on his application, furnish the Principal Officer in charge of the Survey Department, with the necessary funds to meet the expenses of Survey; and he will debit these sums as advances, for the settlement of which the Principal Officer in charge of the Survey Department will be responsible.

The recovery of these sums from the purchasers of Land will be made by the

Government Agents and remitted to the Principal Officer in charge of the Survey Department, and by him forwarded to the Treasurer in liquidation of the advances outstanding.

If any Land is not sold within one year from the date of its being advertised for sale, the expense of Survey on account of such Land is to be brought to account as a charge by the Principal Officer in charge of the Survey Department—in order to which it will be necessary in all cases, that proper Vouchers should be obtained for every payment as incurred.

Should any such Land be afterwards sold, the costs of Survey recovered are to be paid by the Principal Officer in charge of the Survey Department to the Treasurer, to be accounted for as an Incidental Receipt.

The Principal Officer in charge of the Survey Department will transmit to this Office quarterly a Return of all un-sold Lands, the expenses of surveying which shall have been charged as an expenditure—making a note of such as may have been subsequently sold.

He will also furnish the Auditor General with a quarterly Account of all payments made by him out of the Advances received from the Treasurer, and of the recoveries on account—accompanied by a separate Account of the payments finally brought to account, and of the recoveries since made.

These rules are not, however, to apply to the advances already made to Government Agents by the Treasurer, which they will settle in terms of the Minute of the 7th October 1844—returning to him any balance that may be now in their hands.

By His Excellency's Command,

P. E. WOODHOUSE.

Actg. Col. Secy.

Colonial Secretary's Office,
Colombo, 24th November 1845.

MINUTE. BY THE GOVERNOR.

It being the desire of Her Majesty's Government, that advantage should be taken of the additions made, and about to be made, to the Department of the Surveyor General, under the Surplus Fund Ordinance,—in the first place, to bring to a settlement those native land claims, upon which a deposit was paid in 1848; and secondly, to facilitate the acquisition of Crown Land in small holdings, whenever a sufficient number of persons, Native or European, shall have made known, through the Government Agent, their readiness to become the purchasers of land in a particular District, and shall have made such Deposit as may be required, to prove the bona fide character of the application.

It is hereby made known,

1st. That the Surveyor General is authorised, and empowered, to cause lands thus applied for, to be surveyed, and put up to sale by Public Auction; and that he will be prepared, as the new organization of his Department advances, to commence this duty, in various parts of the Island, when the applications are sufficiently numerous.

2ndly. That the Survey will be, to all intents and purposes, an accurate, and registered Survey, the position of the Lots put up to Sale being defined by artificial Landmarks, as well as by the usual boundaries,—both, to be maintained at the cost, and upon the responsibility, of the purchaser, so that there will be no difficulty in incorporating the properties thus acquired with the Trigonometrical Survey of the Island, as it proceeds.

3rdly. That the Survey Plans delivered by the Surveyor General, will be detailed plans, and the Grants to be issued in conformity therewith, will give a legal Title to the land, whether the Trigonometrical Survey of the District be, or be not, completed, so that the land granted may be sold, mortgaged or otherwise alienated as at present.

4thly. The Surveyor General will publish certain Rules, with respect to the making, and upkeep, of Boundaries, with which every purchaser will be expected to comply.

By His Excellency's Command,

C. J. MACCARTHY.

Col. Secy.

Colonial Secretary's Office,
Colombo, 14th January, 1857.

NOTICE.

HIS EXCELLENCY THE GOVERNOR having received from His Grace the SECRETARY OF STATE the following amended Regulations relative to the privileges in the acquisition of Lands allowed to Military and Naval Officers purposing to settle in certain of the British Colonies, has directed the same to be published for general information.

By His Excellency's Command,

C. J. MACCARTHY.

Col. Secy.

Colonial Secretary's Office,
Colombo, 25th August, 1853.

Information for the use of Military and Naval Officers proposing to settle in certain of the British Colonies.

1. Privileges in the acquisition of Land are at present allowed to Military and Naval Officers in the Colonies of New South Wales, Victoria, Van Diemen's Land, South Australia, Western Australia, New Zealand, Ceylon, and the Cape of Good Hope. As, however, the controul of the Waste Lands of the Crown in New Zealand is vested in the Legislature of that Colony, it must be distinctly understood that Her Majesty's Government cannot guarantee the continuance of the following Regulations, but that they will be liable to be altered or discontinued by the local Legislature; and the same caution will be applicable to any other of the Colonies named, in which the same controul may hereafter be transferred to the local Legislature.

The same privileges are extended to Officers of the East India Company's Service in Van Diemen's Land.

2. In the abovenamed Colonies, land is disposed of by sale only; but Officers purchasing land, are allowed a remission of the purchase money, according to the undermentioned scale.

Field Officers, of 25 years' service and upwards, in the whole	£600
Field Officers, of 20 years' service and upwards, in the whole	500
Field Officers, of 15 or less years' service, in the whole	400
Captains, of 20 years' service and upwards, in the whole	400
Captains, of 15 years' service or less, in the whole	300
Subalterns, of 20 years' service and upwards, in the whole	300
Subalterns, of 7 years' service and upwards, in the whole	200

Subalterns, under 7 years' standing, are not entitled to any remission in the purchase of Land.

Regimental Staff Officers, and Medical Officers of the Army and Navy, are allowed the benefit of this Rule.—But Military Chaplains, Commissariat Officers, and Officers of any of the Civil Departments of the Army; Purser, Chaplains, Midshipmen, Warrant Officers of every description, and Officers of any of the Civil Departments of the Navy, are not allowed any privileges in respect of land. Although members of these classes may have been admitted formerly, and under different circumstances, they are now excluded. Mates in the Royal Navy rank with Ensigns in the Army and Mates of three years' standing, with Lieutenants in the Army, and are entitled respectively to corresponding privileges in the acquisition of lands.

3. In order to take advantage of this privilege, Officers of the Army and Navy on full or half pay, should provide themselves with a Certificate from the Office of the General Commanding-in-Chief, or of the Lords Commissioners of the Admiralty, or of the Master General of the Ordnance, shewing that their settlement in a British Colony has been sanctioned, and stating their rank and length of service. No document from the Office of the Secretary of State is necessary.

4. This Certificate will not on any account be issued more than once to the same Officer, or to any Officer on half pay who shall for two years immediately preceding the date of this Notice have resided in the Colony in which he seeks to make it available.

5. Gentlemen who have ceased to belong to Her Majesty's Service will not be allowed advantages in the acquisition of Land. This rule, however, is not to affect Officers who, having obtained permission to settle in a British Colony, have quitted the service for the purpose of doing so. But, in such cases, it will be necessary that their Certificate of service and permission should bear the date of their retirement from the service, and that, within one year from that date, but not otherwise, it should be presented to the Governor of one of the abovenamed Colonies, which will be sufficient warrant for allowing the bearer the advantages to which his rank and length of service may entitle him according to the above scale.

6. The object of the Regulations being to encourage the permanent settlement in the abovenamed Colonies of Military and Naval Officers, and it being necessary to prevent those who have no intention of settling there from taking advantage of the privilege, Officers will not, for the space of two years from the making use of their Certificates, receive a Crown Grant for any Land purchased by such Certificates, but will, in the mean time, receive a "Location Ticket." At the expiration of two years, the Officer, on shewing to the satisfaction of the Governor that he is *bonâ fide* a resident Settler in the Colony, and has so resided continuously since receiving his "Location Ticket," will be entitled to a Crown Grant in exchange for it. If, however, application should not be made for the exchange of the "Location Ticket" within 12 months from the expiration of the two years for which it is granted, it will be considered to have lapsed, and the Land will be opened to sale or grant. In case of the Officers dying while holding a "Location Ticket," the Land to which it refers will be transferred to his legal representative.

In case of such death occurring before the "Location Ticket" is obtained, the Governor of the Colony is authorized to make the Certificate available in favour of the Child or other nearest representative of the deceased Officer, as he may find advisable.

7. For the convenience of Officers, the following heads are subjoined of the Rules for the sale of Land in the Australian Settlements:—
All Lands are disposed of by sale alone, and must have been once at least exposed to public auction.

The lowest upset price is not less than £1 per acre; but the Government has power to raise the same by Proclamation, though not again to reduce it.

The Lands are distinguished into three different classes; viz., Town Lots, Suburban Lots, and Country Lots.

Upon Town and Suburban Lots, as well as upon a proportion not exceeding one-tenth of the whole of the Country Lots offered for sale at any auction, the Governor has the power of naming a higher than the general or lowest upset price: these last to be designated "Special Country Lots."

Town and Suburban Lots are in no case disposed of except by public auction; but Country Lots, which have already been put up to public auction, and not sold, may be disposed of afterwards by private contract at the upset price.

No Lands are sold by private contract, except for ready money. When sold by public auction, one-tenth at least of the whole purchase-money must be put down, and the remainder within one calendar month, or the deposit is forfeited.

Lands are put up for sale in Lots not exceeding one square mile in extent.

8. In Ceylon, Land is sold by auction at an upset price, which is to be fixed by the Governor, but which is not to be less than £1 per acre. Before the Lands are exposed for sale, they will be surveyed by the Government, and duly advertised.

9. At the Cape of Good Hope the upset price is 2s. per acre in the old Colony, and 4s. per acre in the District of Natal.

10. The several prices above-mentioned are of course subject to a revision at any time by the proper authorities, and the pecuniary amount of the Remission made to Officers cannot be increased on account of an increased value set upon the Lands.

July, 1853.

Salt.

Revised Regulations respecting the sale of Salt in the Northern Province.

THE following revised Rules regarding the issue of Salt for exportation from the Northern Province are published for general information.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 28th August, 1856.

C. J. MACCARTHY.

Col. Secy.

CHARTS compiled from the Surveys of the officers of the Indian Navy shewing the anchorage, and copies of sailing directions prepared by them in connection therewith, may be seen at the Offices of the Chief Secretary to Government at Fort William, the Colonial Secretary at Mauritius, and the Masters Attendant of Colombo and Galle.

The Salt will be shipped by and at the expense of Government if desired. The shipment of a cargo however cannot be guaranteed at any time out of the regular season for shipment as herein stated,* and in respect to any such shipment that may be made, the expenses actually incurred in respect to it must be paid in addition to the stated price of the Salt when shipped by the purchaser.

If desired, boats can be held in readiness from a fixed day to be wanted by the purchaser, at an extra cost of 1s. 6d. per boat per day. In the absence of such arrangement, it will take from 1 to 3 days, according to the size of the vessel, to collect the full number of boats required, though shipment can commonly be commenced in all cases with a smaller number of boats within 36 hours of arrival.

The Salt will be sold both at Jaffna and at Colombo. As regards sales at Jaffna, the persons in charge of the Stores at Tondemanar and Jaffna, are authorised to attend at once to applications, and to make arrangements for shipment, without the delay of reference to the Government Agent. The sales at Colombo and Galle will be made by the Collector of Customs at Colombo and Galle.

The quantity of Salt available will be published monthly or oftener as alterations in the quantity available may render necessary.

No Salt can be secured to any party in anticipation of the quantity that may become available. The available resources in men and boats being limited, not more than 100 tons can commonly be shipped in one day. This is published specially for the consideration of Commanders or Charterers of large Vessels, and also with reference to the consideration of there being more than one Vessel loading at the same time, to prevent disappointment from greater dispatch in loading, than is practicable, being expected.

All parties interested should also take notice that Export duty and Port dues will be payable.

Of the quantity that may be stated to be available, 500 Tons (when there is that quantity) will be reserved at all times to be at the disposal of the Colonial Secretary at Colombo. With reference therefore to any application that may be made at Jaffna when the stock on hand may not exceed 500 Tons, it would be necessary to ascertain that it had not been sold at Colombo, before such application could be complied with; and as regards the purchase at Colombo of any quantity exceeding 500 Tons, there would be no guarantee as to the excess above that quantity being available on the arrival of the vessel.

* The season for shipment at Jaffna is during January and February from Mandativoe, and at any time from Kaits. From Tondemanaar, the season is from March to September.

Church Fees.

(From the Government Gazette of July 5, 1851.)

WHEREAS it is expedient to alter the rate of certain Fees chargeable for the celebration of the occasional Services of the Church, and to remove all doubt as to their appropriation.—It is hereby ordered, that no Fee be henceforth charged for any such Service, which is not included in the annexed Table, as sanctioned by the Bishop of the Diocese, and confirmed by His Excellency the Governor; and that all Fees so charged (with the exceptions specified herein) be applied solely for the benefit of that Church or Burial ground in which the rite is solemnized.

Figures 1 to 0 the same as in Marryatt's
 Code of Signals.

A. First distinguishing Pennant. B. Second distinguishing Pennant.	C. Numeral Pennant. D. Telegraph. E. Rendezvous.
--	---

LOCAL SIGNALS—COLONBO.

Ship; <i>b</i>, Barque; Brig; <i>d</i>, Schooner; Sloop, cutter, or boat; Steamer; 3 masted at upper yard, 2 masted at lower yard;	<i>g</i>, one French Ship; <i>h</i>, two Barques; <i>i</i>, one masted Steamer and a Barque; <i>j</i>, one Ship and an American Ship, both of War;	<i>k</i>, two Schooners and a Sloop; <i>l</i>, two American Brigs; <i>m</i>, one Schooner and a two masted Steamer of War; <i>n</i>, 3 Sloops and an American Schooner.
--	--	---

GENERAL MEMORANDUM.

1. The upper yard is used for notifying the approach of three masted vessels only.
2. Square flags represent ships and brigs; swallow-tailed, barques; and pendants schooners and sloops.
3. The number of masts in the vessel approaching, corresponds with the number of colours in the flag.
4. Foreign ships are known by the national colour hoisted above the flag denoting the nature of the vessel.
5. A blue pennant over a flag signifies a ship of war, over the national colour a foreign one
6. Balls only denote the number of vessels of the same kind in sight, they are never hoisted above the flag they belong to: one denotes two, two three, &c.

A white flag pierced with a red ball (1st pennant) indicates the arrival of the English Mail at Colombo.

The 2d pennant, blue pierced white, indicates the arrival of the Mail Steamer from Calcutta.

9. The 3d pennant, red pierced white, indicates the arrival of the Mail Steamer from China

10. The numeral pennant, yellow and blue, indicates the arrival of the Mail Steamer from Bombay.

Medical and Surgical Hints.

ACCIDENTS AND EMERGENCIES IN THE JUNGLE.

These hints and instructions are intended to meet the emergencies of the far-off world, where a case may be urgent, and the doctor beyond reach. It cannot be too earnestly insisted on that the first best thing to be done when an accident has happened, is to send away at once for the doctor; if much time must elapse before he can be brought to the spot, or if his assistance cannot be obtained, the next best course to be adopted shall be set forth in these pages as shortly and intelligibly as possible. Happily for mankind, ordinary accidents require little more from the tenderness and intelligence of others, than the obvious suggestions of good sense, aiding the operations of nature, and committing to her the wonderful process of restoration, which to our encouragement is often seen equal to the necessity of the case, and bringing about a perfect cure or a well-adapted compensation.

We shall treat in due order of Bruises, Sprains, Wounds, Bleeding, Scalds and Burns Broken Bones, Dislocations, Drowning, &c., Sundry Ailments, Useful Medicaments.

BRUISES.—The best application for a bruise, be it large or small, is moist warmth; therefore a warm bread and water poultice, or hot moist flannels should be put on, as they supple the skin, so that it yields to the pressure of the blood beneath, and thereby the pain is lessened. If the bruise be severe and in the neighbourhood of a joint, it is well to apply some leeches on grown-up persons, but not on young children, because the bleeding may be continued to a very serious extent. Ten or a dozen should be spread over the whole bruised surface, and afterwards a poultice, or flannels should be applied, to be continued so long as pain and swelling remain. If the bruise be on a joint, the poulticing will often require to be long continued, on account of the stiffness which may attend it, and when left off, it is advisable to wrap up the joint in a soap plaster.

Be cautious about the knee or ancle, because too early use of these parts after injury often lays the foundation for serious mischief, and in scrupulous persons, especially those who are young, may run on to the loss of a limb.

SPRAINS.—It is worse to sprain a joint than to break a limb; and sprains are among the most severe accidents to which we are liable, not only in present suffering, but in their results. In general, the treatment of a sprain is to be conducted as a bruise with perfect rest; and if it be a knee or ankle, the person should lie on bed or on a sofa. Warm, moist flannels, a bread and water poultice on going to bed, and if the pain and swelling be considerable, leeches. When the tenderness is subsiding, and only a little pain and stiffness in the joint remain, a vinegar poultice is a very good application, as it produces a diversion of the low inflammation going on in the ligaments by bringing out a crop of pustules on the skin, at a time when the pressure in rubbing with any stimulating liniment cannot be borne. Beware of too early use of a sprained joint, which often swells a long time after the injury; in which case it may be bound with straps of sap plaster, or a roller.

WOUNDS.—Cuts or chops, if they be not large, and have not divided any important parts, are the most simple and manageable wounds. A large piece of flesh, even a finger or a toe, may be cut or chipped off, and the wound heal kindly and readily under proper treatment. But, occasionally, a very trifling and simple cut, in an irritable or intemperate person, will prove fatal from locked-jaw. If a cut or chop be not very deep, and if it do not bleed much, or even if it do bleed, but the bleeding can be staunched by bathing for a short time with cold water, it is generally of not much consequence, and can be easily and simply treated. The corresponding edges of the wound are to be brought together as perfectly as possible, and while thus held, some strips of plaster are to be laid across the wound, with a small space between every two, so as to allow the escape of an oozing fluid, which often continues for some hours. The edges of the wound should not be dragged tightly together, but merely kept in place by the plaster; and if the wound be in the finger, arm, toe, or leg, it is better that the ends of the plaster should not overlap, as there is always a disposition to swell in the neighbourhood of the wounded part; and then if the ends do overlap, it forms a tight band, which at least causes unnecessary pain, even if it do not set up greater mischief. If common sticking plaster, or strapping, be not at hand, court-plaster may be applied, or thin bands of tow, wound lightly round the part, and smeared with gum water or white of egg smeared on linen; or, in the absence of all these, a soft bit of linen may be wound round the part, which is quickly moistened by the oozing from the wound, and as it dries the linen sticks pretty firmly together. Should the bandage, of whatever kind, become

tight by the swelling, and cause pain, it should not at once be taken off, but the blade of a pair of scissors should be carefully run beneath it, and it should be divided from end to end, on the opposite side to the wound. This generally gives instant relief, and the dressing requires no further meddling with. It is always better to leave the dressing as long as it remains fast, and without pain, usually three, four, or five days, and if then taken off, either the whole, or the greater part of the wound will be found united.

But if the wound, or its neighbourhood, become painful, and throb, the dressing must be removed, which is best done by soaking in water of an agreeable warmth, or by covering with a wet poultice, which after a few hours softens the dressing, so that it can be easily removed. If the wound be not inflamed, that is, red and tender, and if the discharge from it be good, that is, straw-coloured, and of a creamy consistence, the dressing may be re-applied; but if the edges be red and inflamed, or if they be pale and slabby, if the wound gape, if the matter be watery and stinking, then a single strap or band is to be applied to keep the edges near together, and the part must be covered with a poultice till the pain and inflammation cease, and the matter be of a good kind. Do not mess a wound with Friar's balsam, Tincture of benjamin, or such nostrums, as they hinder rather than encourage its union; and for the same reason, use no greasy applications.

A clean stab, if of depth, although it should not cause any serious mischief, generally does not heal so readily as a cut, because it often unites near the surface, whilst its bottom lodges matter; and therefore, although for some days it may seem to heal very steadily, yet then it becomes painful, the wound opens, a gush of matter follows and this may be repeated once or twice before the cure is completed.

A bruised cut, is to be treated by endeavouring to unite the edges by sticking-plaster as in a clean cut; but if there be much bruising, the part destroyed must separate and be thrown off before the wound can heal. Apply a bread and water poultice first to moderate the inflammation; and as soon as matter begins to form, and the extent of the slough is marked, which is shewn by the dropping in of the dead part, with a narrow raw line between it and the living; then change it for a linseed meal poultice, which is to be continued till the slough is come out, and the gap is filled up with new flesh. When the new flesh gets above the edges of the wound, it is commonly known as *proud flesh*, and wrongly supposed to prevent the healing of the wound for it is in reality the material which is produced for that purpose. When the hollow of the wound has thus filled, the poultice may be left off, and the sore lightly bound with straps of sticking-plaster, or a linen bandage moistened with cold water, and carried a few turns round, will often answer the same purpose. If the new flesh rise much above the wound, it must either be kept down by pressure, or it may be brushed lightly over with a bit of bluestone or blue vitriol; and sometimes merely a bit of dry lint will suffice.

BLEEDING—From a wound may generally be stopped by pressure;—if in the arm, near the arm-pit, let a by-stander press his thumb firmly into the neck, behind the middle of the collar bone; if in the thigh, the pressure is made immediately below the crease in the groin, the patient lying on his back. When the injury is below the middle of the upper arm, or below the middle of the thigh, recourse may be had to the stick-tourniquet, by passing a stout handkerchief once or twice round the limb, some distance, if possible, above the wound, and tied tightly and firmly. A piece of rough stick is then pushed beneath the circular bandage thus formed, between it and the skin, and twisted till the blood ceases to flow. The screwing should only be continued till the bleeding stop; for if the bandage and stick be strong, and the twisting be continued, the cut parts beneath may be severely and unnecessarily bruised.

SCALDS AND BURNS—Require great promptitude and presence of mind. Be quick in removing the sufferer from the fire or hot water, and let him be put to bed immediately; cut the clothing off in pieces, and with much caution, as under rough handling the blistered or burnt skin may be torn off with it, and the accident rendered much more dangerous and difficult to treat. Remember, that as it is always hoped the scald or burn is confined to inflaming or blistering the skin, it is of the utmost consequence *not to burst the blister by tearing the skin, nor to let out the water it contains by picking it*. If the skin be unbroken, dry or wet applications, as they are most handy, may be used; but if the skin be broken, wet applications, if they can be got at once, are best; otherwise dry ones must be used, the object being to protect the exposed sensitive true skin that lies beneath the scalded skin, of which the blister consists, from the air, which renders it excessively painful.

The best and readiest dry materials are flour or cotton, or cotton wadding; the wet are spirits of turpentine, spirits of wine or good brandy, lime water, oil, lime water and milk, milk alone, or bread and milk poultice; and these wet applications must be made of sufficient warmth to feel comfortable to the finger, but not hot. Flour is

best dusted on with a dredger, and should be thickly strewed over the injured part and some little distance beyond it. A cambric or thin linen handkerchief, well flowered, should be wrapped round it. Cotton should be carefully pulled, so as to be free from lumps or knots, but cotton wadding is better: the unglazed side should be put next to the skin, in three or four thicknesses, and the whole confined with a roller.

Spirits of turpentine, or of wine, or any other spirits, heated by placing in a cup-full of warm water which the finger can bear, must be gently smeared over with a broad web of a leather, or a large camel's hair brush; this should be continued ten or fifteen minutes, after which, lint or soft linen thickly spread with a liniment of spirits of turpentine and yelow basilicon, should be applied and confined with a roller; the dressing should not be removed for twenty-four hours; then the part washed over with proof spirit, and the liniment as before re-applied immediately. The third dressing, twenty-four hours after, should have the liniment composed of the basilicon and camphorated oil; or if this should be too sharp, calamine or zinc ointment, thickly spread on linen, may be applied and continued. This is known as Kentish's treatment, and is much practised in the coal district.

If the scald or burn be very extensive, lime water and linseed oil is a most excellent application. One part of lime water must be mixed with two parts of oil, and stirred round quickly with the hand; into this a sheet or large piece of linen is plunged and thoroughly soaked, then wrung out lightly, and quickly wrapped round the limb or body. Lime water and milk in equal proportions, or the milk alone, may be used in like manner. Bread and milk poultice, thinly spread, is also a very good application, and in burns, where the skin has been much charred or roasted, it is the best application from the beginning.

In about forty hours, if the blister look as if its contents were milky with a red line of inflammation round its edge, the water must be let out with a point or a large needle, or three or four snips with the scissors; it should then be pressed down with a wad of lint, with a dressing of simple wax and oil.

When the true skin has been destroyed, a linseed poultice must be applied and continued till the dead part or slough come away: this must then be dressed with calamine or zinc cerate, and rolled; or it may be protected by sifting flour, or starch, powdered chalk, or calamine powder, repeated two or three times a day, if need be, till a thick crust be formed.

Burns with lime must be treated with vinegar, which converts it into a harmless substance, and then a poultice or a dressing of ointment and a roller must be resorted to. Quicklime in the eye must be washed with vinegar and water; inflammation is sure to follow, and leeches may be applied, and diligent bathing with warm poppy water or simple warm water; a smart purge must also be given.

BROKEN BONES—With a broken arm, the least painful method is to put the fore-arm at a right angle with the upper in a broad sling, which will contain it from the elbow to the points of the fingers; walking will be attended with less pain than being moved in a carriage of any kind. For a broken leg or thigh: a hurdle, a door, or a shutter, covered with straw, coats, or blankets, should be laid by the patient's side, and he gently lifted upon it; let the sound limb be brought close to the broken one, and tie them both firmly together with two or three handkerchiefs, and place a pad of long straw along the outside of the limb to keep it steady; take care to lay the broken bone as near as possible in its natural direction, and remember, that if by careless or rough handling an end of the broken bone be thrust through the skin, the mischief is seriously augmented. Broken limbs should not be set, that is, bound up with roller, splints, and pads, for the first three or four days, as, for some hours, the part continues swelling; at first, then, lay the broken bone in as comfortable a posture as possible, and as nearly as can be in its natural direction, with perhaps a single splint, lightly bound, to keep it steady. A broken collar-bone, or broken ribs, however, require immediate attention; this latter accident may be known, if at every breathing, a stitch or prick in the side of the chest be felt, and if the hand be placed on this part, and the breath be drawn in deeply, the ends of the bone will be felt moving on each other and giving a sort of crackling feel; a flannel or linen roller, about six yards long and two hands-breadth wide, must be wound tightly round the chest, so as to prevent any motion of the ribs in breathing, which must be performed by the midriff alone; this renewed twice during the month will suffice. If the ribs be broken on both sides, or the breast bone, the bandage will do mischief: there is little for it but complete rest, and such accidents are very dangerous. If the collar-bone be broken, place high up under the arm-pit, a pad as big as two fists, and twice as long, and secure it there; secure the elbow to the side with a bandage, and place the elbow and the fore-arm in a short sling, which lifts up the shoulder, and should be tied on the neck on the sound side. The bandages must be worn a month.

after the accident having subsided, the limb must be placed with the fore-arm bent at a right angle with the upper. The hand and arm are to be lightly swathed in a roller, the turns of which should overlap each other, and be continued a little above the elbow; and then a long roller well soaked in gum water or stiff starch may be swathed round the upper arm, from the elbow to the armpit. The limb must then be laid carefully on a pillow, in, as nearly as possible, its natural position; and in the course of a few hours the gum or starch dries, and a tough, unyielding, well-fitting case encloses the arm, and rarely requires being meddled with till it be removed at the end of a month.

An arm broken below the elbow, if but one of the bones be broken, may be treated in the same way. If both bones be broken, two padded splints are required, extending from the tips of the fingers to the bend of the elbow in front, and to the point of the elbow behind. The fore-arm is now bent on the elbow; the splints applied, one before, the other behind, and both bound firmly to it with a roller, from the fingers up to the bend of the elbow. The arm then resting on its back is to be put into a sling; and the splints must be kept on a month.

A broken leg, in most cases, can be managed easily and well by merely rolling it, from the middle of the foot to the knee, in a long bandage, well soaked in thick starch or gum water, which is preferable. The limb is then laid on its outside upon a smooth pillow, and little further remains to be done till the end of the month, when it may be removed.

A broken thigh, though a much more serious accident than any yet mentioned, may be managed quite as easily, and, in many cases, if the person will be quiet, without any splints, although it is better to use them. The patient must be placed on his back upon a firm mattress, laid on a board resting on the bed frame, as the sacking sinks with the weight of the body resting on it for some weeks. Two thick pads are to be made, one to cover the whole of the inside of the sound knee; the other, the inside of the ankle of the same limb. Both limbs must now be laid close together, in the same straight line as the body, resting on the heels, with the toes right upwards, and the calves flat on the mattress. Thus far done, the body must be kept immovable by one person, who grasps the hips with his two hands. A second person then takes hold of the broken limb with both hands, just above the ankle, and gently and steadily draws it down without disturbing its position, whilst a third places the knee-pad between the two knees, and the ankle-pad between the ankle. The gentle pulling being continued, the sound knee is brought close to that of the broken limb, but a little above it, so that it rests against the jutting inside of the joint, and then, both being kept close together, a pad, about as broad as the hand, must be turned round both legs, directly below both knees, and around this a roller, about three yards long, must be tenderly, carefully, and tightly wound, so as to prevent one knee slipping from the other. Both ankles are next to be tied together in like manner, care being taken that that of the sound is above that of the broken limb. A small pad is now to be put between the insides of both feet, and this completes the whole business; which, however simple, has been attended with as many good cures as under the more difficult and complicated treatment.

Broken bones with wounds of the soft parts running down to them, or compound fractures, are very serious accidents, and are dangerous in proportion to the size of the wound, and the tearing and bruising of the soft parts. Where medical assistance cannot be obtained, the great object in the treatment is to make the case a simple fracture, by healing the wound as quickly as possible, which should be attempted by uniting the edges of the wound by bringing them lightly together with strips of sticking plaster, and the limb should be covered with a light, cold, wet linen cloth, repeatedly moistened by squeezing a wet sponge over it. If, happily, the wound heal soon, much of the dreaded danger ceases, and after a few days the accident is to be treated precisely as if there had been no wound.

Dislocation of the arm into the arm-pit may be thus reduced.—Let the patient and the person who is to pull the arm into place, both lie down on the floor on their backs, side by side, but in contrary directions. The operator then places a towel into the patient's arm-pit on which he plants his naked foot between the chest and the arm, using the right foot or the left, as the right or left shoulder is displaced. He then grasps the patient's wrist with both hands, and pulls the arm down steadily; at the same time he tells the patient to make some little change in his position; and thus inducing him to call some other muscles into motion, the resistance is for a moment suspended, and at that moment the operator pulls a little more vigorously, and generally the bone returns to its socket with a more or less loud snap.

DROWNING.—In carrying a person apparently drowned, care should be taken to keep the head a little higher than the trunk; if a house be near, let him be carried to it with all expedition, stripped, and placed between the blankets, which may have been warmed whilst stripping the body. If at a distance from a house, and the sun be powerful, had better be at once stripped, and laid fully exposed to it, in such dry clothes as

may be procurable; the body should be wiped dry, the mouth cleared of the clammy froth, the head and shoulders a little raised, heat applied to the pit of the stomach and soles of the feet, and rubbing with a coarse flannel, or a jacket incessantly, over the body and limbs, but especially over the chest. The heat may be furnished by bottles of hot water, by hot bricks, sand, or ashes in woollen stockings, by a pan of warm coals, taking care it be not too hot, or even by immersion in a warm bath, if it can be had. Endeavour to get air out of and into the lungs, by pressing the chest and belly, but not so as to interfere with the rubbing, which is the principal thing to be relied on. This rubbing may be continued for some hours; there is a case on record of a person recovering when no sign of revival had appeared till the rubbing had been continued eight hours and a-half from the time of the accident. As early as possible, warm tea or weak wine and water, should be carefully given, taking especial care that it be put far back into the throat, or it may be poured into the windpipe and do serious mischief.

ACCIDENTAL POISONING.—If with *oil of vitriol* (sulphuric acid), give, as quick as you can, some strong soap, dissolved in warm water. If with *oxalic acid* (salt of sugar), give some *whiting* or chalk made into a thin cream with water, as quickly as possible.

In other cases of poisoning, give an emetic; to do this, take two teaspoon-full of common flour of mustard, (even that in the mustard pot will do), mix this with a small tumbler of warm water.

LIME WATER.—Take half a pound of unslacked lime, and three-quarters of a pint of water, mix them slowly in an earthen pot, and after three or four hours when the slacked lime has sunk to the bottom, pour off the clear fluid and cork it well, keeping the bottle from the light.

GOULARD WATER is made by dissolving one drachm of sugar of lead in a pint of soft water. When used for the eyes, two grains of the sugar of lead are to be dissolved in two table-spoonful of water.

CURE FOR SNAKE BITES.

The following method of treatment for the Bites of Snakes, Scorpions, Centipedes and other venomous creatures, has been extracted from the *Sydney Morning Herald*, and it has been considered advisable to adopt it without alteration, in justice to the subject and the writer.

IPECACUANHA, A CURE FOR VENOMOUS BITES.—You will oblige me by inserting the accompanying two cases, the result of the successful application of ipecacuanha, to the bites of venomous animals. One of my servants while bathing, felt something run into his foot, and on putting his hand into the water to ascertain what it was, received a similar injury on that member, but he succeeded in seizing the animal, which proved to be a fish about four inches long, armed with two processes of bone close to the abdominal fin. The natives call the fish *Singhee*.—I saw the man an hour after the receipt of the wounds; he then complained of severe headache, had a hot skin, and general fever; the hand and arm, also the leg and foot, were very much swollen, and excessively painful, the pain shooting upwards; the lids of both eyes were also very much swollen. I mixed the ipecacuanha powder with water to the consistence of mustard, and applied it to the injured parts; in two minutes the pain had ceased, in an hour after the fever had left him, and in the course of two days the swelling in all the parts had entirely subsided. I was induced to try the above remedy from having applied it with invariable success in several cases in the bite of the centipede. I was indebted to this hint to one of your correspondents, some three years ago, who wrote of the success that had invariably attended the application of ipecacuanha to the bites of the centipede. The second case was that of a palkee bearer, who was bitten on the right foot by a snake; but, owing to its being at night, the animal escaped. When I saw him, some time after the receipt of the injury, he complained of the leg feeling heavy, and a gnawing pain

throughout the whole of the limb: it was cold to the touch, and swollen. The man was suffering from great depression of the vital powers, and prostration of strength. I gave him a tablespoonful of sal volatile in a little water; and on examining the foot, discovered the two punctures where the fangs had entered. I scarified the part freely, and put the whole of the foot into hot water, but it did not bleed freely. I therefore applied the cupping glasses to the calf of the leg in two places. In a quarter of an hour I gave him another tablespoonful of sal volatile, still keeping the foot in hot water; the heaviness of the leg was less, but the gnawing sensation continued. Three-quarters of an hour after I first saw him I applied the ipecacuanha paste; in less than five minutes the man told me his foot was quite tight, and then the gnawing pain had entirely left it. The man remained in my verandah two hours, and had not any return of pain; he then went to his house in the neighbourhood, and the following day I heard he was free from pain, but that the leg was still swollen. For three days he applied goulard water, and in ten days came and made me a salaam, perfectly well. The scarifications had not quite healed, but the leg was of the natural size. H. J. SNAKE BITES.

To the Editors of the Sydney Morning Herald.

GENTLEMEN.—The kindness and humanity with which you some months since made room for a communication recommendatory of the powder of ipecacuanha as a remedy for the bites of snakes, centipedes, and other venomous animals, lead me once more to request a corner for a further paragraph on the same topic. My former paper was simply a copy of a letter from the Government Medical Officer at Hongkong, Mr. Thornton, detailing with great clearness the curative effects of a simple poultice of the powder of ipecacuanha applied to wounds of the above description.

The account appeared to me so satisfactory, as to lead me to resolve to seize the first opportunity of testing the efficacy of the drug. No such occasion, however, presented itself until last Saturday, when an industrious neighbour was bitten in the foot while collecting wood in the adjoining bush. She returned home with her leg swollen to an extraordinary size, and suffering such an excruciating pain as to be prevented from attending her ordinary avocations. I did not hear of the accident till Monday, when on inquiry, finding that the symptoms were in nowise abated, and that no medical assistance had been called in, a quantity of powder was sent for, and applied by an intelligent person in the form of a poultice, as directed by Mr. Thornton. On Tuesday morning the swelling had in a great measure subsided, the pain had ceased, and she was able to resume her usual work, and on Wednesday she was well.

The favourable impressions made by Mr. Thornton's letter were greatly confirmed by this case, and I think it ought to be generally known for the comfort and information of all who are exposed to such accidents, who are not a few. It will be generally a matter of difficulty to ascertain the character of the reptile inflicting the wound, as it is very likely to escape without detection: but if the drug shall be found deserving of the good character it has acquired in Hongkong, and which I am venturing to lay some claim for it here, it has the recommendation of being (as it is stated) effectual in the attacks of all the venomous creatures with which our bush is infested, and which add so materially to the hazards to which infant life is especially exposed, even in our cottage gardens and grounds.

It may be used in the simple form of a poultice, made without a moment's delay, and without the demand of any skill on the part of the person applying it: and moreover it does not interfere with or supersede any more scientific applications which may be adopted where medical assistance can be procured; but it appears to be capable of very salutary application when that assistance is at a distance or unattainable.

Since writing the above, another case of a snake bite has occurred, in which the wound was subjected to medical treatment with a successful result; the powder was also applied, but it would be impossible to say whether any share in the cure could be ascribed to it.

I beg to add, that I am a mere reporter of facts; not having the honor of any professional medical character, I should not be justified in offering any opinion on the subject.

I am Gentlemen, your obedient servant,

St Leonard's, North Shore, December 13.

STINGS, ETC.

(Communicated by W. G. Hall, Esq.)

"In connection with the useful remedies for the cure of Snake bites contained in p.p. 188 and 189 of the Almanac for the current year, you may possibly like to know, that the natives of this Island use a still more ready and simple remedy for stings from every

Treatment of severe and especially collapsed cases of CHOLERA, by Dr. W. G. MAXWELL. *Extracted from the "Home News" of September 19, 1855.*

HAVING observed in the HOME NEWS sad accounts of the ravages of cholera at Varna, both among the soldiers on shore and amongst the men of war, or its continuance even after the embarkation of the troops, and of their almost having fought the battle of the Alma while many of them were being more or less prostrated by the disease, I venture to offer the following observations in the hope of directing attention to a more uniform and successful treatment of the collapsed form of the great Asiatic pestilence.

I was formerly, and long, in the habit of treating all kinds of cholera alike, whether mild or severe, whether pulseless or not pulseless. Some of the equivocal cases recovered, but the majority of severe cases, and all the collapsed and pulseless cases, died. I now began to perceive that I had all along been deceiving myself: I had made no distinction between the different types and forms and stages of the disease, but had grouped all the cases together, the most mild with the collapsed: making it appear that I had been successful in an unprecedented degree. Many of the cases I had also not seen, but trusted to report. The true state of the case therefore was, that I had scarcely cured a case of severe cholera, and certainly none of true collapsed cases. The question then arose, what shall I do now? I still fondly clung to the hope of finding a specific. Nostriums were to be had at every turning. Every one had an infallible cure, urging me to try them. Inundated with these, and failing also myself, with the hundreds of remedies I continued to try, and having observed the fact recorded, that pulseless collapsed cases had recovered without medicine, I determined to witness one of these, and, in the meantime, to discontinue the use of all medicines in these collapsed cases.

I was called to see a case of pulseless collapsed cholera, in a female aged 12. At my next visit, the friends showed me another case, the grandfather of the girl; he had been ill for two days and nights, and had been laid out to die, in a separate place. Seeing the effect of my treatment on their daughter, whose case they themselves had considered hopeless, they resolved to try the same with their father, whom they now considered in a fair way of recovery. He had still a collapsed appearance, but there was an almost imperceptible pulse at the wrist, and some heat returning to the surface. At my visit next day, he walked into the house to meet me.

There was now no doubt in my mind that the main cause of death in the majority of my pulseless collapsed cases of cholera was my injudicious and indiscriminate treatment with narcotics. &c. I therefore determined to abandon the principles of treatment I had long adopted, and to follow the advice of Sydenham and other old authors, viz., to support the powers of life with nourishing diluents; not to overpower (as I had been doing) the already enfeebled heart with narcotics.

It appeared at last, then, evident to me that the blood in cholera was not only losing its watery and saline portions, but was at the same time losing, and had lost much of its nitrogenous and non-nitrogenous compounds, and with these, the elements of respiration and motion; that is, the elements of combustion, or "fuel," or what we all know by the common word, support. By the time, too, that a cholera patient is generally first seen, he has lost many pints of fluids, and these more or less in a state of decomposition, thus showing the state of the blood; the blood has also lost its supply of nourishment of the last 12 hours at least, and it has lost also that which it would have had on the day of the attack—a moment's reflection will show what a loss it has sustained; in addition to all this, the remaining blood is itself in a state of change; its constituents are breaking up into new compounds inimical to combustion (respiration, life); it becomes more or less acid; its gaseous compounds begin to be devolved, and if support (fuel) is not soon supplied, the pulse stops, and the body becomes cold and clammy (exactly, so far like an artificial engine which stops and becomes cold for want of water and fuel, both of which are contained in nourishing drinks).

Now, in cases of exhaustion or starvation, we do not give opium and narcotics to extinguish, as we know they would the little remains of life (just as a flickering lamp is extinguished with too much oil), we give the natural nourishing drinks of whatever is presented to us by the bountiful hand of Providence. We give milk and gruel and jellies, and tea and whey, and barley-water and congee, and arrow-root and sugar, and chicken and mutton-broth, and beef tea, &c.

* Observed by me in dissections of fatal cases of Cholera in Europeans and Natives—the veins half of gases.

Yet how infinitely more, I thought, must these nourishing drinks be required in cholera, where there is not only far greater and more rapid debility and exhaustion, but where there is also a constant drain, and the blood itself in a state of decomposition. It was also evident to me that no medicine could supply the place of this natural nourishment to the system, and therefore till that nourishment, that support, that fuel, was supplied, the pulse would not return, nor warmth to the surface, but that life would continue to ebb till death ensued.

Reasoning after this manner and while collapsed cases were still continuing to die under my then treatment, I determined (as I have said) at once to abandon it, and to follow Sydenham whom I had so long neglected.

It was not long before I had an opportunity; an outbreak of cholera occurred in my immediate vicinity, and pulseless and collapsed cases came under treatment. Several of them had been treated before with opium and other medicines; most of them were in the last stage; and most of the patients were in poor circumstances. I commenced the above system in every case as soon as I was called, and gave whatever drink I could get ready first; while that was being given, another kind was being prepared; they were generally given as hot as possible, and as often and as much as the patient wished, and they were relieved greatly; the patients had, generally speaking, been drinking cold water for hours before I saw them. In some cases, the pulse returned in an hour, in other cases, not till after 12 hours; in an old lady of 70 or 80, the pulse returned in an hour after drinking three or four basins of chicken broth; in another case of a delicate lad who had been ill for 12 hours, the pulse did not return till after other 12 hours, during which he had taken the broth of five chickens; in other pulseless collapsed cases, of two day's duration, when gruel was the only drink given and the pulse returned.

Of the 57 cases, 47 recovered and 10 died.

Under my former treatment, all these 57 collapsed, pulseless hopeless cases must have sunk.

I will not enter here into any details, which would confuse or distract attention from the main object; suffice it to say that the above treatment must be continued till a copious warm perspiration takes place, which is the favourable crisis. Therefore remember this, and this too, that no medicine, no nostrum, no specific (so-called), can produce this; nothing, in short, but that pabulum vite, that support, that natural fuel, supplied with an unsparring hand in an almost continued and uninterrupted stream.

The disease having terminated in a profuse, warm, critical perspiration, there will be little or no consecutive fever or sequela. The medical detail of this subject will be considered fully in the medical journals; suffice it here to remark, that if there has been neglect on the patient's part, or mismanagement on the part of the physician, and consecutive fever should have come on, then the same principles of treatment must be pursued, to produce, if possible, the natural cure, which is here also a profuse perspiration. Should not this soon occur, and the poisonous grass green bile not be eliminated and freely passed, then calomel with the vegetable bitters, &c., will here produce marvellous effects, if judiciously used, and aided by other means, indicated by any cerebral or other symptoms.

From the general tenor of the foregoing observations, the deduction or inference at the present crisis is plain, viz., that a Soyer should accompany each corps to the field, that he should have an ample organised establishment under him for the supply of refreshing drinks (quite independent of that for the supply of rations). Let the soldier know that he can have at any time when exhausted, a refreshing beverage of smoking tea or coffee, &c. &c., and return again with renewed energy, to the field; let the sick too, that fall out, be at once treated as I have described, and then, and not till then, will the mortality be lessened, and the miseries of these battle fields assuaged.

In conclusion, I need scarcely remark, that not only is a system of this kind indispensable to the soldier in the field of battle, but equally so in crowded towns and cities, when cholera breaks out amongst its poorest inhabitants.

* * In cases of Diarrhoea and Dysentery, the recently introduced Medicine, "CHLORODYNE," has been found most valuable, from the certainty and rapidity of its curative effects. In his own case, and in that of several others to whom he has recommended it, the Compiler of our Almanac has had experience of its beneficial properties, which are alleged to be equally efficacious in cases of Cholera.

THE MARSHALL HALL METHOD

OF

TREATMENT IN CASES OF SUSPENDED RESPIRATION FROM DROWNING; CHILDREN
APPARENTLY STILL-BORN, ETC., ETC., ETC.*Dr. Marshall Hall's Instructions.*

- 1.—Treat the patient *instantly, on the spot, in the open air, exposing the face and chest to the breeze, (except in severe weather.)*

I.—TO CLEAR THE THROAT.

- 2.—Place the patient gently on the face, with one *wrist* under the forehead. [All fluids, and the tongue itself, then fall forwards, leaving the entrance into the windpipe *Free.*] If there be breathing—wait and watch; if not, or if it *fail*—

II.—TO EXCITE RESPIRATION.

- 3.—Turn the patient well and *instantly* on his side, and
- 4.—Excite the nostrils with snuff, or the throat with a feather, &c., and dash cold water on the face, previously rubbed warm.—If there be *no success, lose not a moment, but instantly,*

III.—TO IMITATE RESPIRATION,

- 5.—Replace the patient on his face, *raising* and supporting the chest *well*, on a folded coat or other article of dress;
- 6.—Turn the body very *gently on the side and a little beyond*, and then *briskly* on the face, alternately; repeating these measures deliberately, efficiently, and perseveringly *fifteen* times in the minute, occasionally *varying the side*. [When the patient reposes on the chest, this cavity is compressed by the weight of the body, and *expiration* takes place; when he is turned on the side, this pressure is removed, and *inspiration* occurs.]
- 7.—When the *prone* position is resumed, *make* equable but efficient *pressure*, with brisk movement *along the back of the chest: removing* it immediately before rotation on the side. [The first measure augments the *expiration*, the second commences *inspiration.*]

* * THE RESULT IS,—RESPIRATION; AND, IF NOT TOO LATE,—LIFE!

IV.—TO INDUCE CIRCULATION AND WARMTH.

- 8.—Meantime rub the limbs *upwards*, with *firm grasping pressure* and with *energy*, using handkerchiefs, &c. [By this measure the blood is propelled along the veins towards the heart.]
- 9.—Let the limbs be thus warmed and dried, and then clothed, the bystanders supplying the requisite garments.
- 10.—*Avoid the continuous warm bath, and the position on, or inclined to, the back.*
